

Frankfurt Data Center (FRA-2)

FRA-2 is a 38.500 m² facility located in the Am Martinszehnten Industrial Park, close to both the city center and Airport in the heart of Frankfurt, one of Europe's leading data hubs. It offers over 10.6 MW of power in a wide range of configurations. The facility provides the highest levels of redundancy, security, efficiency, and connectivity, aligning with Iron Mountain's industry-leading global compliance standards, and offering easy access to hundreds of leading networks and clouds with on-site access to the world-leading DE-CIX Internet Exchange.

Why choose FRA-2?

- **Strategic Location**
  Frankfurt is the second largest of Europe's leading FLAP data center markets, with excellent strategic proximity to Central and Eastern Europe.
- **Compliance**
  Exceptional reliability and efficiency in line with the industry's most comprehensive compliance program.
- **Interconnection**
  Frankfurt is home to DE-CIX, one of the world's busiest Internet Exchanges, with access to hundreds of major AS networks.

"For customers that know how important good quality infrastructure is, our collaboration with Iron Mountain is a significant plus."
