ARTICLE 1

GENERAL

1.A. DEFINITIONS

The definitions that apply to terms used in all the Medical Staff documents are set forth in the Medical Staff Credentials Policy.

1.B. DELEGATION OF FUNCTIONS

- (1) When a function under this Manual is to be carried out by a member of Administrative Leadership, a Medical Staff member, or by a Medical Staff committee, including a Peer Review Committee, the individual, or the committee through its chair, may delegate performance of the function to a qualified designee who is a Practitioner or Hospital employee (or a committee of such individuals). Any such designee must treat and maintain Privileged Peer Review Information in a strictly confidential manner and is bound by all other terms, conditions, and requirements of the Medical Staff Bylaws and related policies. In addition, the delegating individual or committee is responsible for ensuring that the designee appropriately performs the function in question. Any documentation created by the designee are records of the committee that is ultimately responsible for the review in a particular matter.
- (2) When an individual assigned a function under this Manual is unavailable or unable to perform that function, one or more of the Medical Staff Leaders may perform the function personally or delegate it to another appropriate individual.

1.C. SUBSTANTIAL COMPLIANCE

While every effort will be made to comply with all provisions of this Manual, substantial compliance is required. Technical or minor deviations from the procedures set forth within this Manual do not invalidate any review or action taken.

ARTICLE 2

CLINICAL DEPARTMENTS

2.A. CREATION AND DISSOLUTION OF CLINICAL DEPARTMENTS

- (1) Clinical departments shall be created and may be consolidated or dissolved by the MEC upon approval by the Board as set forth below.
- (2) The following factors shall be considered in determining whether a clinical department should be created:
 - (a) there exists a number of members of the Medical Staff who are available for appointment to, and are reasonably expected to actively participate in, the proposed new department (this number must be sufficiently large to enable the department to accomplish its functions as set forth in this Manual and in the Bylaws);
 - (b) the level of clinical activity that will be affected by the new department is substantial enough to warrant imposing the responsibility to accomplish departmental functions on a routine basis;
 - (c) a majority of the voting members of the proposed department vote in favor of the creation of a new department;
 - (d) it has been determined by the Medical Staff leadership and the Hospital President that there is a clinical and administrative need for a new department; and
 - (e) the voting Medical Staff members of the proposed department have offered a reasonable proposal for how the new department will fulfill all of the designated responsibilities and functions, including, where applicable, meeting requirements.
- (3) The following factors shall be considered in determining whether the dissolution of a clinical department is warranted:
 - (a) there is no longer an adequate number of members of the Medical Staff in the clinical department to enable it to accomplish the functions set forth in this Manual or in the Bylaws;
 - (b) there is an insubstantial number of patients or an insignificant amount of clinical activity to warrant the imposition of the designated duties on the members in the department;

- (c) the department fails to fulfill all designated responsibilities and functions, including, where applicable, its meeting requirements;
- (d) no qualified individual is willing to serve as chair of the department; or
- (e) a majority of the voting members of the department vote for its dissolution.
