Personalized insurance for low-mileage drivers

## Drive Less, Save More

If you're a low-mileage driver, or have an extra vehicle that doesn't hit the road very often, there's an innovative new way for you to save on car insurance — pay as you drive!

**MilesMyWay** — a pay as you drive program — empowers you to earn savings based on how many miles you drive. When you drive less, you can earn greater savings — **up to 25% savings each month** — which means you'll only pay what's fair, based on your actual mileage.\*

With this personalized program, you can **take control of what you pay for car insurance** while still enjoying the same great auto coverage that American Family always provides. Plus, you'll never have to worry about paying extra just because you drove more than expected, because MilesMyWay won't raise your premium or charge penalties if you have higher-mileage months. That means you get the flexibility to match your unique lifestyle, bigger savings when you drive fewer miles and the benefit of a predictable premium, which can help keep your budget happy!

So if you drive less than 8,000 miles a year and are ready to start saving more on car insurance by paying as you drive, MilesMyWay could be the perfect fit for you and your wallet.

## How Does it Work?

With MilesMyWay, your mileage is tracked automatically so you don't have to worry about logging trips or keeping monthly records. Earning your savings is easy!

1. First, **enroll in the program** by contacting your local American Family agent.
2. Next, **we'll send you a small sensor** that goes inside your car — no plug-in required.
3. Then, **download the free MyAmFamDrive app** and register your account.
4. After that, **the app automatically tracks your mileage** through the sensor.
5. That's it — all that's left is for you to **watch your savings increase!**
