AFL Cable Reels

AFL offers a range of hand-winding cable reels in various sizes to suit different cable diameter and length requirements. They are available in a specialised plastic/rubber or steel construction and can be supplied empty or as part of a cable assembly.

Features

- Lightweight and easily moveable
- Made from very strong materials, perfect for harsh environments
- Auxiliary spool for tail end storage
- Weather proof

Applications

- Broadcasting
- Military
- Harsh environment
- Anywhere that cable is used for temporary deployment
