Type 1 (MOD)

Type 2 (36SCV)

Type 3 (48SCV)

FRE Fibre Optic Rack Enclosure – 1RU Fixed

AFL's 1RU fixed enclosures are proudly designed and assembled in Australia.

This range of enclosures cater for a variety of cable types, including loose tube and tight buffered cables. The range has various types of front panels to suit a specific fibre count.

Features and Benefits

- Choice of front panels:

  These enclosures have three types of front panels for housing adaptors. This can be particularly useful for high density applications where there is restricted rack space

  Type 1 (MOD): This is the standard twin aperture modular style that will hold all types of panels. Max 48 fibres

  Type 2 (36SCV): This panel has 36 angled ports for holding SC and LC duplex style adaptors

  Type 3 (48SCV): This panel has 48 flat ports for holding SC and LC duplex style adaptors

- Internal fibre clips for managing incoming cables and terminated fibres
- Flat rear bracket with cut-outs suitable for securing both unterminated and pre-terminated tight buffer and loose tube cable
- Silkscreen panel locaters for ease of fibre identification
- Flat rear bracket with four rodent protected knockout holes suitable for securing both unterminated and preterminated tight buffered and loose tube cable

Applications

- Fusion splicing of loose tube or tight buffer cables
- Direct termination of tight buffer cables
- Pre-terminated loose tube or riser cables
- Suitable for shallow racks where in-rack cable movement is problematic
- Housing fibre optic passive devices
- Suitable for installations where protection against rodent ingress is required

Technical Specifications

Part Number	**FRE-1RU-MOD-F**	**FRE-1RU-36SCV-F**	**FRE-1RU-48SCV-F**
Description	1RU 2 panel modular fixed enclosure	1RU 36 port angled SC fixed enclosure	1RU 48 port flat SC fixed enclosure
Dimensions (mm) (w) x (d) x (h)	435 x 250 x 44		
Weight (kg)	4		
Max fibre count	24 ST, FC, SC and 48 LC	36 SC and 72 LC	48 SC and 96 LC
Max recommended incoming cables	2 each side		
Material and colour	Powder coated 1.6 mm mild steel – Charcoal grey		
Accessory kit	Standard accessory kit includes: cable management clips, strain relief post, cable ties, fixing bolts and nuts, Velcro strap and connection record sheet
