**Imaging Dementia—Evidence
For Amyloid Scanning**

***PET Imaging Facility
Information and Training***

Module Overview

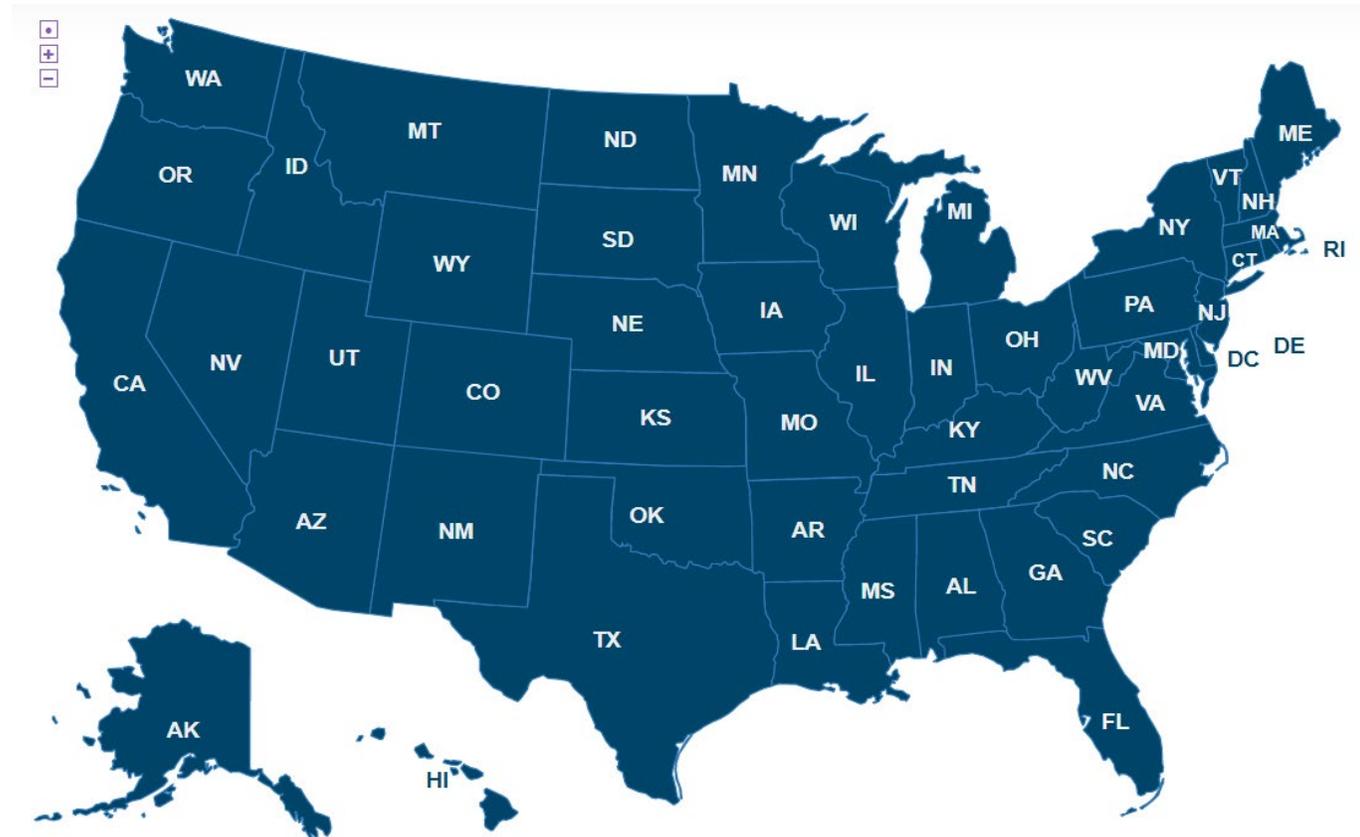

- Protocol Introduction: **Slides 3-12**
 - Including Medicare Reimbursement
- Facility and Physician Registration: **Slides 13-27**
- Case Specific Data Entry: **Slides 28-46**
 - Including Image Transmission via TRIAD
- Additional Resources: **Slide 47**

Important New IDEAS Information

- PET imaging facilities are not considered as participating in research, so Institutional Review Board (IRB) approval is not needed.
- Medicare will reimburse for scans based on coverage plans (typically 80% coverage provided). This study is the only way Medicare covers beneficiaries for these scans.
- As part of the New IDEAS Coinsurance Reimbursement Program, the study sponsor will pay for the unmet coinsurance associated with the amyloid PET scan for patients who receive a scan on or after January 1, 2022.
- No escrow account is needed for patient scans.
- PET image transfer will be conducted via the American College of Radiology® TRIAD platform.
- Emphasis on balancing racial and ethnic make-up of study population.
 - At least 4,000 of the planned 7,000 New IDEAS participants will be Black or Hispanic which may allow better understanding of amyloid PET's impact on change in management and health outcomes in diverse dementia cases.

New IDEAS Site Selection Process

- Reminder: Dementia Specialists and PET Imaging Facilities will be selected on a rolling basis.
 - PET Imaging facility must be within 3-4 hours of an amyloid tracer supplier.
- Site Locator for Enrolled Dementia Specialists and PET Imaging Facilities:
<https://www.ideas-study.org/Find-a-Site>
- Interested sites start the application by completing the New IDEAS questionnaire:
<https://www.ideas-study.org/Getting-Started>

PET Facility Requirements

- Free standing PET facilities must be PET accredited by one of the following:
 - The ACR
 - The Intersocietal Accreditation Commission (IAC)
 - RadSite
- Hospital based facilities must be accredited by the Joint Commission (or another Medicare-approved hospital-based accrediting organization).
 - Not required, but recommended: PET accreditation by ACR, IAC or RadSite.
- The PET facility must document that it has experience performing brain PET, PET/CT or PET/MRI with one of the FDA-approved amyloid imaging agents or with F-18 fluorodeoxyglucose or with both in the last 12 months.
- Complete and execute a Clinical Data and Image Access Agreement with ACR.

Scanner and Tracer Requirements

- PET facilities may only participate if they have full-ring BGO, GSO, LSO or LYSO PET, PET/CT or PET/MRI scanners.
 - Partial-ring systems and dedicated NaI systems are not eligible for use in the New IDEAS Study.
- Scans must be conducted using one of the following tracers:
 - Neuraceq™ (F-18 florbetaben)
 - Amyvid™ (F-18 florbetapir)
 - Vizamyl™ (F-18 flutemetamol)

Interpreting Radiologist Requirements

- Board certified by one or more of the following:
 - American Board of Radiology (Diagnostic Radiology)
 - American Board of Radiology (Nuclear Radiology)
 - American Osteopathic Board of Radiology (Diagnostic Radiology)
 - American Board of Nuclear Medicine
 - American Osteopathic Board of Nuclear Medicine
- Completed Vendor Specific Training for interpretation of amyloid images.
 - Trainings guidance available at: <https://www.ideas-study.org/-/media/Ideas/Files/PET-Facilities/Amyloid-Radiotracer-Reader-Training-Guidance.pdf>
- Eligible to bill Medicare for PET services.

Medicare Reimbursement

- PET imaging facility may not perform a New IDEAS Study PET scan until the referring physician has submitted a pre-PET clinical assessment form to the New IDEAS Study database.
- Once the PET scan has been completed and the appropriate data uploaded to the New IDEAS Study database, a system-generated notification is sent from the email address NewIDEAS@acr.org to the PET imaging facility administrator indicating that the case data are complete.
- These notifications should be maintained as documentation in the event that CMS opts to audit the PET imaging facility.
- After receiving the notification, the PET facility (and the interpreting physician, if technical and professional component billing are performed separately) may submit the claim for the service to the local Medicare Administrative Contractor (MAC) or MA plan as appropriate.

Medicare Reimbursement (continued)

Hospital-based PET Facilities:

The National 2021 OPPS payment for CPT code 78811 or 78814 (limited body PET or PET/CT, respectively) is \$1,305.94 - \$1,480.34, respectively (rates are adjusted by local wage indexes, so the exact payment will vary slightly based on region).

Payment for the diagnostic radiopharmaceutical is packaged into the OPPS payment amount. For hospital-based PET facilities, there is a co-payment or co-insurance associated with the procedure.

Physician Offices and Independent Diagnostic Testing Facilities (IDTFs):

For physician offices and IDTFs, payment is determined by the Medicare Physician Fee Schedule (MPFS). The technical component payment for the procedure is carrier priced but is often capped at the OPPS technical component rate (For CPT 78811 at \$1,305.94 and 78814 at \$1,480.34).

Payment for the diagnostic radiopharmaceutical is based on the invoice cost (approximately \$3,000, depending on the product used).

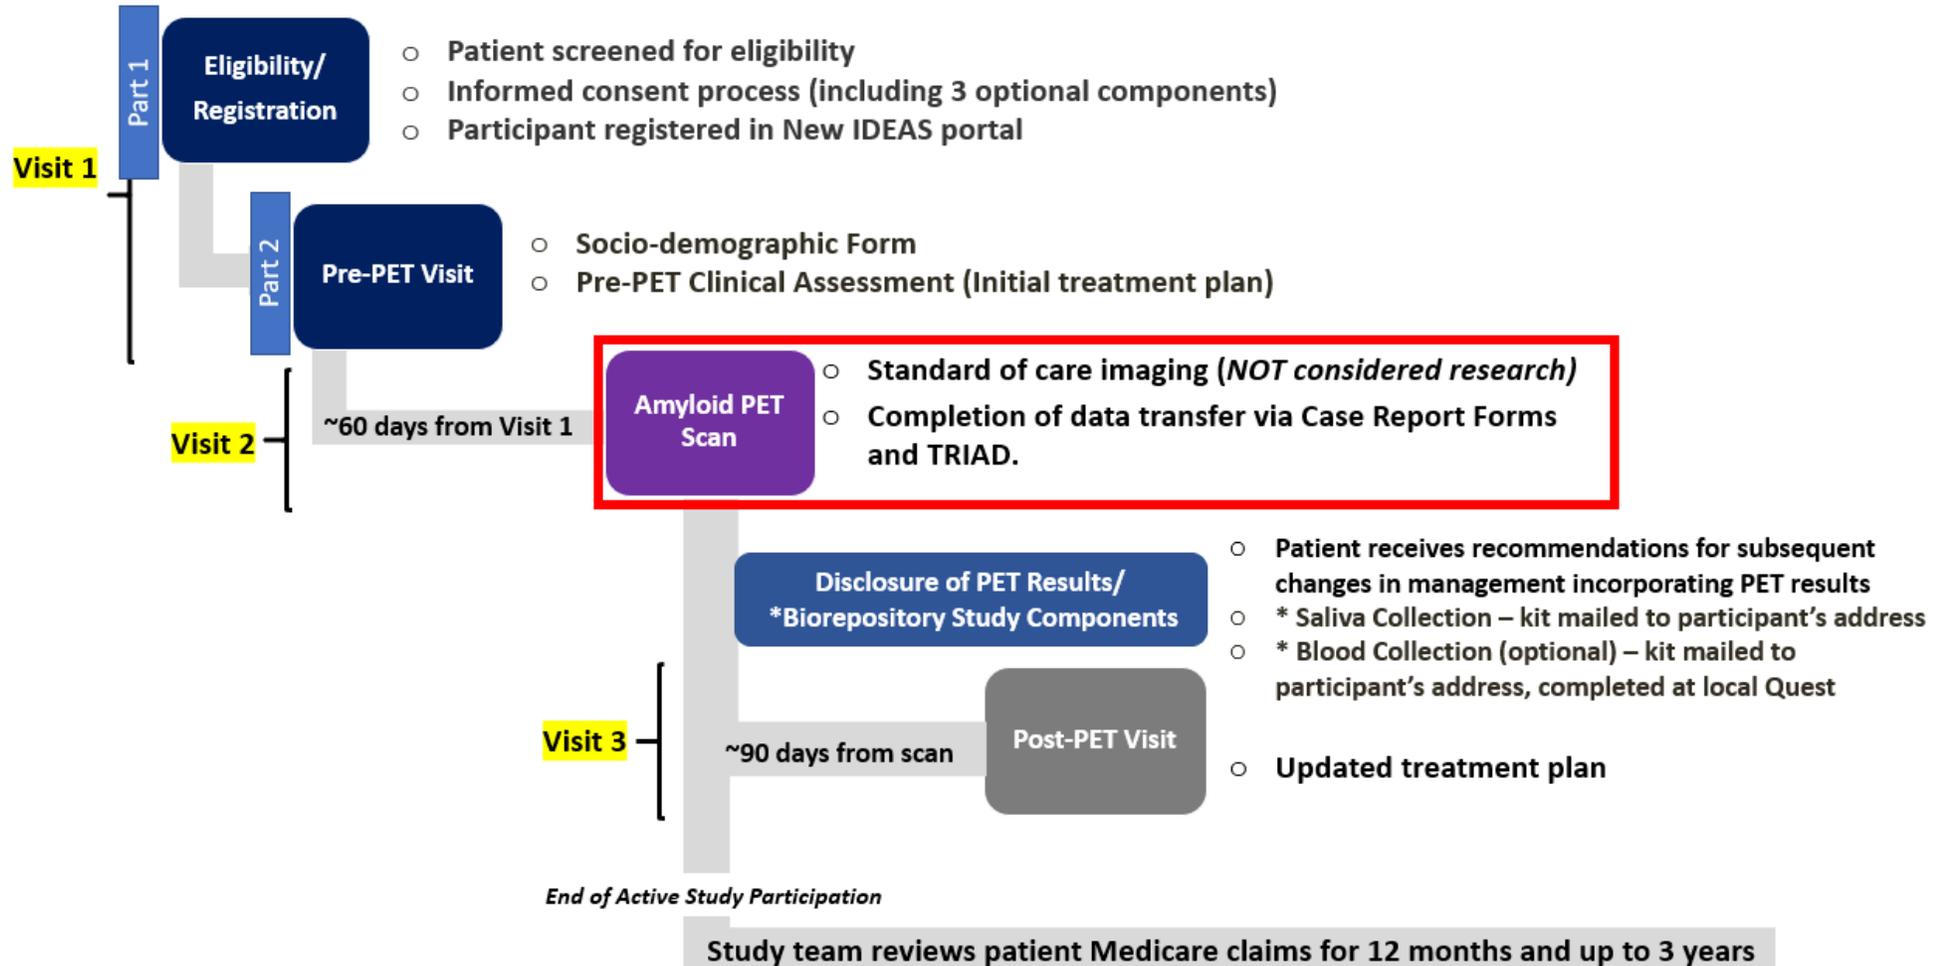

In the MPFS setting, all rates are subject to co-payment, co-insurance and any deductibles that the patient's Medicare plan requires. The co-payment policies for the diagnostic radiopharmaceutical differ in the MPFS setting versus the OPPS.

Coinsurance Reimbursement Program

- Review the [Operational Training: New IDEAS Coinsurance Reimbursement Program Training Module](#) for in depth training on the Coinsurance Reimbursement Program.
- All PET imaging facilities and dementia practices that choose to participate in the New IDEAS study must adhere to the [Coinsurance Reimbursement Program Policy](#).
 - Failure to comply with this policy or requirements specified by the New IDEAS Study will result in termination of the participating PET imaging facility or dementia practice as detailed in the study's executed legal agreement.
- Additional Resources:
 - [Frequency Asked Questions](#)

Participant Study Timeline

Training Materials

- Updated New IDEAS training materials for PET Imaging Facilities can be found at <https://www.ideas-study.org/During-Study/Resources>.

Important Portal Information

Link to portal:

<https://app.ideas-study.org/>

Processed via a secure, role-based online application with a two-factor authentication system (Okta)

- Each user is required to have his/her own username/password and current e-mail address for access and receipt of notifications/alerts.
- Passwords must be changed every 90 days.
- Physicians must complete their own data entry

Registration Overview

- Registration should only be completed if your facility was invited to the New IDEAS study by ACR staff.
- PET Facility registration is a **one time event to be completed by the facility administrator** (overall access).
- **Each user is required to have his/her own username/password and current e-mail address** for access and receipt of notifications/alerts.

Facility User Roles in the New IDEAS Portal

- To access your Facility's account in the New IDEAS Portal, your facility administrator needs to assign you a user role. (Note: a single user can have more than one role in the database).

Facility Administrator	Interpreting Radiologist	Facility User	Facility Finance User
<ul style="list-style-type: none"> • Automatically assigned to the person who initially submits the facility pre-registration form (next slide) • Has complete administrative functionality in the New IDEAS portal • Responsible for administrative duties associated with facility registration and addition of staff profile accounts • Has view access to all forms and edit/submission access to all forms except Amyloid PET Assessment Form • Has edit/submission access to the Coinsurance Reimbursement Form, but NOT Banking/Tax information for Facility 	<ul style="list-style-type: none"> • Has view, edit and submission access to all case report forms • Only user role that has edit and submission access to Amyloid PET Assessment Form 	<ul style="list-style-type: none"> • Has view access to all forms and edit/submission access to all forms except Amyloid PET Assessment Form 	<ul style="list-style-type: none"> • New role for Coinsurance Reimbursement Program • Only user role that has access to facility finance portal • Responsible for submitting facility banking and tax information • Has edit/submission access to the Coinsurance Reimbursement Form • Has view only access to Case Registration Form

Can't access your facility's account?

Imaging Dementia—Evidence
For Amyloid Scanning

Welcome to the New IDEAS Study Registration Portal!

Welcome to the New IDEAS Study Registration Home page for Referring Physicians Practice and PET Facilities. Prospective study sites and imaging centers may submit required information to register for the New IDEAS—Study.

If you have not registered with the New IDEAS Study, click the appropriate link below to begin the process.

If you would like more information regarding the registration process and study requirements, click “Referring Physician” or “PET Facility” to be redirected to the applicable New IDEAS web pages to facilitate your successful participation in the Study.

Referring Physician Practice
Click here to begin the registration process to join the New IDEAS Study as a Referring Physician. Individual participating physicians should be registered by an administrator once the practice has been registered.

Andrew March

New IDEAS Study PET Facility Pre-registration Form

Thank you for your interest in participating in the New IDEAS Study.

Each PET Facility participating in the New IDEAS Study must complete this web-based Facility Pre-Registration Form to receive a unique 4-digit Facility Number and to set up a Facility Administrator User ID. The Facility Administrator will then be able to log in and complete the full Facility Registration Form. The entity applying as a PET Facility should be the entity that bills Medicare for either the technical charges or the global charges for PET studies. In the case of a mobile PET provider that bills Medicare directly, a separate application form must be completed and a separate Facility ID number will be assigned for each location of service.

Name of PET Facility

PET Facility Contact Person

This person will become the PET Facility Administrator, and the official contact person for the New IDEAS Study.

First name

Last name

Email Address

HUMAN SUBJECT PROTECTION COURSE COMPLETION CERTIFICATE (return here when ready to upload)

Each user will be required to receive Human Subject Protection course certificate. If a user does not already have a certificate ready for upload, a link to the Human Subject Protection course is available on the Human Subjects Research site <https://about.illprogram.org/en/series/human-subjects-research-form>.

Upload Human Subject Protection course certificate (allowed file extensions: pdf, max file size: 10Mb)

Upload Human Subject Protection course certificate

Registration Form Overview

- After a Pre-Registration Form is completed, a PET Facility Registration Form will be generated. Complete the PET Facility Registration Form.
- Overview:
 - PET Facility Administrator Information
 - PET Facility Information
 - PET Facility Accreditation Information
 - Scanner Information
 - Staff Information
 - Interpreting Radiologists/Nuclear Medicine Physician Information

Registration Form Example

After a Pre-Registration Form is completed, a PET Registration Form will be generated. Complete the PET Facility Registration Form.

PET Facility Registration Form

Facility

Users

Physicians

Scanners

Save My Work

Please complete this form to register your facility for the New IDEAS Study.

Each PET facility will register for the New IDEAS study via a web login. Each PET facility must also complete a PET Facility Data Access Agreement with the ACR (contract). The Facility Administrator will be asked to list physicians who will be interpreting images for the New IDEAS study. Physicians who are registered below will receive an e-mail notification with a username and temporary password. Upon successful login, each physician will attest to Board certification and vendor-specific radiopharmaceutical training. Facility administrators may make additions and subtractions to the physician list throughout the study as needed.

PET Facility ID#: 10702

Identify your unique PET Facility ID #

PET Facility Administrator

Add Physicians and Facility Staff

1. Select the type of user you want to add (e.g. Radiologist, Registrar, etc.)
2. Enter personal information for the new user.
3. An automated email will be sent to the email address entered for that user.
4. Instruct your team member to click on the link they receive in their email to activate their account (Note: Check SPAM folders).

Dementia Specialists *

Upon submission of this form, an account will be created for each Dementia Specialist at your site. The login credentials will be emailed to the physician.

PLEASE NOTE: THE PHYSICIAN IS REQUIRED TO LOGIN AND CREATE AN ACCOUNT PRIOR TO SITE APPROVAL

Add Physician

Registrars

A dementia specialist (physician) may delegate the consent and registration of the subject to a coordinator or similar person. Please list below.

Subject Line: New IDEAS-Study Interpreting Radiologist/Nuclear Medicine Physician Registration Confirmation

PET Facility Name: **Name of PET facility entered on Pre-Registration Form**
PET Facility ID#: **4-digit ID number**

Your Facility Administrator has registered you as a Radiologist/Nuclear Medicine Physician for the New IDEAS Study.

The New IDEAS (Imaging Dementia—Evidence for Amyloid Scanning) Study is managed by the American College of Radiology and thus requires an ACR ID (username) to access the recently upgraded database.

Please read the following instructions before clicking on the study link below.

All users, including users with existing ACR IDs, need to sign up for a new ACR account to access the New IDEAS portal. Existing IDs do not work for the New IDEAS study. Click on “Sign up”, then fill out the necessary information. Upon submission, you will be sent another automatic email to ‘verify’ your ACR ID. Do so by clicking the link in that email and login to the New IDEAS portal. To access the study portal at any time, navigate to the [study website](#) and click “Login” in the top right-hand corner.

Once logged in you should see your name in the top right corner. **Do Not re-register your facility.** This has already been done. Instead, click on your name then click ‘physician profile’. You will be prompted to confirm your Board and Subspecialty certification(s) and verify completion of vendor specific training. Click submit and wait to be approved by the ACR.

To access your facility’s registration page, click ‘Facility Management’ along the top.

Note: the link below must be used in order to connect your account to the correct site. This link expires after 10 days. Once expired, your site administrator will have to re-issue the link from their account.

To log in to New IDEAS please access the following secure New IDEAS link and complete the steps outlined above: **CLICK ON LINK TO LOGIN**

We look forward to working with your facility on the New IDEAS Study!

Best Regards,
The New IDEAS-Study Team

[IDEAS-Study.org](https://www.ideas-study.org)

Physician Profiles

Every Interpreting Radiologist added to the portal will need to:

1. Click on the login link in the automatically generated email from the New IDEAS portal.
2. Create a New ACR ID with a unique email address and set up two-factor authentication.
3. Login to the New IDEAS portal at <https://app.ideas-study.org/>
4. Use the site selection drop-down menu to the facility.
5. Click on his/her name in the top right-hand corner and select “Physician Profile”
6. Complete the following sections:
 - ✓ Personal information
 - ✓ Upload Human Subject Protection Course Completion Certificate *optional
 - ✓ Vendor-Specific Training for interpretation of amyloid images
 - ✓ Board and Subspecialty Certification(s)
 - ✓ Eligibility to bill Medicare for services
7. Review responses and Click “Submit.”
8. A member of the ACR New IDEAS Team will review and approve each Interpreting Radiologist.

- Completed Physician Profile
- Approved by study team.
- Status is "Approved"

Radiologist 1

- May not have activated ACR ID.
- May not have submitted physician profile
- Has not been approved.
- Status is "Incomplete"

Radiologist 2

Facility Activation Requirements

The New IDEAS Operations Team at ACR will activate your facility when you complete the following tasks:

- ✓ Complete the New IDEAS Referring Physician Site Agreement and BAA fully executed.
- ✓ Interpreting Radiologists are approved by the New IDEAS Operations Team.
- ✓ Accreditation status is added to the portal and approved by the New IDEAS Operations Team.

ACR Staff Only

- New IDEAS PET Facility agreement and BAA fully executed
- Radiologist Approved
- Accreditation Approval

Facility Approval Yes No

Facility Active Yes No

Protocol Reminder for Facility Activation

Your facility is only active for scanning patients for New IDEAS **AFTER** you receive approval from the New IDEAS Study Team.

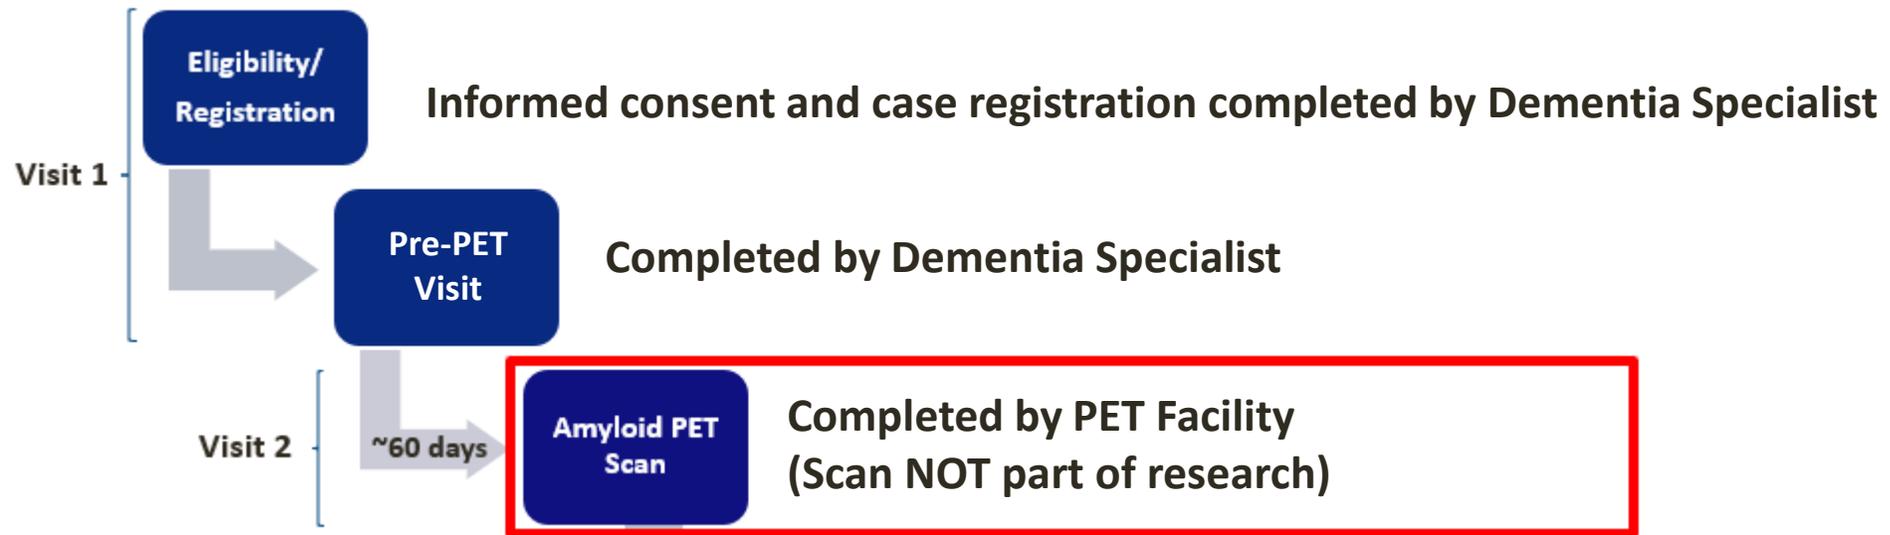

- Your facility administrator will receive an email notification when an ACR New IDEAS study staff member has activated your facility.

Study Forms Overview

Form/Assessment:	Must be completed by:	Requirements:
Amyloid PET Scan	PET Imaging Facility	Must be completed <u>within 60 Days after Pre-PET electronic Case Report Form Completion.</u>
Amyloid PET Completion Form	Facility Administrator, Registrar or Interpreting Radiologist	Must be completed by the PET Facility via Web-based data entry <u>within 7 days after completing the Amyloid PET scan.</u>
Amyloid PET Report	Facility Administrator, Registrar or Interpreting Radiologist	Must be completed by the PET facility via Web-based data entry <u>within 7 days after completing the Amyloid PET scan.</u>
Amyloid PET Assessment	Interpreting Radiologist ONLY	Must be completed via Web-based data entry <u>within 7 days of the scan.</u>
Coinsurance Reimbursement Form	Facility Administrator or Finance User	Must be completed via Web-based data entry for patients who have an outstanding balance for their amyloid PET scan. For step-by-step training, reference Operational Training: New IDEAS Coinsurance Reimbursement Program

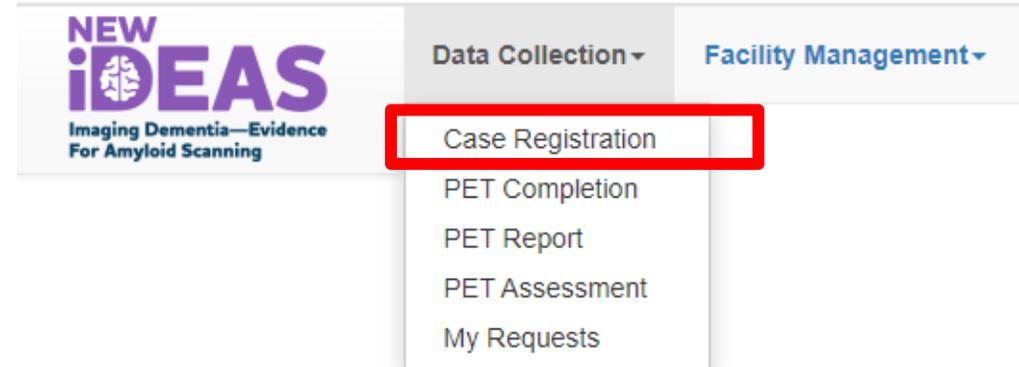

Study Flow Overview:

- The dementia specialist practice will consent the patient, schedule the scan and register the patient.
- A patient case ID number will be generated to link all electronic case report forms.

Case Status Overview

View list of registered cases under “Data Collection.”
Select “Case Registration.”

Unique 5-digit study case identifier.
Click on this Case # to see patient form status.

Case #	Stage	Status	Patient	Registration	Forms

Coinsurance Reimbursement Form

Questions about this Form?
Email newideas@acr.org

For patient's who owe a balance for the amyloid PET scan after all insurances have been billed, the Financer User or Facility Administrator will need to:

- 1. Verify patient's general information and confirm pre-populated fields:**
 - PET facility provider type (Hospital-based/Not hospital-based)
 - Patient's Medicare type (Traditional/Medicare Advantage Plan)
 - Supplemental insurance (Yes/No)
 - Scan Date
 - Radiopharmaceutical administered
- 2. Upload required documentation for reimbursement**
 - Upload patient's Explanation of Benefits (EOB) documents for all insurances
 - PDF document only; max file size 10Mb)
 - Multiple documents can be uploaded
 - Multiple documents must be uploaded before submission if technical and professional components are billed separately. Requests for partial payments will not be accepted.
- 3. Provide an attestation of coverage**
 - Confirm that ALL insurances have been billed appropriately and all appeals have been pursued and resolved with Medicare and any supplemental insurer.
- 4. Indicate the total amounts requested for reimbursement**
 - Entered amounts must match the coinsurance amounts shown on provided EOBs.

Data Change Request Form

- Click on the Case # of interest.
- Select the completed form you have a data change request for.
- Detail your requested data changes in the comment box.
- Click “Send.” An email will be sent to ACR New IDEAS staff for review.

Case Comments Section

- Communication about patient cases should only be communicated through the New IDEAS portal, never by email.
 - Select “Case Registration”
 - Click on the Case # of interest.
 - Select “Comments” tab.
 - Write patient comment and submit by selecting “Comment for everyone.”

The screenshot displays the New IDEAS portal interface. On the left, a vertical navigation menu includes buttons for "Case Registration", "PET Completion", "PET Report", "PET Assessment", and "My Requests". The "Case Registration" button is highlighted with a red box. To the right of the menu, the text "Case #" is displayed above a box containing the number "50015", which is also highlighted with a red box. Further right, a horizontal navigation bar contains tabs for "Case Registration", "PET Completion", "PET Report", "PET Assessment", and "Comments (0)". The "Comments (0)" tab is highlighted with a red box. Below the tabs, there is a "Comment:" label, a text input field, and a blue button labeled "Comment for everyone".

Will Subjects Endure Any Costs?

- **Best Practice:** Determine and discuss any potential out-of-pocket costs with the patient/family as part of the shared decision making prior to conducting the scan.
- **As a New IDEAS Study participant, the amyloid PET scan is a covered procedure by Medicare.**
 - **However, co-payments may apply for clinical services.**
 - E.g. deductible or copay for the PET scan visit and/or the copay of the follow-up visit with the referring Dementia Specialist.
 - **Patients with Medicare supplemental insurance (Medicaid):**
 - Most co-payments will be covered
 - **Patients with Medicare Advantage Plans:**
 - Most will have no deductible or co-pay (some MA plans have co-share requirements).
 - **Patients who do not have supplemental insurance:**
 - Responsible for the usual patient co-share portion of the imaging (20% co-payment).
 - Amyloid PET scan estimate: \$250-\$700 (depending on the imaging facility setting and patient insurance plan).

TRIAD Overview

- TRIAD™ (Transfer of Images and Data)
- Cloud based image and data exchange platform to support image and data sharing for Clinical Trials.
- TRIAD meets FDA regulatory requirements for use in Clinical Trials; it is Title 21 CFR Part 11 compliant.
 - Sends images and data files securely.
 - Anonymizes the DICOM headers locally before submission based on flexible and profile-based algorithm.
 - A straight-forward software download to get started.
 - Images are submitted with a click of a button.
 - More info: <http://triadhelp.acr.org/>

Digital Image Submission

- Except for subjects who have specifically opted out of image collection during the study consent process, **all brain amyloid PET scans** will be submitted to the American College of Radiology (ACR) archive within 7 days of scan acquisition using the TRIAD™ application.
 - If patient OPTS OUT of Image Archive, TRIAD will automatically block access to transmit images.
- Site staff (e.g., Nuclear Medicine Technologists) who submit images will need to be registered by the PET Facility Administrator as users, which will automatically enable them as TRIAD users.
- Site staff who submit images through TRIAD will need to be registered in the New IDEAS Database and have a valid account.

Digital Image Submission (Continued)

- **Training on image transmission can be found at:**
<https://www.ideas-study.org/Getting-Started/TRIAD>
- All PET scans are required to be submitted using TRIAD.
- Can be installed on one or several computers of choice within the institutional 'firewall' and on institutional network.
- TRIAD application can be used to submit images located on CDs/DVDs or network drives.
- TRIAD application can also be configured as a DICOM destination on either scanner and/or PACS system for direct network transfer.

Additional Study Information

- **New IDEAS resources for PET Facilities:**
