

Cardiac Catheterization and MPI Correlation Template

For use by solo Nuclear Medicine and PET Cardiology Physicians

This template is designed to document and correlate findings between Myocardial Perfusion Imaging (MPI) and cardiac catheterization results. Use (1) to indicate confirmed correlations in the 'True Pos', 'True Neg', 'False Pos', and 'False Neg' columns where applicable.

PT	MPI Results	Defect	Cath Results	LAD	Cx	RCA	True Pos	True Neg	False Pos	False Neg
