

Summary Statistics

Instructions for Completing the Summary Statistics Template

1. Enter the total number of participating physicians and the reporting period at the top of the document.
2. For each physician, fill in their name and the number of cases reviewed for each modality (CT, MRI, NM, PET, US).
3. Enter the total number of overreads for each physician.
4. Use the 'Comments' column to note any relevant observations or remarks.
5. Use the 'Total' row at the bottom of the table to sum the values in each column.
6. Save the completed document with an appropriate filename for record-keeping.

Total Number of Participating Physicians: []

Reporting Period: From [] to []

| Physician Name | CT | MRI | NM | PET | US | Total Overreads | Comments |
|----------------|----|-----|----|-----|----|-----------------|----------|
