Overview

The subsequent tables display the Alternative Payment Models (APMs) that CMS currently operates or has announced, as of November 2019. In the three tables, we identify which of those APMs CMS has determined to be Advanced APMs, Merit Based Incentive Program (MIPs) APMs, and Other Payer Advanced APMs (including Medicaid Other Payer Advanced APMs, Medicare Health Plan Payment Arrangements, and CMS Multi-Payer Payment Arrangements). The information presented in the tables reflects our application of the APM criteria adopted in Quality Payment Program regulations to the current design of the listed APMs. We will modify this list based on changes in the designs of APMs or the announcement of new APMs.

The tables below identify which APMs are Advanced APMs eligible for Qualifying APM Participants (QPs), Merit-based Incentive Payment System (MIPS) APMs, and/or Medical Home Models.

Advanced APMs must require participants to (1) use certified EHR technology, (2) provide payment for covered professional services based on quality measures comparable to those used in the MIPS Quality performance category, and (3) either be a Medical Home Model expanded under CMS Innovation Center authority or require participants to bear a significant financial risk.

We revised the requirement at § 414.1415(b)(3) that the quality measures upon which an Advanced APM bases payment must include at least one outcome measure (unless there are no available or applicable outcome measures) to provide, effective January 1, 2020, that at least one such outcome measure must either be finalized on the MIPS final list of measures as described in § 414.1330; endorsed by a consensus-based entity; or determined by CMS to be evidence-based, reliable, and valid.

To become QPs, receive a 5 percent APM incentive payment, and be excluded from MIPS, Advanced APMs must receive at least 50 percent of Medicare Part B payments or see at least 35 percent of Medicare patients through an advanced APM Entity at one of the determination periods (snapshots). In addition, 75 percent of practices need to be using certified EHR technology within the Advanced APM Entity.

MIPS APMs include MIPS eligible clinicians as participants and hold their participants accountable for the cost and quality of care provided to Medicare beneficiaries. MIPS eligible clinicians in MIPS APMs have special MIPS reporting requirements and are scored using the APM scoring standard. Most Advanced APMs are also MIPS APMs, so if an eligible clinician participating in the Advanced APM does not meet the threshold for payments or patients through an Advanced APM sufficient to become a QP for a year, the MIPS eligible clinician will be scored under MIPS according to the APM Scoring Standard.

Medical Home Models are Entities within an APM that include primary care or multispecialty practices with primary care physicians and offer primary care services. They must also assign each patient to a primary clinician. Entities designated as Medical Home Models meet the third criteria for becoming an Advanced APM.

Alternative Payment Models (APMs)

Model Name & Track	Advanced APM for Qualifying APM Participant Status	MIPS APM Under the APM Scoring Standard	Medical Home Model
Accountable Health Communities (AHC)	No	No	No
ACO Investment Model (AIM)	No	No	No
Bundled Payments for Care Improvement Advanced Model (BPCI Advanced) ^{1, 2}	Yes	Yes	No
Comprehensive Care for Joint Replacement (CJR) Payment Model (Track 1 - CEHRT)	Yes	No	No
Comprehensive Care for Joint Replacement (CJR) Payment Model (Track 2 - non-CEHRT)	No	No	No
Comprehensive ESRD Care (CEC) Model (LDO arrangement)	Yes	Yes	No
Comprehensive ESRD Care (CEC) Model (non- LDO two-sided risk arrangement)	Yes	Yes	No

¹ BPCI Advanced began in October 2018, and participants began to achieve QP status or be scored under the APM Scoring Standard for MIPS starting in performance year 2019.

² APM Entities must include at least one MIPS eligible clinician on a Participation List in order to be scored under the APM Scoring Standard. Some BPCI Advanced APM Entities have eligible clinicians that may be Affiliated Practitioners, therefore those eligible clinicians are not scored under the APM Scoring Standard. If those eligible clinicians are not QPs for a year, they may be subject to MIPS reporting requirements and payment adjustments for that year.

Comprehensive Primary Care Plus (CPC+) Model ^{4, 5}	Yes	Yes	Yes
Direct Contracting (DC) Professional PBP Model ⁶	Yes	Yes	No

³ KCC Model will begin January 2020. Level 1 will not meet the Advanced APM criteria. Level 2 is expected to meet the Advanced APM criteria and MIPS APM in 2021.

⁴ Dual participants in CPC+, or the Maryland Primary Care Program and the Medicare Shared Savings Program will have their APM status determined by the Medicare Shared Savings Program track in which they participate, and not by CPC+, or the Maryland Primary Care Program.

⁵ Practices that begin CPC+, or the Maryland Primary Care Program participation in 2018 with more than 50 eligible clinicians in their parent organization will not qualify under the Medical Home Model financial risk standard, and therefore will not be considered to be participating in an Advanced APM.
