

A-SERIES

ARCHITECTURAL AUTHENTICITY
UNPARALLELED PERFORMANCE.

CREATE DISTINCTION

Designed in conjunction with leading architects, Andersen® A-Series windows and patio doors are an exclusive system of integrated options and accessories that work together seamlessly for authentic, architectural design. No matter your home's style, A-Series products give you the freedom to customize your windows and patio doors to the very last detail.

Beyond delivering the style you want, A-Series products are the best performing, most energy efficient windows and patio doors Andersen offers. And like all Andersen products, they are supported by over a century of quality and service that can only come from the most trusted name in the industry.

For more information, visit andersenwindows.com/a-series

A-Series casement and transom windows in black with contemporary hardware in bright brass.

A-SERIES WINDOWS AND DOORS

ARCHITECTURAL STYLE MADE EASY.

Andersen® windows and doors make it easy to achieve architectural authenticity in virtually any home style you desire. This industry-leading, innovative approach is based on the style of home you want to create rather than on a type of window or door. The result is a series of windows and doors carefully designed with authentic architectural style in mind.

Every sash, every piece of hardware and every accessory easily comes together to allow you to create the home style you're after.

Craftsman Bungalow

AUTHENTIC INNOVATION FOR AUTHENTIC STYLE.

ARCHITECTURAL STYLE SAYS A LOT ABOUT YOU.

A-Series products allow it to speak with authenticity and clarity. That's why Andersen has created the Home Style Library. This first-of-its-kind collection of Pattern Books provides detailed illustrations and extensive descriptions of each style, with an emphasis on window and door options. From basic designs and building materials to window proportions and hardware finishes, our library will show you how to bring architectural authenticity to whichever style of home you prefer.

Home Style Library Preview

The Home Style Library for A-Series products includes classically recognized architectural styles and the quintessential window and door choices to create them. To view our complete Home Style Library, visit:

andersenwindows.com/stylelibrary

THE ELEMENTS OF STYLE

Each home featured in our Home Style Library contains suggested combinations of Andersen® A-Series windows, patio doors, hardware, exterior trim and color palettes that are authentic to that home's architectural style. The A-Series product combinations shown here were selected with the help of leading architects to create the Craftsman Bungalow home shown to the left.

UNMATCHED PERFORMANCE. UNMATCHED PEACE OF MIND.

Rigorously tested.

A-Series products have been exposed to extremes, going from temperatures duplicating **the cold of Alaska winters to the heat of Death Valley summers**, three times a day, day after day. They came through it all beautifully.

Keeps the weather out.

With their weather-resistant seals, A-Series windows and doors can **stand up to eight inches of rain per hour** and hurricane-force winds.[†] Weatherstripping is designed to seal out drafts, wind and water.

Never needs painting.

Exteriors won't flake, rot, blister, peel, pit or corrode,** so they're **virtually maintenance free**. Plus they hold their original colors without fading**

Andersen® products have glass options that are ENERGY STAR® certified, which **can help reduce your energy bills** while helping to protect the environment.*

Energy-saving glass for any climate.

Andersen has the glass you need to get the performance you want, including a variety of Low-E glass options to help you control heating and cooling costs in any climate.

Built for years to come.**

A-Series windows and patio doors are built strong to last long.** We use the right materials in the right places, including solid wood, fiberglass and our own Fibrex® composite material. These give A-Series products superior strength, stability and long-term beauty.

OWNER2OWNER® LIMITED WARRANTY

Most other window and door warranties end when a home is sold, but our coverage — 20 years on glass, 10 years on nonglass parts — transfers from each owner to the next. And because it is not prorated, the coverage offers full benefits, year after year, owner after owner.** So it adds real value when you decide to sell your home.

Andersen® A-Series products are available with impact-resistant glass and structural upgrades to meet the tough building codes of hurricane-prone coastal areas. See your local building code official for specific requirements.

*Visit andersenwindows.com to verify that your product and glass type are ENERGY STAR® certified in your area.

**For a copy of the A-Series Limited Warranty visit andersenwindows.com/warranty.

A-SERIES WINDOWS

When choosing windows and doors, you'll want to consider the style of the home you'd like to create as well as how you'd like the windows and doors to operate. With Andersen® A-Series products, you have the choices you need for a beautiful blend of both form and function.

Double-hung Windows

A double-hung window has two vertically sliding sash (glasspanels) in a single frame. Double-hung windows lift open while remaining flush with the wall, making them ideal around patios, decks and walkways. Both top and bottom sash tilt in for easy cleaning.

Casement Windows

Casement windows are hinged windows that open outward to the right or to the left. They're common above kitchen sinks and give you the flexibility to group in stunning combinations.

Awning Windows

Awning windows are hinged at the top and open outward. They catch breezes from the left or right and are often used above, below or alongside stationary windows.

Venting & Stationary Transom Windows

Venting transom windows are hinged at the top and open outward. They can be used in window combinations or placed above doors to let light and fresh air into a room while adding style and curb appeal. Stationary transom windows share all the characteristics of venting transom windows but do not open for ventilation.

Specialty Windows

Specialty windows are stationary (non-opening) windows characterized by their special shapes, including curves and dramatic angles. They can make a signature statement in your home or provide a delicate lighting accent.

A-SERIES FRENCHWOOD® PATIO DOORS

Frenchwood® Gliding Patio Doors

These doors have at least one door panel that glides smoothly past another door panel to save room where you need it – inside or out. Available in two-, three- and four-panel configurations.

Frenchwood® Hinged Inswing Patio Doors

Hinged inswing patio doors open in the interior of your home, saving room for smaller exterior areas such as balconies, patios and decks. Available with one, two or three panels.

Frenchwood® Hinged Outswing Patio Doors

With panels that open outward, these doors give you more usable space inside your home. Available with one or two panels.

Frenchwood® Transoms & Sidelights

Transoms go above a door while sidelights flank one or both sides of the door. Alone or combined, they can turn your doorway into a focal point while letting more natural light into your home's entryway.

Replacing existing windows and doors? Custom sizing is available on all A-Series windows and doors.

THE EXTERIOR OF YOUR HOME IS THE FACE IT PRESENTS TO THE WORLD.

With Andersen® A-Series windows and patio doors, you have the colors and exterior trim choices you need to make not only your windows, but your entire home look the way you've always envisioned.

Exterior Colors

| White | Sandtone | Canvas | Prairie Grass |
|  |  |  |  |
| Terratone | Forest Green | Dove Gray | Dark Bronze |
|  |  |  | |
| Cocoa Bean | Red Rock | Black | |

Select any combination of colors shown here for your exterior frame, sash & trim.

EXTERIOR TRIM THAT FITS WINDOWS, PATIO DOORS AND YOUR VISION.

Exterior trim adds a finishing touch to your windows and is often essential in achieving authentic architectural style. You can match the color of your windows or doors, or complement them with a different color. Durable A-Series exterior trim is low maintenance and never needs painting.

BEST-IN-CLASS GLASS

HIGH-PERFORMANCE GLASS

Glass can affect energy efficiency more than any other part of a window or patio door — and not all glass performs the same. Some types of glass do a better job at insulating your home. Others provide greater clarity. You can even choose glass to filter out specific kinds of light. Andersen offers one of the industry's widest arrays of glass options, enabling you to find the right choice for your climate and your home. Choose from these High-Performance glass options.

Triple-Pane Glass

Three panes of glass combine with either argon gas blend or air and Low-E coatings to provide enhanced energy performance. Add triple-pane glass to one of our windows or doors for maximum energy efficiency.

Low-E4® SmartSun™ Glass

It helps shield your home from the sun's heat, filtering out 95% of harmful UV rays while letting sunlight shine through, plus it provides all the benefits of Low-E4 glass.

Low-E4 Glass

Outstanding thermal performance for climates where both heating and cooling costs are a concern. It comes standard on all A-Series products and is up to 57% more energy efficient than ordinary dual-pane glass.

Low-E4 Sun Glass

Outstanding thermal performance in southern climates where less solar heat gain is desired. It's tinted for maximum protection from the effects of intense sunlight while providing all the benefits of Low-E4 glass.

*Winter and summer values are based on comparison of Andersen A-Series double-hung window U-Factor and SHGC values to the U-Factor and SHGC for clear dual-pane glass non-metal frame default values from the 2006, 2009 and 2012 International Energy Conservation Code "Glazed Fenestration" Default Tables.

Additional glass options are also available. Contact a sales associate at The Home Depot® for details.

PERFORMANCE COMPARISON OF ANDERSEN® GLASS OPTIONS

OUR INSECT SCREENS COME IN MANY TYPES. **JUST LIKE INSECTS DO.**

Optional insect screens are available for all A-Series products. Patio doors feature conventional Andersen® fiberglass insect screens. For windows, choose aluminum insect screens, or TruScene® insect screens that provide a clearer view, help bring the outdoors into your home and are less noticeable from the street.

TruScene® Insect Screens

Made with a micro-fine stainless steel mesh that's one-third the diameter of conventional insect screen wire, TruScene insect screens provide 50% more clarity than conventional Andersen® insect screens. They allow more fresh air and sunlight in, while keeping out small insects.

INSECT SCREENS WITH STYLE AND FINISH

FRAME OPTIONS

Stone

White

Gold Dust

All insect screens for casement, awning and venting transom windows are available in Stone, White or Gold Dust colored frames. Insect screens installed on the exterior of double-hung windows and patio doors have frames that match the exterior color of the unit.

WOOD FRAME OPTIONS

Frames of TruScene® insect screens for casement, awning and transom windows are also available in three wood-veneered options and six stain colors to match the interior finish. Pine veneer frame with clear finish is shown.

INSECT SCREEN CONFIGURATIONS

Full insect screens are available for all operating Andersen® A-Series windows. Our double-hung windows also give you the option of insect screens that cover only the lower sash.

Full

Half

PATIO DOOR INSECT SCREEN CONFIGURATIONS
