Manufactured 2005 to Present

Woodwright® Double-Hung, Picture & Transom Insert Window Unit Parts

Unit viewed from exterior.

Unit Sizes

Custom Window Sizes

Note:

Woodwright Insert Windows are available in custom sizes in 1/8" increments between the smallest and the largest standard sizes. Most replacement parts for custom-sized windows are made to order and can be ordered with the Product ID found on the identification label and a description of the part needed. See [Service Guide 9051877](#).

400 Series Product Label

Note:

Every Woodwright Insert Window will have an identification label **or** glass etching containing a unique Product ID. The label on a double-hung insert is located in the upper left corner of the upper sash head jamb track. The label on a picture or transom unit is located under the side stop in the lower right-hand corner or etched into the glass. See [Service Guide 9051877](#). The Product ID may be up to 14 digits long (excluding hyphens), depending on the age of the unit. Replacement parts will also get their own unique Product ID. When ordering replacement parts, providing the Product ID ensures that replacement parts match the specifications.

400 Series Woodwright® Insert Windows (2005 to Present)

Double-Hung, Picture & Transom Insert Windows

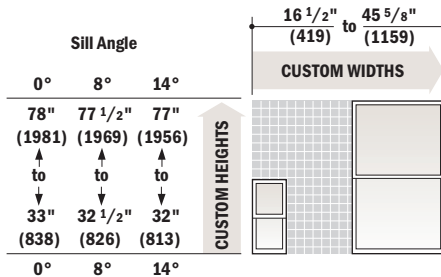

Unit Sizes

Unit Size Chart

Woodwright® Double-Hung Insert Window Size Range

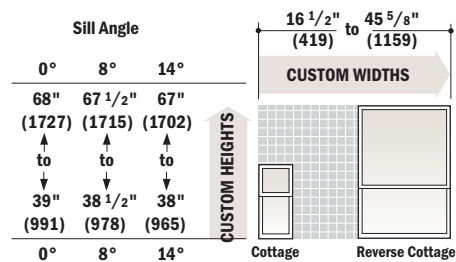

EQUAL SASH UNIT SIZES

Unit height limits depend on new insert unit sill angle.

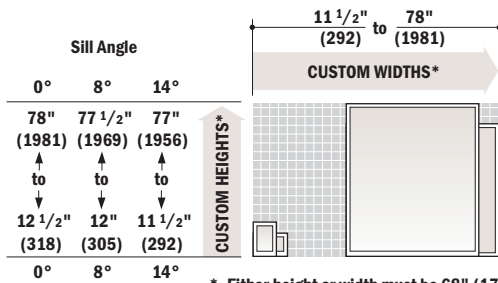

COTTAGE OR REVERSE COTTAGE SASH UNIT SIZES

Unit height limits depend on new insert unit sill angle.

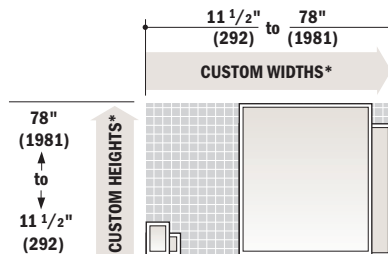

PICTURE UNIT SIZES

Picture window height limits depend on new insert unit sill angle.

* Either height or width must be 68" (1727) or less.
Height plus width cannot be less than 28" (711).

TRANSOM UNIT SIZES

* Either height or width must be 68" (1727) or less.
Height plus width cannot be less than 28" (711).

- Dimensions in parentheses are in millimeters.
- When ordering, be sure to specify color desired: White, Sandtone, Terratone® or Forest Green.

Double-Hung, Picture & Transom Insert Windows

Installation Materials

Stops - Interior

Note:

The interior stop can be ripped to desired width. Rip down center of part to obtain two stops approximately 1-1/4" wide. Interior stop profile is reversible after ripping. Use the milled profile to complement Woodwright® insert window sash profile or use reverse side with square edge to trim interior of window.

Service Replacement

Service Replacement Only

Service Replacement Only Parts

Note:

This section is specifically designed for parts that should only be ordered if a Territory Service Manager/Service Provider Company has requested them to be ordered or if the customer agrees to also pay for a non-warranty repair/replace service job (subject to availability) for these parts to be installed. We do not recommend anyone other than a trained AW employee or Service Provider install these parts due to the complexity of installation, modifications required for installation and/or requirement of special tools.

Sash Interlocks
