

Logistics supporting energy development in Africa

ENERGY

STRONG KNOW-HOW IN ENERGY LOGISTICS

AGL is a major player in the supply chain in Africa, offering comprehensive multimodal transport, contract logistics and regulatory compliance solutions. Thanks to its expertise in managing complex projects and its personalised approach, AGL guarantees reliable, efficient operations tailored to local specificities. Its expertise in oversized load transport and coordination in remote locations makes AGL a strategic partner.

A VISION OF YOUR LOGISTICS CHALLENGES

The increase in **solar, wind, gas, and oil projects** is boosting investment and acting as a catalyst for development. Success depends on overcoming logistical challenges: developing infrastructure networks, regional trade, and customs procedures. Integrated, agile, and compliant logistics optimize the delivery of major projects, reduce lead times and support sustainable energy growth on the continent.

AGL offers a range of reliable logistics solutions aligned with international standards to support energy projects.

Hydrocarbon industry (Onshore and Offshore, Upstream, Midstream, Downstream)

Solar, wind, hydroelectric, biomass, and geothermal projects

Construction of industrial projects (power plants, oil refineries, etc.)

Distribution networks

A RANGE OF INTEGRATED SERVICES

Thanks to proven expertise, a strong pan-African network and a deep understanding of complex environments. AGL secures each step of the operations, from origin to final delivery.

STUDY, PREPARATION & PROJECT COORDINATION

- Feasibility studies in the preliminary phase
- Strategic planning and logistics modeling
- Customs protocols
- Coordination of project logistics execution

TRANSPORT & EXECUTION

- International transport to Africa (customs, air & sea services, chartering)
- Establishment of logistics hubs
- Optimization of transport services (general cargo, containerized cargo, heavy lift / out of gauge, critical equipment)
- Real-time tracking (Track & Trace) and reporting
- Compliance with QHSE standards and protocols
- Reverse logistics and customs clearance closure

INTEGRATED LOGISTICS & OPERATIONAL SUPPORT

- Management of logistics bases
- Provision of equipment and personnel (Onshore, Offshore)
- Personnel transport and crew rotation
- Oil & Gas Logistics support (Rig Moves, supply bases, etc.)
- Support to vessel operations

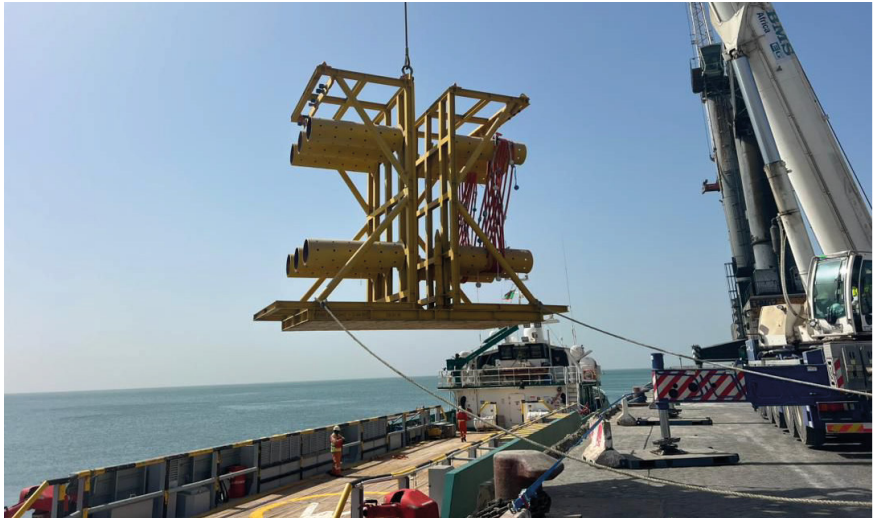

PROJECT MANAGEMENT & COMPLIANCE

- Inventory management and warehousing (including bonded facilities)
- Regulatory monitoring and QHSE compliance
- Support from implementation to demobilization phase

EXPERTISE IN COMPLEX OPERATIONS

Thanks to proven industry expertise and a long-standing presence on the African continent, we support our clients with operational planning, competitive pricing and clear reporting.

OUR OFFER IS BASED ON:

A strong local presence, with over 98% of our staff recruited locally, and ongoing investment in training and skills transfer.

Committed teams

Sustainable investment capacity

A unique pan-African network, including strategic corridor management to landlocked areas.

Logistics platforms equipped with high-performance transport and lifting equipment: over 950 trucks, more than 200 hydraulic lines, and lifting equipment capable of handling up to 400 tons.

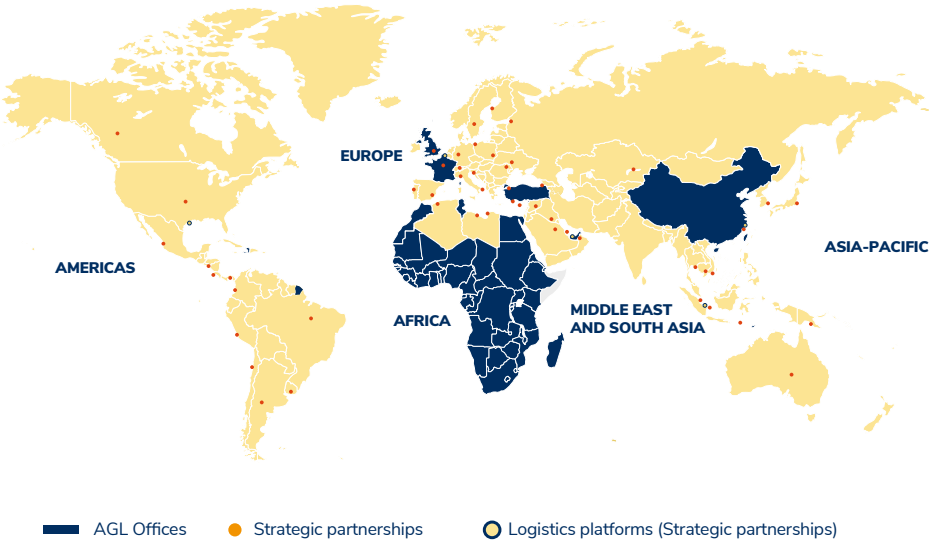

The  **Live** platform: tracking and traceability / EDI & API integration.

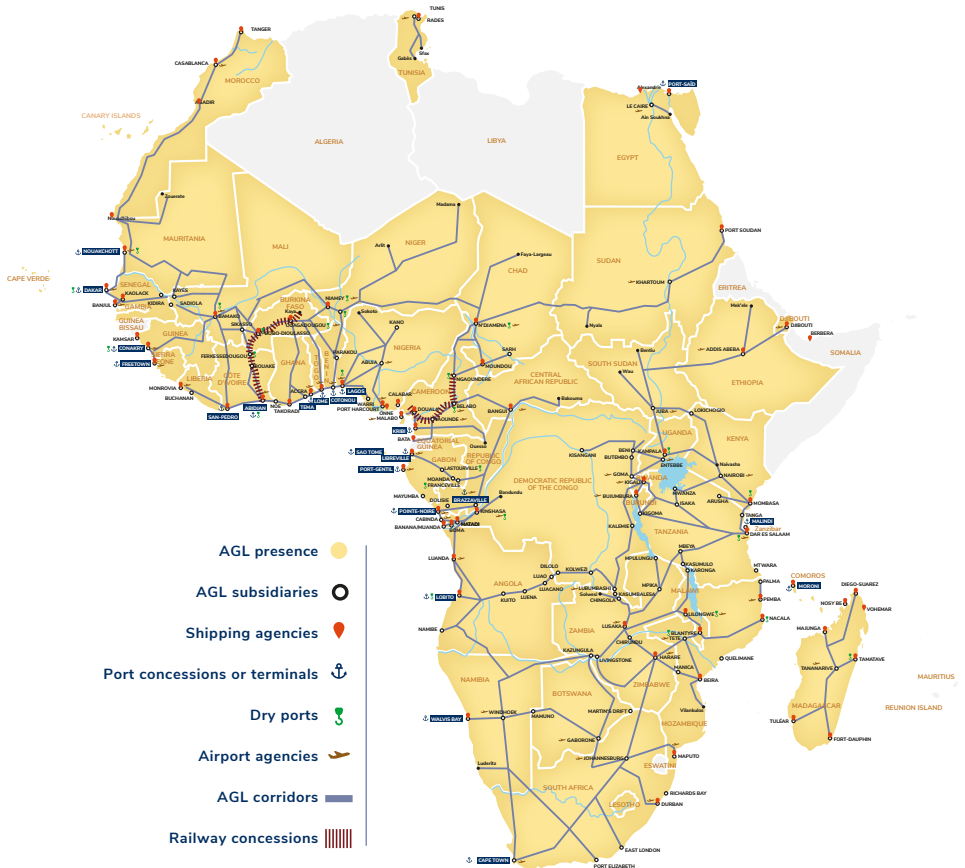

OUR NETWORK

International logistics network

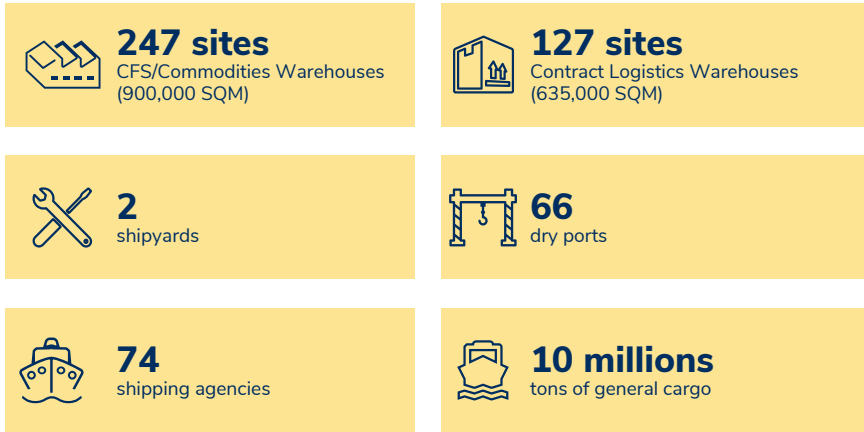

To conduct its logistics operations, Africa Global Logistics relies on a network of interconnected hubs across the continent and beyond.
