

Tailored & Seamless Projects Logistics Solutions

INFRASTRUCTURE

ADVANCE INFRASTRUCTURE LOGISTICS

AGL delivers end-to-end infrastructure logistics across Africa, from feasibility to final delivery. Backed by a strong pan-African network and multimodal expertise, we handle standard, heavy and oversized cargo with precision and agility. With field-based teams and deep local know-how, we ensure reliable, high-performance operations, even in complex environments, transforming logistical challenges into efficiency, safety and competitive advantage.

UNDERSTANDING YOUR LOGISTICS

Infrastructure projects across Africa offer major opportunities, but their success depends on logistics that turn complexity into efficiency. AGL provides smooth operations, predictability, and full control of timelines and budgets, ensuring reliable, high-performance execution across the following industries:

Road Construction, bridges & Hot Bitumen Logistics:

- Hot bitumen (bulk)
- Highways and expressways, urban roads, bridges, tunnels and underpasses
- Toll stations and service areas
- Road maintenance & rehabilitation projects

Railway construction & rolling stock:

- Locomotives, railcars
- Metro and tramway systems
- Railway construction machinery

Industrial Facilities Construction:

- Cement plants, fertilizer plants, grain mills, breweries, etc.
- Manufacturing and assembly plants

Major Civil Engineering Projects:

- Dams, ports, airports
- Public buildings: hospitals, schools, etc.

Water Projects:

- Desalination plants
- Water treatment plants
- Water supply: pipeline projects

EXPERTISE AT EVERY STAGE

A streamlined range of services providing integrated, agile, and expert logistics for every stage of infrastructure projects:

PREPARATION & PLANNING

- Feasibility studies
- Site surveys and access route assessments
- HSE and QA/QC policies and management systems
- Subcontractor prequalification
- Customs procedures and various inspections

TRANSPORT & EXECUTION

- End-to-end multimodal transport (air, sea, land), full or part-charter
- Delivery of all types of cargo, including heavy and/or oversized goods (HLOOG)
- Real-time tracking
- Supply chain management from origin to final site
- Compliance with the project's critical path

SITE MANAGEMENT & COMPLIANCE

- Development of storage areas
- Implementation of Standard Operating Procedures and Service Level Agreements
- Monitoring of hazardous goods
- Provision of handling equipment
- Mobilization and demobilization of site equipment

CLOSURE & REPORTING

- Managing and finalizing customs files
- Managing demobilization
- Logistics closure reports
- Performance analysis and traceability
- Centralized and automated documentation

PERFORMANCE-DRIVEN CAPABILITIES

AGL deploys integrated, reliable, high-performance logistics to support infrastructure projects in Africa, addressing current and future logistics requirements to meet any challenges.

A unique pan-African network and corridor management to serve landlocked countries with infrastructure specialists, and experienced project managers.

Strategically located logistics assets, a fleet of 900+ trucks, 100+ cranes up to 400 tons, and OOG expertise in transport and heavy lifting (multi-axle trailers, trucks, cranes, warehouses, etc.).

Local value creation and sustainable impact on communities through constant investment in training, skills transfer and promoting talents across the continent.

A commitment to strict health, safety and environmental compliance. Our QHSE approach combines rigorous procedures, focused training, and proactive risk control.

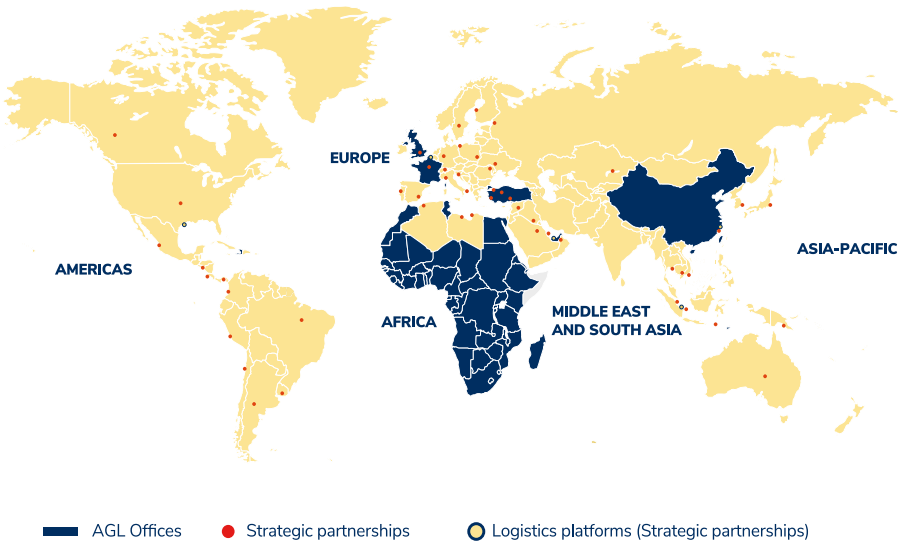

The  **Live** platform: tracking and traceability, EDI & API integration, clear reporting.

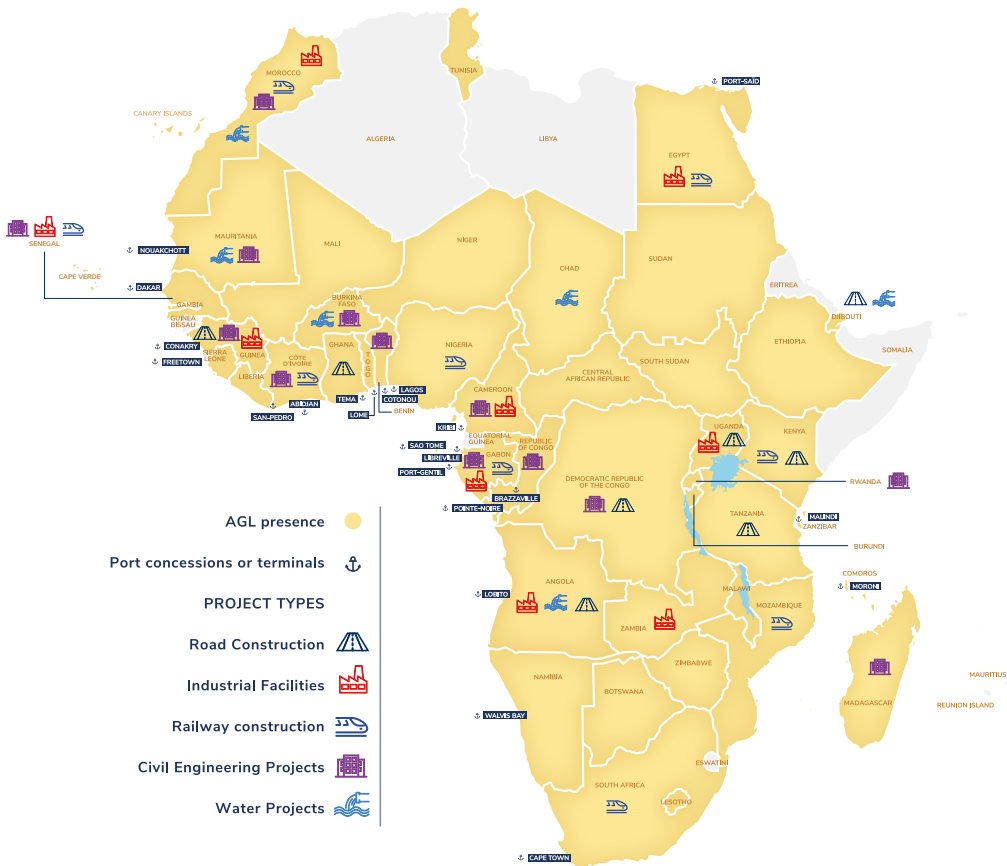

OUR NETWORK

International logistics network

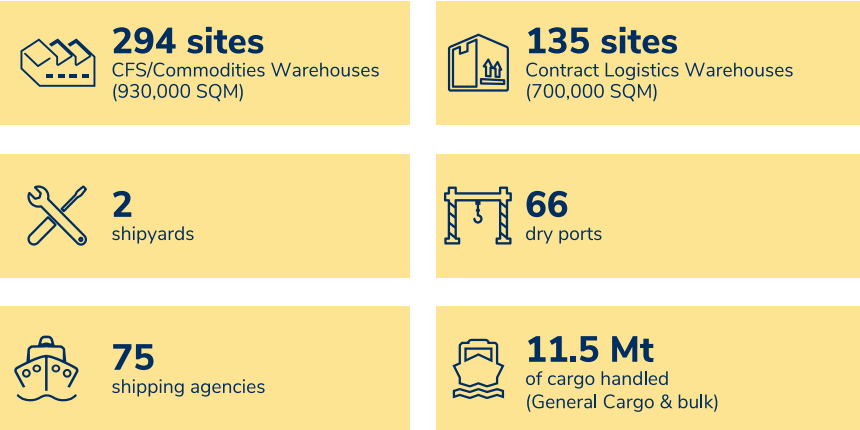

To conduct its logistics operations, Africa Global Logistics relies on a network of interconnected hubs across the continent and beyond.
