

Optimizing Mining Supply Chains, Sustainably

MINING

STRONG KNOW-HOW IN MINING LOGISTICS

AGL is a major player in the supply chain in Africa, offering comprehensive multimodal transport, contract logistics and regulatory compliance solutions. Thanks to its expertise in managing complex projects and its personalised approach, AGL guarantees reliable, efficient operations tailored to local specificities. Its expertise in oversized load transport and coordination in remote locations makes AGL a strategic partner for the mining industry.

A VISION OF YOUR LOGISTICS CHALLENGES

In a complex environment, mining logistics supports a dynamic industry that is essential to many sectors. In Africa, the proliferation of projects means synchronizing the delivery of equipment from various origins to remote sites, while adhering to QHSE standards and ever-changing local regulations. Despite the challenges of access, congested corridors and complex customs formalities, these constraints are driving innovation, strengthening local partnerships and positioning logistics as a strategic lever for success.

AGL provides sustainable logistics solutions throughout the mining lifecycle for all operators in the industry:

**Engineering, Procurement
and Project Management
Companies (EPCs)**

**Original Equipment
Manufacturers**

Mine Operators

Mineral dealers

EXPERTISE AT EVERY STAGE OF THE PROJECT

We support every stage of the mining chain – from exploration to export – ensuring the safe and efficient transport of equipment and resources. With our expertise in oversized load transport, site logistics and multimodal solutions, we optimise supply chains, support mining growth in Africa and reduce environmental impact.

FREIGHT FORWARDING & TRANSPORTATION

- Air and Ocean Freight Services
- In-House Charter Desk
- Ground Transport solutions with dedicated trucking fleet
- Heavy Lift Transport and Engineering
- Cross-Border Transportation (intra Africa)
- Customs Brokerage, Exoneration & Trade Compliance
- Track & Trace Platform / EDI Integration

PROJECTS MANAGEMENT

- Heavy Lift Operations & Optimization (HLOOG)
- Transportation of Oversized Cargo
- Route Surveys & Feasibility Studies
- 3D AutoCAD Design & Transport Engineering
- Method Statements & Risk Assessment
- Onsite Project Coordination
- Dedicated Project Management Team

CONTRACT LOGISTICS

- Industrial Warehousing (Bonded and Non-Bonded)
- Laydown & Storage Yards
- Stockpile Management
- Inventory & Supply Chain Management
- Advanced WMS software
- Order Fulfilment / Picking / Packing / Dispatch
- Cross-Docking & Consolidation Services
- Labelling, Barcoding & Traceability Solutions

MINING EXPERTISE

- Transportation of dangerous goods (including classes 1, 5 and 7)
- Meet & Greet, Crew Change and Personnel Management
- In-Country Housing, Office Space
- Equipment rental & On-Site Deployment
- Trading Services

MASTERY OF COMPLEX OPERATIONS

Our mining expertise is based on:

A network of specialists, experienced project managers.

Interconnected hubs spread across the continent and beyond.

Owned Transportation & Warehousing Assets : our company-owned fleet and warehouse network ensure reliable, efficient, and secure logistics services.

OOG expertise in transport and heavy lifting (multi-axle trailers, trucks, cranes, warehouses, etc.).

Specific procedures ensuring compliance with QHSE regulations and a strong commitment to the fight against corruption to ensure full compliance of all operations with the highest legal standards and requirements.

Local value creation and sustainable impact: 98% national employees, training and support for local SMEs to promote responsible development in the mining sector.

The  **Live** platform: tracking and traceability / EDI & API integration.

CASE STUDY: OVERSIZED TRANSPORT TO A MANGANESE MINE

AGL Gabon successfully handled the **heavy lifting** and direct vessel-to-rail discharge of **four 150-ton locomotives** at the **Port of Owendo**, supporting manganese mining operations.

The project included:

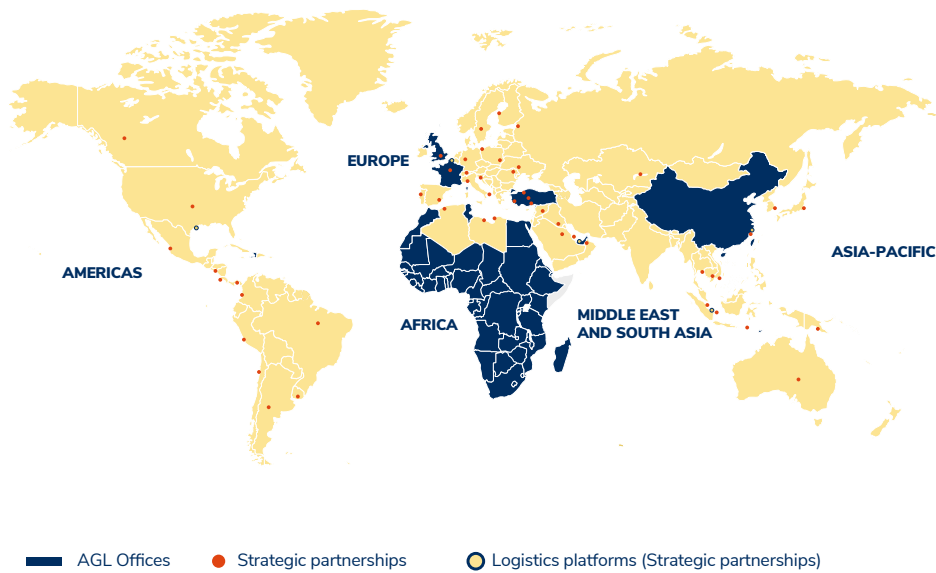

- Customs clearance of heavy and oversized cargo
- Heavy lifting operations of 4 locomotives (150 tons each)
- Direct vessel-to-rail discharge from a charter vessel
- Mobilization and supervision of specialized lifting equipment
- Port operations coordination with all stakeholders
- Strict implementation of QHSE procedures

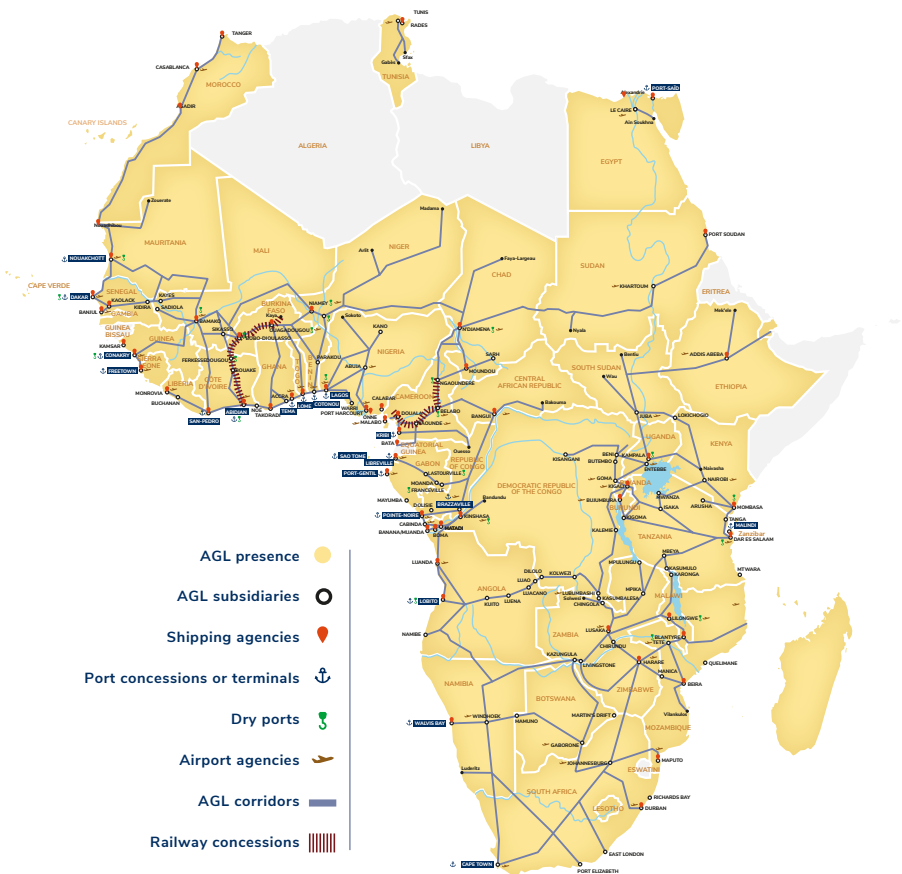

OUR NETWORK

International logistics network

To conduct its logistics operations, Africa Global Logistics relies on a network of interconnected hubs across the continent and beyond.
