# ASML Green Bond Allocation Report

31 December 2022

An amount equal to the net proceeds of ASML's Green Bonds will be used to finance and/or refinance, in whole or in part, new or existing commercial real estate projects ("Eligible Green Projects") as defined in ASML's Green Bond Framework.

Eligible Green Projects may consist of capital expenditures and asset values. Capital expenditures qualify for refinancing with a maximum three-year look-back period. Asset values qualify for refinancing without a specific lookback period.

## Management of Proceeds

The net proceeds of the Green Bonds issued under the Green Bond Framework is managed by ASML using a portfolio approach.

ASML will allocate an amount equal to the net proceeds from the Green Bonds to an Eligible Green Project Portfolio that meets the Use of Proceeds eligibility criteria and is in accordance with the Project Evaluation and Selection process described in its Green Bond Framework.

ASML will strive, over time, to achieve a level of allocation to the Eligible Green Project Portfolio which matches or exceeds the balance of net proceeds from its outstanding Green Bonds.

ASML intends, to the best of its abilities, to fully allocate the proceeds within 36 months after the issuance date of each Green Bond. Pending the allocation to the Eligible Green Projects, unallocated proceeds may be invested in any other treasury instruments. The full detailed reporting criteria can be found in ASML's Green Bond Framework on the ASML website: <https://www.asml.com/-/media/asml/files/investors/why-invest-in-asml/capital-return-and-financing/asml-green-bond-framework-2022.pdf><sup>1</sup>

| Percentage of net proceeds of Green Funding allocated to Eligible Green Project portfolio:           | 86%  |
| New financing of eligible projects   | 0%   |
| Refinancing of existing eligible projects (year of build: 1994 (refurbished 2019), 2021, 2022, 2022) | 100% |

## Limited Assurance Report of the Independent Auditor

## Assurance report of the independent auditor

To: ASML Holding N.V. the Board of Management of ASML Holding N.V. and the holders of Green Bonds issued by ASML Holding N.V.

### Our conclusion

We have reviewed the Eligible Green Project Portfolio as included in the ASML Green Bond Allocation Report dated 31 December 2022, of ASML Holding N.V. (hereafter: ASML Holding N.V.) based in Veldhoven. A review is aimed at obtaining a limited level of assurance.

Based on the procedures performed nothing has come to our attention that causes us to believe that the ASML Green Bond Allocation Report is not prepared, in all material respects, in accordance with the reporting criteria as described in the 'Reporting criteria' section of our report.

### Basis for our conclusion

We performed our review in accordance with Dutch law, including Dutch Standard 3000A 'Assurance-opdrachten anders dan opdrachten tot controle of beoordeling van historische financiële informatie (attest-opdrachten) (assurance engagements other than audits or reviews of historical financial information (attestation engagements)). This engagement is aimed to obtain limited assurance. Our responsibilities in this regard are further described in the 'Auditor's responsibilities' section of our report.

We are independent of ASML Holding N.V. in accordance with the 'Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten' (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence). Furthermore, we have complied with the 'Verordening gedrags- en beroepsregels accountants' (VGBA, Dutch Code of Ethics).

We believe the assurance evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

### Reporting Criteria

The ASML Green Bond Allocation Report needs to be read and understood together with the reporting criteria. ASML Holding N.V. is solely responsible for selecting and applying these reporting criteria, taking into account applicable law and regulations related to reporting.

The reporting criteria used for the preparation of the ASML Green Bond Allocation Report are the Eligibility Criteria as described in the ASML Green Bond Framework. The framework is available online at <https://www.asml.com/-/media/ASML/Files/Investors/Why-invest-in-ASML/Capital-return-and-financing/ASML-Green-Bond-Framework-2022>.

### Materiality

Based on our professional judgement we determined materiality levels for each relevant part of the ASML Green Bond Allocation Report. When evaluating our materiality levels, we have taken into account quantitative and qualitative considerations as well as the relevance of information for both stakeholders and the company.

### **Scope of the group review**

ASML Holding N.V. is the parent company of a group of entities. The sustainability information incorporates the consolidated information of this group of entities to the extent as specified in the 'Management of Proceeds' of the ASML Green Bond Allocation Report.

Our group review procedures consisted of both review procedures at corporate (consolidated) level and at an entity level. Our selection of sites in scope of our review procedures is primarily based on the site's individual contribution to the consolidated information.

By performing our review procedures at site level, together with additional review procedures at corporate level, we have been able to obtain sufficient and appropriate assurance evidence about the group's sustainability information to provide a conclusion about the sustainability information.

### **The Board of Management's Responsibilities**

The Board of Management is responsible for the preparation of the ASML Green Bond Allocation Report including the Eligible Green Projects Portfolio is in accordance with the applicable criteria as described in the 'Reporting criteria' section of our report, including the identification of stakeholders and the definition of material matters. It is important to view the Eligible Green Project Portfolio in the context of these Eligibility Criteria.

The Board of Management is also responsible for such internal control as it determines is necessary to enable the preparation of the ASML Green Bond Allocation Report that is free from material misstatement, whether due to fraud or error.

### **Auditor's responsibilities**

Our responsibility is to plan and perform our review in a manner that allows us to obtain sufficient and appropriate assurance evidence for our conclusion.

Procedures performed to obtain a limited level of assurance are aimed to determine the plausibility of information and vary in nature and timing, and are less in extent, compared to a reasonable assurance engagement. The level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Misstatements can arise from fraud or errors and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users taken on the basis of the Eligible Green Project Portfolio. The materiality affects the nature, timing and extent of our review procedures and the evaluation of the effect of identified misstatements on our conclusion.

We apply the 'Nadere Voorschriften Kwaliteitssystemen' (NVKS, Regulations for Quality management systems) and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We have exercised professional judgement and have maintained professional scepticism throughout the review, in accordance with the Dutch Standard 3000A, ethical requirements and independence requirements.

2749794 23X00187218RTM

Our review included among others:

- Identifying areas of the Eligible Green Project Portfolio where a material misstatement, whether due to fraud or error, are most likely to occur, designing and performing assurance procedures responsive to these areas, and obtaining assurance information that is sufficient and appropriate to provide a basis for our conclusion;
- Reviewing the application of the Eligibility Criteria used in the preparation of the Eligible Green Project Portfolio in the ASML Green Bond Allocation Report;
- Considering the internal controls relevant to our review in order to select assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing a conclusion of the effectiveness of the Company's Internal Controls;
- Interviewing relevant staff at ASML Holding N.V. responsible for the data collection and reporting of the Eligible Green Project Portfolio;
- Evaluating internal and external documentation to determine whether the information in the Eligible Green Project Portfolio is plausible and in line with the Eligibility Criteria;
- Evaluating the presentation, structure and content of the ASML Green Bond Allocation Report; and
- Considering whether the ASML Green Bond Allocation Report as a whole, including the disclosures, reflects the purpose of the reporting criteria used.

We have communicated with the management regarding, among other matters, the planned scope and timing of the review and significant findings that we identify during our review.

### Important Notice

The following applies to this report (the **Report**), and you are therefore advised to read this notice carefully before reading, accessing or making any other use of the Report. This Report has been prepared and issued by ASML Holding N.V. (the **Company**). By reading, accessing or making any other use of this Report, you agree to be bound by the following terms and conditions. This Report is made available to you solely on the basis of your acceptance of these terms and conditions.

This Report is not for release, distribution or publication, whether directly or indirectly and whether in whole or in part, into any jurisdiction where to do so would be contrary to local law or regulation or which would require any registration or licensing within such jurisdiction. Persons into whose possession this Report may come must inform themselves about, and observe, any applicable restrictions on distribution. This Report is protected by copyright and may not be reproduced or distributed, in whole or in part, by any recipient without the Company's prior written consent.

The Report is for informational purposes only and is not intended to constitute, or form part of, and should not be construed as, any offer or solicitation to underwrite, subscribe for or otherwise acquire or dispose of any securities of the Company (any such securities, the **Bonds**) in any jurisdiction in which such offer, solicitation, acquisition or disposal would be unlawful prior to registration, exemption from registration or qualification under the securities laws of such jurisdiction. The information in this Report does not constitute and should not be construed as investment advice or an investment recommendation.

No action has been taken by the Company that would permit an offer of Bonds or the possession or distribution of this Report or any offering or publicity material relating to such Bonds in any jurisdiction where any action for that purpose is required. Bonds referred to in this Report are not and will not be registered under the US Securities Act of 1933, as amended (the **US Securities Act**) and will also not be registered with any authority competent with respect to securities in any state or other jurisdiction of the United States of America. Bonds may not be offered or sold in the United States of America absent registration or an applicable exemption from the registration requirements under the US Securities Act.

While reasonable care has been taken to ensure that its contents are not untrue or misleading, no representation or warranty, express or implied, is made as to and no reliance should be placed on the fairness, accuracy, completeness or reasonableness of the information, opinions and projections contained in this Report (or whether any information has been omitted from the Report). Further, labelling Bonds as 'Green Bonds' does not, directly or indirectly imply any representation or warranty of any kind that these Bonds will satisfy the expectation or perception of any third party, as to what a 'Green Bond' label entails, neither at issuance or in future. The Company, its affiliates and their respective directors, officers, employees, advisers or agents accept no liability whatsoever for any direct or consequential loss, including without limitation any loss of profits, arising from reliance on this Report.

Small differences in tables may be the result of rounding. This Report includes information obtained from third parties, which is deemed reliable by the Company. The Company may not have access to the facts and assumptions underlying numerical data, market data and other information obtained from such third parties and, as a result, the Company is not able to verify such numerical data, market data and other information and does not assume responsibility for the correctness of any such information included in the Report.

This Report may contain statements about future events and expectations that are forward-looking statements. None of the future projections, expectations, estimates or prospects in this Report should be taken as forecasts or promises nor should they be taken as implying any indication, assurance or guarantee that the assumptions on which such future projections, expectations, estimates or prospects have been prepared are correct or exhaustive or, in the case of the assumptions, fully stated in this Report. Statements about historical performance are not indicative for any future performance. The Company has and undertakes no obligation to update, modify or amend this Report or the statements contained herein to reflect actual changes in assumptions or changes in factors affecting these statements or to otherwise notify any addressee if any information, opinion, projection, forecast or estimate set forth herein changes or subsequently becomes inaccurate.
