

Table of Contents – MC210 v8.6

Introduction.....	ix
Using This Book	ix
Using the Course Material	ix
Prerequisites.....	xi
System Requirements	xi
Becoming Avid Certified.....	xi
Avid Certified. Real skills, proven.	xiii
Lesson 1: Workflows for Long-form	1
Review of Workflows	2
Importing Media Using Dynamic Media Folders	4
Working with DPX	15
Mid Project Management.....	16
Understanding the Folder Structure for Managed Media.....	20
Review/Discussion Questions.....	23
Exercise 1: Avid MediaFiles.....	25
Exercise 1.1: Taking your Media Offline	26
Exercise 1.2: Exploring the MediaFile Folders	27
Exercise 1.3: Create a DMF for R3D Files	27
Lesson 2: Preparing for the Edit	29
Syncing Clips.....	30
Metadata Management (Data Wrangling).....	34
Importing Information in an ALE.....	44
Managing Bins	48
Using Markers	52
Review/Discussion Questions.....	59
Exercise 2: Preparing for the Edit	61
Exercise 2.1: Create a Bin Layout.....	62
Exercise 2.2: Create and use an ALE to Add Metadata	62
Exercise 2.3 Clearing up a Column of Data.....	63
Lesson 3: Color Management	65
Why is Color Management Important?.....	66
Color Space	68
Color Workflow	71
Using the Source Settings.....	72

Using LUTs and CDLs	82
Review/Discussion Questions	92
Exercise 3: Color Management.....	93
Exercise 3.1: RED Color Settings	94
Exercise 3.2: Anesthesia	94
Lesson 4: Mastering Settings.....	95
Understanding Settings	96
Types of Settings.....	97
Settings and Their Locations.....	99
Managing Settings.....	108
Some More Settings Tricks.....	116
Summary	117
Review/Discussion Questions	118
Exercise 4: Mastering Settings	119
Exercise 4.1: Updating Group Settings	120
Exercise 4.2: Add Some Extra Settings to Your Collection.....	121
Exercise 4.3: Linking Settings to Workspaces	122
Lesson 5: Script Based Editing.....	125
What Is a Lined Script?	126
Using Script Integration.....	127
Preparing a Script for Script Integration.....	129
Linking Clips to Scripts	132
Adding Script Marks.....	136
Editing with the Script Window	143
Review/Discussion Questions	146
Exercise 5: Script Based Editing	147
Exercise 5.1: Use Script Integration.....	148
Exercise 5.2: Add Script Marks Manually and Automatically	148
Exercise 5.3: Enrich Scripts with Metadata.....	149
Exercise 5.4: Edit with the Script Window	151
Lesson 6: Working with the Timeline.....	153
Making the Timeline Work for You	154
Timeline Settings	154
Lassoing Options	157
Configuring the Timeline	160
Additional Timeline Features.....	174
Timeline Quick Find	175
Review/Discussion Questions	177

Exercise 6: Working with the Timeline	179
Exercise 6.1: Create Some Timeline Views	180
Exercise 6.2: Link Your Views to a Workspace	182
Exercise 6.3: Switching Lasso Mode at the Touch of a Button	182
Lesson 7: Advanced Trimming	185
Taking Trimming to the Next Level.....	186
The Trim Mode: A Quick Review	187
Keeping in Sync	195
Bi-Directional Trimming	199
Analyzing Audio at Cut Point	202
Entering Trim Mode on Just One Track.....	204
Trimming on the Fly.....	206
Slipping and Sliding.....	207
Asynchronous Trimming.....	209
Red Roller Trimming.....	211
Review/Discussion Questions.....	213
Exercise 7: Advanced Trimming	215
Exercise 7.1: Use Dynamic Trimming.....	216
Exercise 7.2: Create Split Edits.....	216
Exercise 7.3: Use Advanced Trimming Techniques.....	217
Lesson 8: Metadata for Output	221
Using Subtitles.....	222
The Sub Cap Effect.....	222
Using the SubCap Effect.....	229
AS-11: Professional Delivery of Broadcast Material.....	234
Active Format Description in the Data Track	237
Review/Discussion Questions.....	239
Exercise 8: AS-11	241
Exercise 8.1: Export an AS-11 File.....	242
Lesson 9: Music, Sound & Multichannel Editing	245
Audio Workflow.....	246
Multichannel Audio.....	246
Audio Ducking	252
Audio Grouping.....	254
Multichannel Enhancements in Media Composer.....	255
Working with Surround Sound.....	257
Using the Audio Mixer for Multichannel Mixing	262
Review/Discussion Questions.....	268

Exercise 9: Working with Multichannel Audio	271
Exercise 9.1: Create and Export a Simple Surround Mix	272
Exercise 9.2: Import Multichannel Audio Files	274
Exercise 9.3: Dealing with Audio Levels	277
Lesson 10: Fixing Problems with Paint Tools	279
Introducing Paint	280
Object-Manipulation Tools	284
Putting the Paint Effect to Use	287
Paint Effect Modes	290
Using Scratch Removal	296
Animation.....	298
Review/Discussion Questions	304
Exercise 10: Fixing Problems with Paint Tools	305
Exercise 10.1: Draw Bézier Shapes.....	306
Exercise 10.2: Scratch Removal	306
Exercise 10.3: Remove the Dog	307
Exercise 10.4: Color the Sky in the Shot with the Moving Car	309
Lesson 11: Compositing and Tracking	311
Compositing for VFX	312
AniMatte	312
Keying with SpectraMatte	314
Garbage Mattes	325
The Tracker	328
Review/Discussion Questions	337
Exercise 11: Compositing and Tracking	339
Exercise 11.1: Corner Tracking	340
Lesson 12: Improving the Story with VFX	347
Working on a Comp	348
Improving the Performance with Split Screens.....	348
Creating a Defocus Effect to Imply Depth of Field.....	350
The Horror Mask.....	355
The Desert Comp.....	365
Review/Discussion Questions	372
Exercise 12: Improving the Performance with VFX	373
Exercise 12.1: The X-Ray Monster	374
Exercise 12.2: The Face in the Door!	375
Exercise 12.3: The Mask Revisited.....	376
Index	377
