

# PT210M: Contents

<b>Preface .....</b>	<b>xi</b>
<b>Lesson 1. Preparing a Session for Music Composition .....</b>	<b>1</b>
Customizing Sessions with MIDI Setup.....	2
MIDI Connections to Pro Tools.....	2
MIDI Studio Setup (Windows Only) .....	3
Audio MIDI Setup (Mac Only) .....	5
Routing MIDI Signals in Pro Tools.....	8
Signal Flow Systems.....	8
MIDI Routing .....	9
Interacting with External MIDI Devices .....	10
Using MIDI Beat Clock.....	10
Routing Audio from MIDI Instruments through Pro Tools.....	11
Working with Complex Song Structures .....	13
Changing the Song Start .....	13
Adding Meter Changes.....	15
Meter and Tempo Changes and the Click .....	16
Matching Session Tempo to an Audio Loop .....	19
Working with Audio Loops.....	19
Using Identify Beat.....	19
Reusing Tracks and Session Data.....	21
Importing Tracks.....	21
Using Track Presets .....	22
Importing Other Reusable Features.....	26
Review/Discussion Questions .....	28
<b>Exercise 1. Session Preparation &amp; Import .....</b>	<b>30</b>
<b>Lesson 2. Tracking and Overdubbing .....</b>	<b>35</b>
Recording Virtual Instruments with MIDI Controllers .....	36
Assigning MIDI Controls to Plug-in Parameters .....	36
Recording MIDI CC Data .....	37
Viewing and Editing Recorded MIDI CC Data .....	37
Automation vs. MIDI CC Graphs .....	39
When to Record MIDI CC Data versus Automation .....	39
Converting CC Data to Automation .....	42
Tracking Techniques for MIDI Instruments .....	43
Using the MIDI Input Filter .....	43
Converting MIDI Virtual Instrument Recordings to Audio.....	46
Monitoring Mode Options and Preferences.....	50
Auto Input Monitoring .....	50
Input Only Monitoring.....	51
Monitoring Mode Preferences.....	52

QuickPunch and TrackPunch Recording.....	53
Using QuickPunch.....	53
Using TrackPunch .....	54
Setting QuickPunch/TrackPunch Crossfade Preferences.....	55
Notes about QuickPunch/TrackPunch .....	55
Recording Multiple Takes.....	56
Playlist Basics .....	56
Working with Edit Playlists .....	57
Using Playlists View .....	60
Recording to Multiple Playlists .....	61
Review/Discussion Questions .....	64
<b>Exercise 2. Controlling Virtual Instruments.....</b>	<b>66</b>
<b>Lesson 3. Editing and Fine-Tuning Audio.....</b>	<b>69</b>
Working in Dynamic Transport Mode .....	70
Dynamic Transport Mode Operation.....	70
Dynamic Transport Preferences.....	72
Editing with Dynamic Transport Mode.....	72
Example Workflow: Using Dynamic Transport with a Loop .....	73
Compositing from Playlists.....	74
Auditioning Takes .....	74
Editing Playlists.....	75
Rating Clips .....	75
Filtering the Playlists View by Ratings .....	76
Track Compositing Workflows .....	76
Editing On-the-Fly .....	78
Customizing Fades .....	79
Editing Fades.....	79
Using Crossfades for a Comped Performance .....	80
Using the Pencil Tool for Waveform Repair .....	84
Introduction to Beat Detective .....	86
Beat Detective Functions .....	86
Beat Detective Overview .....	87
Using Beat Detective to Conform Audio .....	88
Step 1: Define the Selection.....	88
Step 2: Detect Transients (Identify Beat Triggers).....	90
Step 3: Review the Beat Triggers .....	91
Step 4: Separate Clips.....	92
Step 5: Conform Clips to the Grid .....	92
Step 6 (Optional): Smooth Edits.....	93
Step 7 (Optional): Render Results after Edit Smoothing .....	94
Review/Discussion Questions .....	95
<b>Exercise 3. Using Beat Detective for Tempo Matching .....</b>	<b>97</b>

<b>Lesson 4. Editing and Fine-Tuning MIDI .....</b>	<b>103</b>
Enhancing MIDI Performances .....	104
Groove Quantize .....	104
Restore Performance .....	106
Flatten Performance .....	107
The Change Velocity Operation .....	107
MIDI Real-Time Properties In Depth .....	108
Track-Based Real-Time Properties .....	109
Clip-Based Real-Time Properties .....	109
Real-Time Properties Settings .....	110
Writing Real-Time MIDI Properties .....	112
Editing and Arranging with MIDI Notes .....	113
Navigating and Selecting Notes .....	113
Transposing Notes .....	113
Splitting Notes between Tracks .....	115
Using the Select/Split Notes Function .....	116
Using Multi-Timbral Plug-Ins .....	118
Xpand!2 Example: Setting up a Multi-Timbral Drum Kit .....	118
Structure Free Example: Setting up a Multi-Timbral String Bank .....	121
Review/Discussion Questions .....	125
<b>Exercise 4. Editing MIDI .....</b>	<b>127</b>
<b>Lesson 5. Advanced MIDI Production .....</b>	<b>133</b>
The MIDI Editor Window .....	134
Viewing MIDI Editor Windows .....	135
The Contents of the MIDI Editor Window .....	136
MIDI Editor Window Toolbar .....	139
Record, Solo, and Mute Buttons .....	139
Edit Modes .....	140
Edit Tools .....	140
Track Edit Selector .....	140
Target Button .....	140
MIDI Editor Window Views .....	141
Piano Roll View .....	141
Introduction to the Score Editor .....	143
The Score Editor Window .....	143
The Contents of the Score Editor Window .....	144
Adjusting the Appearance of Scores .....	144
Score Setup .....	144
Transcription Settings .....	145
Editing in the Score Editor .....	148
Edit Tools .....	148
Selecting Notes .....	148
Transposing Notes .....	149
Moving Notes .....	149

Inserting Notes.....	150
Printing Scores.....	150
Review/Discussion Questions .....	151
<b>Exercise 5. Working in the MIDI Editor .....</b>	<b>153</b>
<b>Lesson 6. Enhancing Drum Performances .....</b>	<b>159</b>
Creating MIDI Drum Patterns.....	160
Using Drum Loops and Pattern Sequencers .....	160
Programming Drums .....	161
Processing MIDI Drum Performances.....	168
Using Separate Virtual Instruments for Each Drum Part.....	168
Using Auxiliary Output Stems.....	171
Converting MIDI Drum Parts to Audio.....	172
Supplementing a Drum Recording .....	177
Reinforcing Audio Drums with MIDI .....	177
Using Drum Samples.....	179
Beat Detective for Multi-track Drums .....	187
Key Concepts for Multi-track Drum Editing .....	188
Drum Editing Workflow.....	189
Review/Discussion Questions .....	195
<b>Exercise 6. Replacing a Compromised Drum Part.....</b>	<b>197</b>
<b>Lesson 7. Song Structure, Key, and Tempo .....</b>	<b>205</b>
Tempo Basics.....	206
Tempo Events.....	206
Bar Beat Markers .....	206
Inserting and Editing Tempo Events (Recap) .....	206
Inserting and Editing Bar Beat Markers.....	207
Tempo Events versus Bar Beat Markers .....	208
What Gets Affected by Tempo Events .....	209
Advanced Tempo Editing .....	209
Graphic Tempo Editor.....	209
Editing Tempo Events in the Tempo Editor .....	210
The Tempo Operations Window.....	214
Using Beat Detective to Create a Tempo Map .....	218
Working with Key Changes.....	218
Adding, Editing, and Deleting Key Signatures .....	219
Tips for Using Key Signatures.....	220
Example Key Change Scenario.....	221
Working with Chord Symbols .....	222
Adding Chord Symbols to Your Session .....	222
Displaying Chords in the Score Editor.....	224
Modifying and Deleting Chord Symbols .....	224
Review/Discussion Questions .....	225
<b>Exercise 7. Working with Key Changes.....</b>	<b>227</b>

<b>Lesson 8. Arranging and Producing .....</b>	<b>235</b>
Managing Sound Collections .....	236
Working with Sound Libraries .....	236
Working with Catalogs .....	237
Creating Music and Sound Effects Catalogs .....	238
Modifying and Updating Catalogs .....	239
Renaming and Modifying a Catalog .....	239
Updating Catalogs and Relinking Items.....	240
Locating and Backing Up Catalogs .....	241
Sound Design for Music .....	241
Importing Files from Sound Libraries and Catalogs .....	241
Spotting Sound Elements.....	244
Using Timestamps .....	246
Sound Design Techniques.....	248
Locking Clips .....	249
Song Arrangement .....	250
Using Cut Time and Insert Time Operations .....	251
Selecting, Copying, and Pasting Across all Tracks .....	253
Using Nested Clip Groups for Arrangement .....	255
Crossfading Clip Groups .....	255
Delay Compensation and MIDI Offsets.....	256
MIDI Track Timing Adjustment.....	256
Delay Compensation for MIDI Beat Clock.....	258
MIDI Beat Clock Offsets .....	258
Delay Compensation and Hardware Inserts .....	258
Review/Study Questions.....	260
<b>Exercise 8. Creating a Transition Effect.....</b>	<b>262</b>
<b>Lesson 9. Mixing and Automation .....</b>	<b>267</b>
Organizing Sessions for Mixing .....	268
Working with Submixes.....	268
Manually Configuring Submix I/O .....	269
Using Route to Tracks for Submixes.....	270
Submixing and Printing Stems .....	270
Writing Static Mixer Settings.....	271
Two Families of Write Commands.....	272
Differences Between Write Commands.....	272
Using Preview Mode for Static Automation .....	273
Preview Mode Overview .....	274
Using Preview with the Manual Write to All Command .....	274
Using Preview with the Write to All Enabled Command .....	276
Choosing between Static Automation Options.....	276
Using Punch Preview .....	277
Punch-in During Playback .....	277
Cue Up and Punch.....	278

- Using Trim Automation.....278
  - Varieties of Trim Mode.....279
  - Writing Trim Automation.....280
  - Viewing Trim Automation.....280
  - Coalescing Trim Automation.....281
- Stereo Mixing and Pan Depth .....282
  - Pan Law.....282
  - Variable Stereo Pan Depth Setting .....282
  - Stereo Pan Depth Options.....283
  - Selecting a Pan Depth Setting .....283
- Review/Discussion Questions .....284
- Exercise 9. Using Automation Techniques .....286**
- Lesson 10. Printing Your Mix .....291**
  - Outputting Stems.....292
    - Bouncing Stems with Track Bounce.....292
    - Bouncing Stems using Busses .....293
    - Rendering Stems to Tracks.....296
  - Using Destructive Record Techniques .....298
    - Destructive Record Mode .....298
    - DestructivePunch Record Mode .....298
  - Using Mirrored Outputs .....301
    - Mirroring on TRS Outputs (HD OMNI Only) .....301
    - Mirroring on Primary Outputs .....302
  - Exporting MP3 Files.....303
    - MP3 Export Process .....303
    - MP3 Export Options.....304
  - Review/Discussion Questions .....305
- Exercise 10. Generating Final Files .....307**
- Index .....313**
