

PT310 | S6: Contents

Preface.....	xi
Prerequisites for This Course.....	xi
System Requirements.....	xi
Becoming Avid Certified	xii
Pro Tools Certification.....	xii
User Certification	xii
Operator Certification	xii
Expert Certification	xiii
Conventions and Symbols Used in this Guide	xiii
Procedures and Lists	xiii
Menu and Key Commands.....	xiii
Sidebars	xiv
Keyboard Commands.....	xiv
Lesson 1. Pro Tools S6 Overview	1
What Is Pro Tools S6?.....	2
Master Module	2
Automation Module	5
Fader Module.....	6
Process Module.....	7
Knob Module.....	7
Display Module.....	8
Pro Tools S6 Hardware Configurations	8
Configuring the Pro Tools S6 Hardware	9
Connecting Workstations to the Pro Tools S6.....	14
Enabling EUCON Connectivity	19
Master Module Overview	20
The Master Module Screens	20
Attention Track Knobs.....	24
Main Menu Switches.....	25
Navigation Switches	25
Soft Key Switches.....	26
Monitoring Controls	26
Automation Module Overview	28
Attention Fader	28
Transport Section	29
Jog/Shuttle Wheel	29
Soft Key Switches.....	30
Synchronizer, Numeric Keypad, and Locate Keys	31
Channel Strip Basics.....	31
Fader Module.....	32
Process Module.....	35

Knob Module	37
Display Module	38
Basic Surface Navigation.....	43
Channel OLED Displays	43
Banking Tracks	44
Nudging Tracks	45
Selecting Tracks.....	46
Attentioning Tracks.....	47
Review/Discussion Questions	48
Practical Challenges/Tasks	48
Lesson 2. Working with the Master Module	49
Session Navigation from the Master Module	50
Overview of the Tracks Screen.....	50
Managing the Tracks Screen.....	52
Selecting Tracks from the Tracks Screen	55
Attentioning Tracks and Banking from the Tracks Screen	57
Enabling Record, Input Enable, Solo, and Mute from the Tracks Screen.....	59
Clearing Record, Input Enable, Solo, and Mute from the Tracks Screen.....	63
Working with Tracks from the Master Module.....	64
Overview of the Home Screen	64
Attentioning Tracks from the Home Screen.....	66
The Attention Track Editor	69
The Function Scroller.....	70
The Function Editor.....	70
Working with the Attention Track Knobs.....	72
Functions with Additional Editing Features/Function Graphs	75
Advanced Editing Features and Use of Function Graphs	80
Review/Discussion Questions	82
Practical Challenges/Tasks	82
Lesson 3. IO and Routing Assignments	83
Assigning Output Busses from the S6 Surface.....	84
Assigning Outputs from the Function Editor/Attention Track Knobs.....	84
Assigning Outputs from the Process/Knob Modules.....	93
Assigning Outputs in Expand Mode	101
Viewing Output Assignments on the Display Modules	103
Assigning Inputs from the S6 Surface.....	104
Assigning Inputs from the Function Editor/Attention Track Knobs.....	104
Assigning Inputs from the Process/Knob Modules	109
Assigning Inputs in Expand Mode	112
Viewing Input Assignments on the Display Modules	112
Working with Remote Microphone Preamps	113
Avid PRE.....	113
Configuring Avid PRE with Pro Tools	114
Controlling Avid PRE from the Function Editor/Attention Track Knobs.....	118
Controlling Avid PRE from the Process/Knob Modules	120

Controlling Avid PRE in Expand Mode	123
Viewing Avid PRE Parameters on the Display Modules	124
Review/Discussion Questions	125
Practical Challenges/Tasks.....	125
Lesson 4. Working with Panning and Sends	127
Working with Pans.....	128
Working with Pans from the Function Editor/Attention Track Knobs	128
Working with Pans from the Process/Knob Modules.....	134
Working with Pans in Expand Mode.....	139
Viewing Pan Functions from the Display Modules	139
Working with Sends	140
Working with Sends from the Function Editor/Attention Track Knobs	140
Working with Sends from the Process/Knob Modules	143
Working with Sends in Expand Mode.....	150
Viewing Send Parameters on the Display Modules	150
Review/Discussion Questions	151
Practical Challenges/Tasks.....	151
Lesson 5. Working with Inserts and Plug-Ins	153
Working with Plug-In Inserts	154
Working with Inserts from the Function Editor/Attention Track Knobs	154
Working with Inserts from the Process/Knob Modules.....	163
Working with Inserts in Expand Mode.....	170
Viewing Insert Assignments and Parameters on the Display Modules.....	171
Working with Dynamics Inserts	171
Working with Dynamics from the Function Editor/Attention Track Knobs.....	171
Working with Dynamics from the Process/Knob Modules.....	174
Working with Dynamics in Expand Mode	178
Assigning Default Dynamics Plug-Ins	178
Viewing Dynamics Functions on the Display Modules.....	179
Working with EQ Inserts.....	180
Working with EQs from the Function Editor/Attention Track Knobs	180
Working with EQs from the Process/Knob Modules	187
Working with EQs in Expand Mode.....	191
Assigning Default EQ Plug-Ins.....	192
Viewing EQ Functions on the Display Modules	192
Working with HEAT.....	193
Working with HEAT from the Function Editor/Attention Track Knobs.....	193
Working with HEAT from the Process/Knob Modules.....	195
Working with HEAT in Expand Mode	197
Viewing HEAT Functions on the Display Modules.....	197
Review/Discussion Questions	199
Practical Challenges/Tasks.....	199

Lesson 6. Editorial Functions and Techniques	201
Working with MIDI and Instrument Tracks	202
Working with MIDI Tracks from the Function Editor/Attention Track Knobs	202
Working with MIDI Tracks from the Process/Knob Modules	208
Working with Instrument Tracks from the Function Editor/Attention Track Knobs ...	213
Working with Instrument Tracks from the Process/Knob Modules	217
Viewing MIDI and Instrument Track Parameters on the Display Modules	222
Transport and Jog Wheel Functions	222
Transport Functions	222
Jog Wheel Functions	224
Memory Locations	227
Editing Clips from the S6	229
Viewing Waveforms/Edit Parameters from the Display Modules	229
Working with Edit Mode from the Process/Knob Modules	232
Working with Edit Mode Directly from the Process Modules	240
Working with Edit Mode in Expand Mode	240
Review/Discussion Questions	241
Practical Challenges/Tasks	241
Lesson 7. Advanced Navigation	243
Navigation across Multiple Workstations	244
Attentioning Workstations to the S6	244
KVM Switching of Connected Workstations	248
Layouts	248
Layout Mode	249
Creating Layouts	251
Recalling Layouts	257
Editing and Deleting Layouts	259
Saving and Loading Layout Sets/Titles	260
Working with Layouts Across Multiple Workstations	264
Working with Mix and Edit Groups	265
Creating Groups from the S6	265
Working with Groups from the Function Editor/Attention Track Knobs	266
Working with Groups from the Process/Knob Modules	267
Working with Groups in Expand Mode	270
Viewing Group Assignments on the Display Modules	270
Working with VCAs	270
Clutching Members of a Group	270
Using VCA Groups	271
VCA Master Attributes	274
Working with VCAs from the Function Editor/Attention Track Knobs	276
Working with VCAs from the Process/Knob Modules	278
Working with VCAs in Expand Mode	280
Viewing VCA Slaves on the Display Modules	281
Working with VCA Spill	281
Spilling VCA Slaves from the Fader Modules	281

Spilling VCA Slaves from the Attention Track	283
Spilling VCA Slaves from within Layouts	284
Review/Discussion Questions	286
Practical Challenges/Tasks.....	286
Lesson 8. Automation and the S6	287
Enabling Automation Modes with the S6	288
Fader Module Automation Mode Switches.....	288
Global Automation Mode Soft Keys	290
Enabling Automation Modes Using the Master Module Tracks Screen	291
The Automation Write Enable Soft Keys.....	292
Writing Automation with S6	293
Writing Basic Real-Time Automation.....	293
Automating Plug-Ins.....	294
Writing Plug-In Automation.....	296
Using AutoMatch.....	297
Auto Suspend	299
Using the Auto “Write To” Soft Keys.....	299
Latch Prime.....	303
Priming While Stopped.....	303
Un-Priming Controls	304
Join and Auto Join Modes	305
Join	305
Auto Join	306
Mute Extend	308
Review/Discussion Questions	310
Practical Challenges/Tasks.....	310
Lesson 9. Advanced Automation Workflows	311
Advanced Automation Features and Workflows	312
Trim Automation	312
Trim Automation Playlists	312
Writing Trim Automation.....	314
Coalescing Trim Automation.....	316
Suspending Trim Automation	318
Clearing Trim Automation	319
Include Sends in Trim Mode.....	320
VCA Master Automation.....	321
Writing VCA Master Automation.....	321
Viewing VCA Master Automation on Slave Tracks.....	321
Coalescing VCA Master Automation	322
Coalesce When Removing VCA Slaves/Deleting VCA Masters	325
Overriding VCA Master Automation on Slave Tracks	327
Advanced VCA Automation Workflows	328
Out of Bounds Volume Automation Using Trim and/or VCA Masters	331

Preview Mode.....	332
Previewing Automation	333
Suspending Preview	335
Punch Preview	336
Writing Preview Automation Workflows	337
Preview and Trim Mode	339
Capture Mode	339
Capturing Automation	340
Punch Capture.....	341
Workflows for Writing Capture Automation.....	343
Capture and Trim Mode.....	343
Snapshots	344
Saving, Naming, and Recalling Snapshots	345
Importing Snapshots.....	347
Preview, Capture, and Snapshot Automation Workflows	348
Capture in Preview	348
Punch Capture in Preview.....	349
Capture in Preview, Snapshot, and Punch Capture in Preview Workflow.....	349
Review/Discussion Questions	350
Practical Challenges/Tasks	350
Lesson 10. S6 Soft Keys and the Soft Key Editor.....	351
S6 Soft Keys	352
Navigating with the Master Module and Automation Module Soft Keys	352
The Soft Key Editor	355
Creating and Editing Soft Keys	357
Remapping and Assigning Functions to the Automation Module.....	370
Clearing and Deleting Soft Key Assignments	375
The Default Soft Keys	379
Review/Discussion Questions	380
Practical Challenges/Tasks	380
Appendix A. Default Soft Key Tables	381
Master Module.....	381
Automation Module.....	394
Miscellaneous Soft Key Pages	403
