MEDICAL AND PRESCRIPTION PLAN

13. How do I know which medical plan is right for me?

Ask ALEX is a great resource to help decide which benefits are right for you. You can utilize the ALEX tools to help you better understand your options. Connect with ALEX by visiting [Start.MyALEX.com/BSWH](https://start.myalex.com/BSWH). Don't forget—you'll still need to submit any changes in PeoplePlace by Nov. 9.

14. When should I expect to receive my new medical ID card?

Updated medical ID cards will be mailed to your home address (or mailing address if one is on file) in early January. **Note:** Be sure to show your updated ID card to your providers and pharmacies to avoid denied claims.

You can also access a temporary copy of your medical card through one of these options:

1. **Log into the BSWHP Member Portal** at [MyBSWHealth.com](https://mybswhealth.com) to access a temporary copy of your ID card. Team members may need to create an account if they have not set up a Member Portal account.

If your ID cards don't arrive by January, contact BSWHP Member Services at **844-843-3229** from 7 a.m. to 7 p.m. CST, Monday through Friday to request additional cards.

UNDERSTANDING MEDICAL PLAN RATES

Medical rates are determined based on the plan you select, who you enroll and your hourly rate of pay as of Sept. 20, 2026.

16. Will my medical rates go up if my salary changes or I receive a bonus?

Your hourly rate as of Sept. 20, 2026, will be used to determine your medical rate for 2027. Even if you have changes throughout the year (increases or decreases), your hourly rate for medical coverage will stay the same. The only time your medical rate will change is if you go from full time to part time, or vice versa.

17. How are medical rates determined if I am exempt/salaried and not paid hourly?

Your hourly rate of pay will be calculated based on your annual salary and your standard hours as of Sept. 20, 2026. This hourly rate will be used to determine your medical rate and will be locked in for the year. The only time your medical rate will change is if you go from full time to part time, or vice versa.

Frequently asked questions

18. Why are medical premiums/deductibles increasing?

The increases are driven by many factors, including a dramatic rise in healthcare costs and our continued investment in our team members, facilities, and equipment. Plan cost-sharing ensures our benefits remain sustainable over time.

19. How does plan cost-sharing keep benefits sustainable over time?

BSW will continue paying for most of the cost of coverage. Plan cost-sharing provides BSW the opportunity to continue offering comprehensive benefits that are competitive with comparable employer plans, while maintaining our operations in the long-term.

FINDING AN IN-NETWORK PROVIDER

Depending on the plan you select, you may have access to three different network tiers.

20. Where can I find a list of providers?

You can use the provider search tool at BSWHealthPlan.com/BSWH to find a list of in-network providers. Be sure to select the plan you elected for the 2027 plan year to view providers as of Jan. 1, 2027. Search for different types of providers, such as:

- Primary care providers (PCPs)
- Specialists
- Urgent Care
- Walk-in clinics
- Hospitals and facilities

21. Are BSW facilities and affiliated entities covered under Tier 1 BSW Premier network?

It is possible for a new hospital or entity to have BSWH in their name and not be part of Tier 1. Please reference the provider search tool at BSWHealthPlan.com/BSWH to confirm provider network status prior to accessing care.

22. What should I do if my provider shows up in the provider search results but say they aren't part of the network?

Your provider's office staff may not be aware they are part of the network for the BSW medical plans—either through direct contracts with BSWHP or our Tier 2 UnitedHealthcare network. If this situation arises with one of your doctors, please ask them to call Provider Services at **800-655-7947** to verify their network participation.

23. What should I do if I'm unable to find a specific specialist under the Find a Provider search tool?

For assistance, contact BSWHP Member Services at 844-843-3229 from 7 a.m. to 7 p.m. CST, Monday through Friday, or use the chat feature on MyBSWHealth.com from 8 a.m. to 5 p.m. CST, Monday through Friday.

2027 Annual Enrollment | Texas

Frequently asked questions

24. What happens if Member Services is unable to find an in-network provider for the specific specialist I need?

Ask your non-contracted provider to submit a prior authorization request to BSWHP for their services to be considered at the in-network benefit level. The request will be evaluated, and a decision will be made upon completion of the review. Prior authorization must be obtained before services are covered.

25. What if I have dependent children on my plan that live out of state?

If you have dependents living outside of Texas or 40 or more miles from the nearest Tier 1 acute care hospital, you should consider either the Premium or HDHP plan because of their expanded provider network. To find out if there are network providers in the location where your dependent(s) live, check the provider search tool at BSWHealthPlan.com/BSWH.

26. What is the out-of-area coverage for the Premium and HDHP plans?

The out-of-area coverage is available if you or a covered dependent(s) live 40 or more miles from the nearest Tier 1 acute-care hospital. If activated with BSWHP, care received by Tier 2 providers will be covered at the Tier 1 benefit level.

Note: To activate this coverage, contact BSWHP Member Services at **844-843-3229** from 7 a.m. to 7 p.m. CST, Monday through Friday prior to receiving care. If you or your dependent already have the out-of-area coverage activated, it will automatically roll over to 2027. If you no longer need this coverage, contact BSWHP to deactivate.

27. Under the BSWH EPO plans, are out-of-area dependents covered at all?

The only coverage available for out-of-area dependents would be for urgent and emergency care. If you have out-of-state dependents, you should consider the BSWH PPO or BSWH HDHP plans.

28. What access to coverage do we have for travel outside of Texas or outside of the country?

If you're traveling out of state and need emergency care, your member cost share will depend on your plan choice: BSWH EPO has a \$600 copay plus 10% coinsurance, BSWH PPO has a \$600 copay plus 10% coinsurance, and BSWH HDHP is 10% coinsurance after meeting the deductible.

If you're admitted to a facility, the copays and coinsurance for BSWH EPO and BSWH PPO plans will be waived, and for BSWH PPO members, the inpatient benefit will be based on the facility network status—Tier 1 and Tier 2 will follow their respective benefits, while admissions to Tier 3 facilities will be covered at the Tier 2 benefit level.

Coverage for out-of-country services is limited to emergencies, and the benefit is equivalent to the coverage provided for in-country services, depending on the plan you select for 2027.

The deductible will be the same as Employee + Family:

- The BSWH EPO and BSWH PPO plans have embedded deductibles, which means the plan provides after-deductible coverage once an individual with family coverage meets the Employee Only deductible, even if the family deductible has not been met.
- The BSWH HDHP has an aggregate deductible, which means there is no embedded deductible for each individual family member and the entire family deductible would need to be met before the plan pays for care or services for any family member.

35. How are emergency transportation services covered?

BSWH EPO & BSWH PPO plans have a \$200 copay and BSWH HDHP have a 10% coinsurance after deductible.

36. Are lab costs covered at 100% under preventive care?

If the labs are deemed preventive, billed as preventive and sent to an in-network lab, they will be covered at 100%.

37. What is the maternity coverage under each plan?

The BSWH EPO and BSWH PPO plans offer a bundled maternity copay* which provides the following coverage:

- **BSWH EPO:** \$400 copay for all expenses related to maternity/delivery care, including pre-natal and well-baby charges, if newborn is added to the plan for coverage.
- **BSWH PPO:** \$1,200 copay (Tier 1 only) for all expenses related to maternity/delivery care, including pre-natal and well-baby charges, if newborn is added to the plan for coverage.
- **HDHP:** Maternity coverage for Tier 1 providers is covered at 90% after the deductible is met.

**Copay applies to the facility claim. All other services billed with a maternity/delivery diagnosis code will be paid at 100%. Newborns must be added to the medical plan via PeoplePlace within 31 days.*

36. What happens to my spouse's medical insurance coverage when he or she turns 65 and is eligible for Medicare?

Frequently asked questions

UNDERSTANDING TIME OFF AND DISABILITY COVERAGE

78. What is short-term leave (STL)?

Short-term leave (also known as short-term disability) coverage provides income replacement if you can't work because of a qualifying illness, injury or you become the parent of a new child. Benefits are payable for up to 180 calendar days as long as you continue to be eligible.

79. Do I need to be enrolled in short-term leave coverage to receive parental leave benefits?

Yes, you must be enrolled in short-term leave prior to the child's birth or placement to receive parental leave.

80. How much coverage does short-term leave provide?

Short-term leave provides a base coverage of 60% with the option to buy-up coverage to 70%.

Note: Depending on your role, additional plan options may be available.

81. Are pre-existing conditions covered on the short-term leave plan?

If you don't currently have coverage, you'll need to enroll in this benefit to be covered for 2027. Those who enroll for the first time during Annual Enrollment will be subject to the preexisting condition exclusion, and any condition for which you receive treatment, diagnosis, or medical advice between October and December would be excluded for the first 12 months of the policy.

This means that if you enroll in short-term leave, and then find out you are pregnant in October, November or December (prior to the effective coverage date of Jan. 1), your pregnancy and delivery would not be eligible for coverage.

82. If I update my short-term leave coverage, will the pre-existing condition provision apply?

If you were enrolled in short-term leave in 2026 and you elect to change your coverage for 2027 (Ex: increasing from the 60% plan to the 70% plan) the pre-existing condition provision wouldn't apply.)

83. If I start short-term leave in 2026, will my new Annual Enrollment election begin in 2027?

If you're on a leave of absence with short-term leave coverage prior to the new year, any changes you made to your STL coverage during AE will not take effect until you return to work. (Ex. If you waived STL in 2026 and your leave began before 2027, but you elected 60% STL during AE, your benefit will remain waived until you return to work).
