

HP60-13-1-PHMB and Assure HP55-13-1-PHMB

Air Source Heat Pump

Our Baxi HP60 and Assure HP55 Air Source Heat Pumps deliver outstanding energy performance at both high and medium temperature. Extremely quiet with excellent SCOP ratings, it is the perfect solution for retrofit applications.

High temperature

Quiet operation

Easy commissioning with on-site support* and Baxi START App

Low carbon emission GWP 3

Designed for use with Baxi ASHP Pre-plumbed Cylinder and ASHP Cylinder

Up to 7 years' enhanced warranty*

Feature

Benefit

Wide range of outputs (4-13kW)	Suitable for a variety of property sizes – perfect for everything from small homes to larger dwellings.
High SCOP at both 35°C and 55°C	Delivers excellent energy efficiency even at higher flow temperatures – perfect for retrofit installations.
Maximum flow temperature of 75°C	Compatible with existing radiator systems – minimising disruption and installation costs.
Low GWP R290 refrigerant	Reduced carbon emissions with a GWP 3.
Quiet operation	Extremely quiet, providing homeowners with a comfortable living environment within residential areas.
Magnetic filter included as standard	Protects the system from debris – enhancing reliability and extending lifespan of the heating system.
Designed to work with our Baxi ASHP Pre-Plumbed Cylinder	Simplifies installation, speeds up commissioning enabling system optimisation for maximum efficiency.
Easy commissioning with on-site support* and Baxi START App	On-site commissioning support and access to the Baxi START App commissioning wizard to ensure optimum performance, efficiency and energy savings for your customers.
Up to 7 years' enhanced warranty*	Provides extra peace of mind – backed by Baxi's nationwide network of engineers.

* T&Cs apply

PERFORMANCE

Min/Max Operating Range (°C)	-25/+35
SCOP 35°C	4.70
SCOP 45°C	4.06
SCOP 55°C	3.73

35°C Flow

Maximum Output⁽¹⁾

A-5°C W+35°C	14.83 kW
A0°C W+35°C	16.13 kW
A+7°C W+35°C	17.57 kW

Nominal Output⁽²⁾

A-5°C W+35°C	11.94 kW
A0°C W+35°C	12.54 kW
A+7°C W+35°C	13.50 kW

45°C Flow

Maximum Output⁽¹⁾

A-5°C W+45°C	14.22 kW
A0°C W+45°C	15.49 kW
A+7°C W+45°C	18.65 kW

Nominal Output⁽²⁾

A-5°C W+45°C	12.89 kW
A0°C W+45°C	12.91 kW
A+7°C W+45°C	13.50 kW

55°C Flow

Maximum Output⁽¹⁾

A-5°C W+55°C	12.95 kW
A0°C W+55°C	14.64 kW
A+7°C W+55°C	16.40 kW

Nominal Output⁽²⁾

A-5°C W+55°C	11.50 kW
A0°C W+55°C	12.78 kW
A+7°C W+55°C	13.50 kW

Sound Pressure Level @1m	44.0 dB(A)
Sound Power Level (ErP)	52.0 dB(A)

Baxi may introduce modifications to their products from time to time. Consequently the details given in this data sheet are subject to alteration without notice.

⁽¹⁾ Output values tested at maximum compressor frequency.

⁽²⁾ Nominal output values under test conditions EN14825:2013.

Selections and sizing offered by Baxi utilise nominal values unless otherwise stated.

ELECTRICAL DETAILS

Power Supply	220V-240V/1Ph/50Hz
MCA	28 A
TOCA	31 A
MFA	32 A

HYDRONIC DETAILS

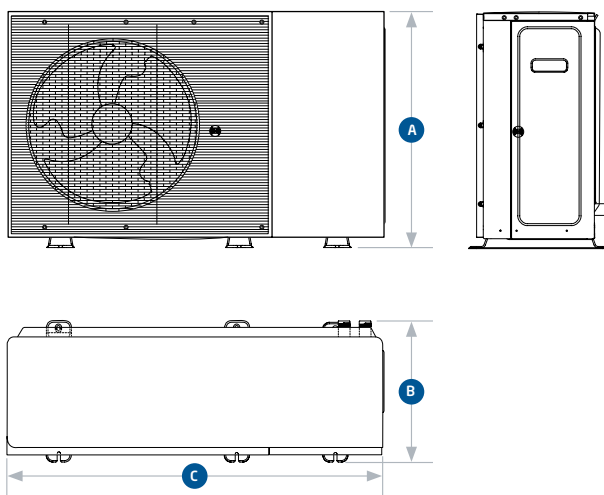

Flow/Return Connections	G 1 1/4"
Internal Expansion Vessel	8 L
Pre-Pressure	1.5 Bar
Maximum Water Pressure	3 Bar
Minimum System Volume at 55°C	51 L

REFRIGERANT CIRCUIT DETAILS

Refrigerant	R290
Volume	1.25 kg
Compressor Type	Twin rotary / GMCC

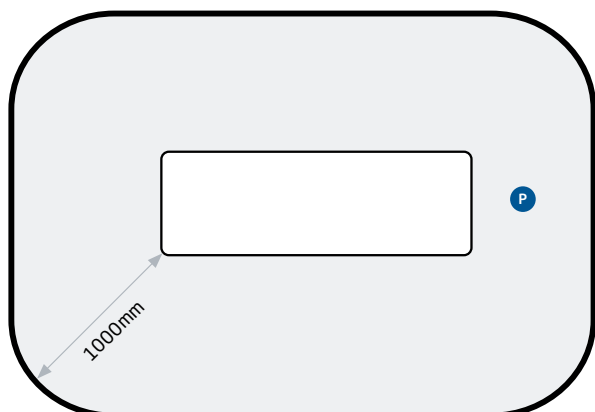

DIMENSIONS

A Height	872 mm
B Depth	523 mm
C Width	1390 mm
Net Weight	140 kg
Weight with Packaging Weight	162 kg

CLEARANCES

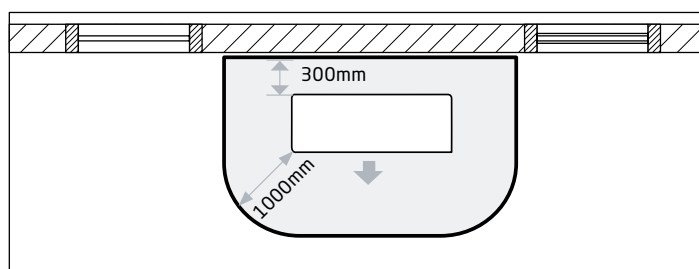

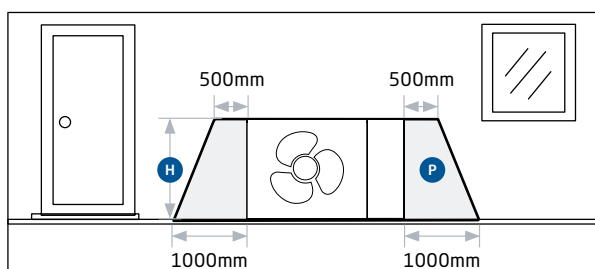

Ground-mounted, on a plot or on a flat roof

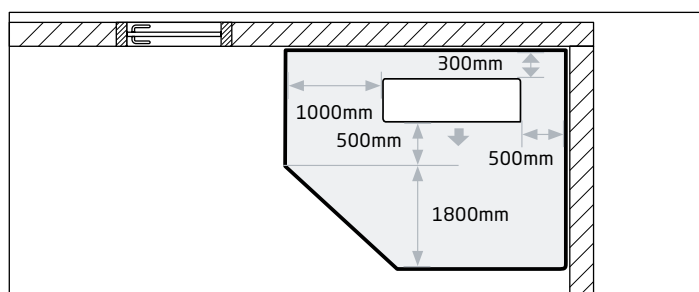

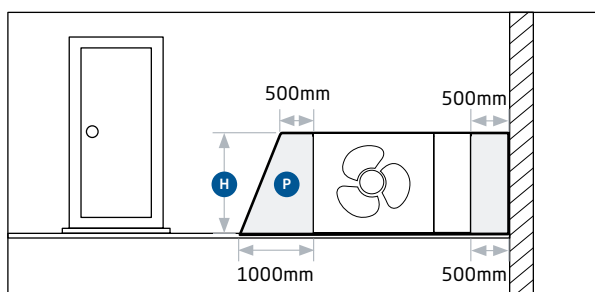

P Protective perimeter

H Height of the protection perimeter: greater than or equal to the height of the outdoor unit in relation to the ground

Siting the outdoor unit in front of an external wall

Installing the outdoor unit in a corner
