1 Setting up your uSense thermostat

Getting started

Turn on display screen

To turn on the display screen you can press the top or bottom button or turn the control knob.

The screen will switch off after 30 seconds if the thermostat is not touched.

If the Presence Sensor is activated, the display screen will turn on automatically as you move your hand towards the thermostat.

The Presence Sensor can be deactivated.

Welcome screen

The first time you activate your uSense thermostat, you will be greeted with a welcome screen.

Select country

Scroll through the list of countries using the control knob. Press the top button to select, then press and hold the top button to confirm.

Select language

Scroll through the list of languages using the control knob. Press the top button to select, then press and hold the top button to confirm.

Set date and time

Scroll through the date and time list using the control knob. Press the top button to select, then press and hold the top button to confirm.

Accept terms and conditions

Click to accept the terms and conditions of connecting to the internet.
