

# Gulshan Mehta

**Chief Digital and Information Officer  
Blanchard Valley Health System**

## Biography

Gulshan Mehta serves as the chief digital and information officer (CDIO) for Blanchard Valley Health System (BVHS). Mehta has proven leadership in information technology and governance, enterprise architecture, system integration, business intelligence, and analytics. He works to drive digital strategies, data analytics, information technology services, including cybersecurity at BVHS.

Before joining BVHS, Mehta, on behalf of the Oracle Corporation, was the head of the Bear Institute for Health Innovation at Children's National Health System (Washington, D.C.). He led the vital information technology functions, including clinical and business application advancements, technology and infrastructure operations, clinical informatics, and business intelligence and analytics, including population health management.

A frequent contributor to healthcare thought leadership, Mehta has delivered industry webcasts and articles examining the digital experience's role in improving clinical outcomes for patients and their families.

Mehta holds a Bachelor of Science in Computer Science with a minor in Business from the University of Missouri (Columbia, MO). He is a CHIME-certified healthcare CIO (CHCIO) and credentialed as a Certified Professional in Healthcare Information and Management Systems (CPHIMS).

Mehta and his wife, Kangana, have two young children.
