

BLANCHARD VALLEY REGIONAL HEALTH CENTER ADMINISTRATIVE POLICY

SUBJECT: Financial Assistance Policy

FILE: ADM-110.77

HEADING: Patient Policies

DATE: 12/29/15

PAGE: 1 of 27

PERTAINS TO: All Departments

REVIEWED: 11/15, 05/22

PREPARED BY: Patient Financial Services

REVISED: 9/19, 1/20, 2/21, 7/21, 10/21, 1/22,
4/22, 7/22, 10/22, 1/23, 4/23, 7/23, 10/23, 1/24

PURPOSE

The purpose of this policy is to comply with Internal Revenue Code Section 501(r) by outlining the eligibility criteria for financial assistance for uninsured patients as well as the method to apply for financial assistance and to provide a policy for emergency medical care.

FINANCIAL ASSISTANCE POLICY

As part of its mission of caring for a lifetime, Blanchard Valley Regional Health Center (BVRHC), developed this Financial Assistance Policy (FAP) to outline the eligibility options for uninsured patients who require emergency or medically-necessary services at Blanchard Valley Hospital or Bluffton Hospital. Qualified patients will receive free or discounted care in accordance with the eligibility criteria and determination processes outlined in this document.

EMERGENCY MEDICAL CARE POLICY

Blanchard Valley Hospital and Bluffton Hospital provide, without discrimination, care for emergency medical conditions to individuals regardless of whether they are eligible for financial assistance under this policy. Blanchard Valley Hospital and Bluffton Hospital will provide emergency medical care in compliance with the Emergency Medical Treatment and Labor Act (EMTALA). Blanchard Valley Hospital and Bluffton Hospital will not require payment from individuals before they receive treatment for emergency medical conditions or pursue debt collection activities that might interfere with providing emergency medical care.

GENERAL INFORMATION – FINANCIAL ASSISTANCE POLICY

The guidelines for Medicaid medical necessity will be followed to define medically necessary services as outlined in Ohio Administrative Code 5160-1-01. Medical necessity for individuals covered by early and periodic screening, diagnosis, and treatment (EPSDT) is defined as procedures, items, or services that prevent, diagnose, evaluate, correct, ameliorate, or treat an adverse health condition such as an illness, injury, disease or its symptoms, emotional or behavioral dysfunction, intellectual deficit, cognitive impairment, or developmental disability. In addition, services not covered by EPSDT in which the person can be expected to suffer prolonged, increased or new morbidity; impairment of function, dysfunction of a body organ or part; or significant pain and discomfort will be considered medically necessary for the purposes of this policy.

Conditions of medical necessity are met if all of the following apply:

1. Meets generally accepted standards of medical practice;
2. Clinically appropriate in its type, frequency, extent, duration, and delivery setting;
3. Appropriate to the adverse health condition for which it is provided and expected to produce the desired outcome;
4. Is the lowest cost alternative that effectively addresses and treats the medical problem;

5. Provides unique, essential, and appropriate information if it is used for diagnostic purposes; and
6. Not provided primarily for the economic benefit of the provider nor for the convenience of the provider or anyone else other than the recipient.

The fact that a physician, dentist or other licensed practitioner renders, prescribes, orders, certifies, recommends, approves, or submits a claim for a procedure, item, or service does not, in and of itself, make the procedure, item, or service medically necessary and does not automatically render it inclusive in this FAP.

Blanchard Valley Hospital and Bluffton Hospital have signage and display brochures that provide basic information about the Hospital Care Assurance Program (HCAP) and BVRHC's financial assistance program in public locations as required by Ohio law.

Financial assistance screening and services are provided in the following areas of both Blanchard Valley Hospital and Bluffton Hospital:

1. Outpatient registration
2. Pre-registration
3. Inpatient registration
4. Patient rooms
5. Emergency room
6. Cashier's office
7. Patient financial services

Effort will be made to determine a patient's eligibility for financial assistance prior to, or at the time of service. Patients may request financial assistance at any time prior to or during the scheduling process, pre-registration, registration, testing, hospital stay, or throughout the course of the billing and collections cycle. Inquires can be made directly to any of the staff members involved in the above processes, by contacting the financial assistance staff at 419-423-5310, or by completing an application for financial assistance. Efforts will be made to qualify patients for other state or federal programs prior to a financial assistance determination. Assistance is offered, free of charge, to complete assistance applications for the following programs:

1. Ohio Medicaid
2. Hospital Care Assurance Program
3. Blanchard Valley Hospital and Bluffton Hospital financial assistance

The financial assistance plain language summary, financial assistance policy, and financial assistance application can be obtained, free of charge, in any of the above locations or can be downloaded from the Blanchard Valley Health System website at www.bvhealthsystem.org. Documents are available in both English and Spanish.

HCAP applications will be accepted for a period of 3 years from the date of the initial bill per the State of Ohio HCAP requirements.

BVRHC financial assistance applications will be accepted for a period of one year after the date of the initial bill.

Amounts Charged to Patients

BVRHC will not charge uninsured patients approved for financial assistance under this policy, for emergency or other medically necessary care, more than the amounts generally billed (AGB) to individuals who have insurance. Gross charges will be provided on the billing statement and used as the starting point for allowances, discounts, and deductions.

BVRHC uses the look-back method to determine its AGB. The hospitals will determine AGB annually by dividing the sum of the amount of all claims for emergency and other medically necessary care that have been provided by private health insurers and Medicare fee-for-service insurers during a prior 12 month period by the sum of the associated gross charges for those claims.

The current AGB percentage was calculated to be 60%. Both Blanchard Valley and Bluffton Hospital have elected to reduce the AGB for the purposes of determining amounts that will be charged to FAP eligible patients under this policy to 50%.

See Attachment A for an explanation of how BVRHC's AGB percentage is calculated.

Eligibility Criteria

1. The BVRHC financial assistance program is designed to address needs for financial assistance to uninsured patients for all eligible services regardless of race, creed, sex, or age.
2. Services not eligible for financial assistance:
 - a. Cosmetic services and other elective procedures and services that are not medically necessary.
 - b. Services not provided and billed by Blanchard Valley Hospital or Bluffton Hospital (e.g. independent physician services – see Attachment B for a complete list of providers)
3. Eligibility for financial assistance for the uninsured will be based on the patient's household income and the number of members in the household in accordance with the federal poverty guidelines. Write off percentages for uninsured patients include:
 - a. 50% AGB discount will be applied to all uninsured patient accounts
 - b. Uninsured individuals who apply for financial assistance by completing an assistance application and providing supporting documentation may receive a charity discount of 50, 75, or 100% based on federal poverty guidelines.
 - i. 25% discount for those between 226-250% of the poverty guidelines
 - ii. 50% discount for those between 201-225% of the poverty guidelines
 - iii. 75% discount for those between 151-200% of the poverty guidelines
 - iv. 100% discount for those between 0-150% of the poverty guidelines
4. Presumptive assistance will be provided to those uninsured patients who are not able to provide complete financial information. Examples include:
 1. Patients who are pending Medicaid approval
 2. Homeless patients
 3. Deceased patients with no known estate
 4. Patients who have filed bankruptcy

Documentation for Establishing Income

Information provided by the patient and/or family for HCAP assistance will follow the State of Ohio HCAP requirements.

Information required to complete a BVRHC application for financial assistance includes a completed financial assistance application which states income for a minimum period of 3 months immediately prior to the date of service, the number of dependents in the household, and supporting documentation.

Income examples include salary and self-employment income; unearned income including alimony, retirement benefits, dividends, interest and income from any other source. Supporting documents related to the above income may include: pay stubs for a minimum of the immediate 3 months prior to date of service, W2, payroll history printout, copy of checks, bank statement showing direct deposits, tax return, a written statement of income and expenses for self-employed individuals, unemployment payments, child support (only if child is the patient), pension, alimony, annuity statements, etc.

In the event that the patient has not had any form of income for the 3 month period prior to the service date, the patient is required to provide a written statement indicating the last income received and how they are supporting their living expenses.

Determination Process

1. Determination for financial assistance will be made after all efforts to qualify the patient for government financial assistance or other programs have been exhausted.
2. Financial assistance determinations will be made in a timely fashion and will not attempt collection efforts while such determination efforts are being made.
3. Once a determination has been made, the patient/applicant will be notified in writing of the decision.
4. Once qualification for financial support has been determined, reviews for continued eligibility for subsequent services will continue for a reasonable time period.
 - a. HCAP inpatient applications are valid for 45 days from discharge in the event the patient is readmitted for the same underlying condition. Otherwise, a separate HCAP application is required for each inpatient admission.
 - b. HCAP outpatient applications are valid for 90 days from the admission/service date.
 - c. BVRHC financial assistance applications are valid for a period of 90 days from the admission/service date and apply to both inpatient and outpatient services.
5. Financial assistance will not be denied based solely on an incomplete application.
 - a. BVRHC will contact the patient via the United States Postal Service to notify them of additional documentation requirements as well as the actions that will be taken in the event the patient fails to respond.
 - b. In the event the patient fails to provide the additional documentation requested, the application for financial assistance will be denied.
6. If the patient completes the financial assistance application between 120 days and 1 year from their first statement, BVRHC and/or their representatives will suspend any excessive collection action that may have been taken.
 - a. In the event the patient qualifies for financial assistance, any excessive collection action that occurred will be reversed.
 - b. In the event the patient does not qualify, the suspended collection activity will resume.

Billing and Collection Practices

BVRHC has established billing and collection practices for patient payment obligations that are fair, consistent, and compliant with state and federal regulations and makes reasonable efforts to ensure that patients are billed for their services accurately and timely.

BVRHC will make the FAP plain language summary available as part of the intake or discharge process. Additionally, BVRHC will include on each patient statement, a written notice of the availability of financial assistance, the phone number where the patient can contact staff for further information, and a direct link to the website where the application, plain language summary, and FAP can be downloaded in English or Spanish.

BVRHC will not engage in extraordinary collection actions (ECA) against an individual to collect payment for care unless it has made reasonable efforts to determine if the individual is eligible for assistance under this policy, or each has provided the notices summarized in this policy.

BVHRC may pursue some of these ECA's as summarized in this policy. An ECA includes the following:

1. Selling an individual's debt to another party unless the other party has entered into an agreement prohibiting it from engaging in any ECA, limiting the amount of interest it can charge and

providing that the debt can be returned to the Hospital if the individual is determined to be FAP-eligible.

2. Reporting adverse information about an individual to credit agencies or credit bureaus.
3. Deferring, denying or requiring payment before providing medically necessary care because an individual has not paid one or more bills from previously provided care covered under this policy.
4. Actions that require legal process, including, but not limited to, placing a lien on an individual's property, foreclosing on an individual's property, attaching or seizing an individual's bank account, or any other personal property, commencing a civil action against an individual, causing an individual to be subject to arrest or body attachment and garnishing an individual's wages.

Filing a lien on certain judgments, settlements, or compromises owed to an individual as a result of personal injuries for which the Hospitals provided care is not an ECA, nor is filing a claim in a bankruptcy proceeding.

BVRHC will not initiate any ECA against an individual whose FAP eligibility has not been determined before 120 days after the first post-discharge billing statement is issued.

1. BVRHC have elected to accept and process a FAP application from individuals for one year after the first post-discharge billing statement.
2. If BVRHC receives a FAP application during the application period any ECA's that have been started will be suspended until the application is processed and a determination on the individual's FAP eligibility made. If an individual is determined to be FAP eligible, BVRHC will seek to reverse any ECA and refund any overpaid amount.
3. Written notice will be provided at least 30 days prior to initiating extraordinary collection actions which will include information related to the FAP, identifying the extraordinary collection action that will be initiated, and provide a plain language summary of the FAP.

BVRHC will work with all patients to establish suitable payment arrangement if payment in full cannot be made upon the first bill being delivered to the patient. Short term, interest free payment plans, with defined payment timeframes on the outstanding account balance are available to all patients. BVRHC also offers a loan program for patients who qualify.

BVRHC has written policies and procedures outlining when and under whose authority a patient debt is advanced for external collection activities that are consistent with this FAP. The following collection activities may be pursued by BVRHC and/or by a collection agent or attorney on its behalf:

1. Communicate with patients (call, written communication, fax, text, email, etc.) and their representatives in compliance with the Fair Debt Collections Act and Health Insurance Portability and Accountability Act (HIPAA).
2. Solicit payment of the estimated patient obligation portion at the time of service in compliance with EMTALA regulations and state laws.
3. Provide a low-interest loan program for payments of outstanding debts for patients who have the ability to pay but cannot meet the short-term payment requirements.
4. Report outstanding debts to Credit Bureaus only after all aspects of this procedure have been applied and after reasonable collection efforts have been made in conformance with the BVRHC FAP.
5. Pursue legal action for individuals who have the means to pay but do not pay or are unwilling to pay. Legal action also may be pursued for the portion of the unpaid amount after application of the BVRHC FAP.

BVRHC approved arrangements with collection agencies meet the following criteria:

1. The agreement with the collection agency is in writing and includes a code of conduct.
2. The agreement defines the standards and scope of practices to be used by outside collection agents acting on behalf of BVRHC, all of which must be in compliance with this procedure.

3. No legal action may be undertaken by the collection agency without prior written permission from BVRHC.
4. All decisions as to the manner in which the claim is to be handled, whether suit is to be brought, whether the claim is to be compromised or settled, whether the claim is to be returned to BVRHC, and any other matters related to resolution of the claim shall be made by BVRHC.
5. BVRHC reserves the right to discontinue collection actions at any time with respect to any specific account.

President

Attachment A
BVRHC

BVRHC's proximate gross charges for fully adjudicated claims for private insurers and Medicare fee-for-service insurers was \$349.9 million.

BVRHC's proximate expected reimbursements for fully adjudicated claims (i.e. includes both the portion that is to be reimbursed by the insurer and the portion that the patient is personally responsible to pay) from private insurers and Medicare fee-for-service insurers was \$188.6 million.

Based on the above data, BVRHC calculated that its AGB percentage is 54% of gross charges (\$188.60 million / \$349.9 million).

Amounts Generally Billed (AGB)		
<i>(Example Of AGB Calculation)</i>		
Approach: Look-Back Method		
Claims Period: January 1, 201x To December 31, 201x		
<u>Payor Categories:</u>	<u>Gross Charges:</u>	
Private Insurers & Medicare Fee-For-Service	349,900,000	
	349,900,000	(b)
<u>Payor Categories:</u>	<u>Expected Reimbursements:</u>	
Private Insurers & Medicare Fee-For-Service	188,600,000	
	188,600,000	(a)
Total Expected Reimbursements	188,600,000	(a)
Total Gross Charges	349,900,000	(b)
AGB Percentage [(a) / (b)]	54%	(c)
