Health Plans That Make Sense

HMO Plans

HMO plans are lower cost with exclusive provider networks in your area.

- Plans cover services received from in-network providers.
- If you go to a doctor or hospital that is not in network, you could end up paying the full cost of those services.
- Emergency services, urgent telehealth services, and out-of-network services that have received prior authorization are covered out of network inside and outside of Arizona.

ACA StandardHealth HMO with Health Choice Plan

- Members are assigned a designated primary care provider (PCP) to help manage care. You can change your PCP up to six times a year.
- A referral from your PCP is required for most non-emergency and non-urgent specialist services.

PPO Plans

PPO plans give you choice of doctors and the largest provider network in Arizona.

- You have the freedom to choose from a large range of providers, specialists, and hospitals throughout the state.
- If you choose out-of-network providers, facilities, or other healthcare professionals in Arizona, you will pay more than staying in network.
- Emergency services, urgent telehealth services, and out-of-network services that have received prior authorization are covered inside and outside of Arizona. No other out-of-state services are covered.
