STEP 1

Review your member ID card

You will receive your member ID card in the mail. Place the card in your wallet or keep it in a safe place, because you'll need it to receive any healthcare services. Your card shows you details about your health plan and who to call if you need help. Keep your card with you at all times and do not let others use it. You can also view an electronic version of your member ID card using the MyBlue AZSM mobile app.

If you lose your card, you're still covered. You can order a new card to be mailed to you through your online MyBlue member account, using the MyBlue AZ mobile app, or by calling Customer Service.

YOU WILL NEED YOUR BCBSAZ ID CARD WHEN YOU:

- Visit a doctor or other healthcare professional
- Pick up a medication that your doctor has ordered for you
- Visit an urgent care center, hospital, or emergency room
- Call Customer Service
- Sign up for your personalized **MyBlue** member account at azblue.com/MyBlue

*Your wireless plan's phone and data rates may apply. Apple and App Store are trademarks of Apple Inc., registered in the U.S. and other countries. Google Play is a trademark of Google LLC.

STEP 3 Know how your plan works

Get a primary care provider (PCP)

Your health plan provides a designated PCP as your main doctor and central point of care. If you see a doctor or go to a clinic or hospital that is not in your plan's network, you will be responsible for paying the full amount of your bill.

Your PCP is assigned to you and can be located at azblue.com/MyBlue. If your PCP isn't available, you can see another doctor at your PCP's practice, or get a referral from their office to see another PCP at a different practice. You can also change your PCP up to six times a year. To choose a new PCP, log in to your MyBlue account then click **Manage My PCP**.

Get a referral to see most specialists

Your plan requires you to get a referral from your designated PCP for most specialist visits. When your PCP refers you to other providers, they must be in your plan's network. If a referral is required and you do not get one, your health plan will not cover the specialist visit. Referrals are not required for visits to chiropractors, OB/GYNs, and certain other specialists.

You can log in to your MyBlue account and select **View Referrals & Precertification** under the Health Plan section to see if your referral request was approved. Once you confirm approval of your referral, you can schedule an appointment with the specialist.

Use network providers

Don't pay more than you should. Check that all of your healthcare providers and facilities are in your plan's network before you go.

Services by healthcare professionals outside the network are generally not covered except for emergencies, select ancillary services performed by out-of-network providers at an in-network facility, and other special circumstances when use is preapproved.*

NOTE: Register your member account, MyBlue, at azblue.com/MyBlue to read your Summary of Benefits and Coverage (SBC), which details coverage specific to your health plan and network.

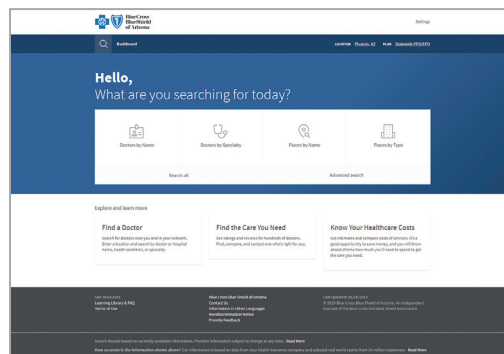

*Urgent care is available for visits to BlueCard® Traditional providers outside of Arizona.

STEP 4 Find healthcare providers in your plan's network

The **Find a Doctor** tool will help you easily discover all of the doctors, healthcare professionals, hospitals, and facilities that are in-network for your plan.

HOW TO START YOUR SEARCH

- 1 Sign up or log in to your member account at azblue.com/MyBlue.
- 2 Click **Find a doctor, facility, or estimate costs** at the top of the page and select **Doctors by name or specialty, hospitals, and clinics** from the drop-down menu.
- 3 Enter or confirm your **Location** at the top right-hand corner of the page. Search results will be listed in order of closest to farthest from that location.
- 4 Select one of the search options or you can **Search all** using a keyword.

It's always good to find out if providers are in your plan's network before you see them. Providers who are not in your plan's network will not be covered by your plan. That means you'll be responsible for paying the bill in full.

When talking with a provider, always ask, "Are you contracted to take my BCBSAZ plan?" Most providers are in a BCBSAZ network—but not all providers are in every BCBSAZ plan's network.

You can also call the number on the back of your member ID card to make sure a provider you're planning to see is in your network, look up your PCP, or check the status of a specialist referral.

STEP 5 Learn how health plans work

Health plans protect you by lowering the total cost of care and setting limits on how much you will need to pay.

Once you know some of the basic insurance words and phrases, you can get an idea of what you're going to need to pay at the doctor's office. The following example helps define some of these terms.

LET'S SAY your best friend wakes up with stomach pain and a fever. Your friend calls her in-network doctor to be seen right away. She pays a \$15 **copay** for seeing her doctor.

Then, after she receives care, her doctor finds that she'll need surgery totaling \$55,000.

Your best friend's health plan has a \$4,000 **deductible** for the year, which she must pay first. After that's paid, she will pay 20% of the costs (this is her plan's **coinsurance** amount) and her health plan will pay 80%.

*Once your best friend reaches her total **out-of-pocket maximum**, which is \$6,650 for her plan, her insurance will pay 100% of her covered medical costs for the rest of the year.*

WHAT DID HER OUT-OF-POCKET COSTS INCLUDE?

The \$4,000 deductible that was paid counts toward the out-of-pocket maximum, as well as the initial \$15 copay, leaving a balance of \$2,635. Once that's paid, your friend has met her out-of-pocket maximum of \$6,650 (\$15 + \$4,000 + \$2,635).

IN SUMMARY:

TOTAL COST OF HER MEDICAL CARE: **\$55,000**

YOUR BEST FRIEND PAID: **\$6,650**

INSURANCE PAID: **\$48,350**

Your best friend **saved \$48,350** by using a provider in her plan's network.

Learn more about these health terms on page 13.

STEP 6

TERMS TO KNOW

Allowed amount

The amount BCBSAZ has agreed to pay for a covered service. The allowed amount includes both the BCBSAZ payment and your cost share.

EXAMPLE: A doctor may normally charge \$100 for a particular service. But he has an agreement with your plan to accept only \$80 as reimbursement for that service. \$80 is the “allowed amount.” The allowed amount includes any amount paid by the plan, plus any amount the member pays as a cost share, including copays and deductibles.

Balance bill

This is the difference between the BCBSAZ allowed amount and a non-contracted provider’s billed charge. Non-contracted providers have no obligation to accept the allowed amount, with the exception of emergency and ancillary services provided in an in-network facility. Any amounts paid for balance bills do not count toward any deductible, coinsurance, or out-of-pocket limit.

Coinsurance

The share you pay for covered care once you’ve paid your deductible.

Services from a healthcare provider that is not in your network probably won’t be covered. Services by healthcare professionals outside the network are generally not covered except for emergencies, select ancillary services performed by out-of-network providers at an in-network facility, and other special circumstances when use is preapproved.

Copay

A fixed dollar amount you pay for certain care your plan covers. You can pay your copay before or after you receive care, depending on what your doctor’s office requires.

Deductible

The amount you pay for care during the plan year before your health insurance starts to pay.

EXAMPLE: Your plan may have a yearly deductible. As you get care that your plan covers, you pay for it yourself until you have reached the deductible amount. You will see your deductible amount on your member ID card.

Network (Participating) Provider

A doctor, clinic, hospital, or other healthcare provider that has contracted with BCBSAZ to serve plan members.

Out-of-pocket maximum

The most you pay in a year before your health insurance pays 100% of the cost of covered network services. This limit puts a cap on healthcare costs if you ever have a major illness or injury. This limit never includes items such as your premium or non-covered services. Costs for services from providers outside your network do not apply to this limit.

Precertification

Some services and medications require precertification (sometimes referred to as prior authorization). Except for emergencies, urgent care, and maternity admissions, precertification is always required for inpatient admissions (acute care, behavioral health, long-term acute care, extended active rehabilitation, and skilled nursing facilities), home health services, and most specialty medications. Precertification may be required for other covered services and medications.

The Patient's Bill of Rights under the Affordable Care Act (ACA)

Under the law, a "Patient's Bill of Rights" aims to help you make informed choices about your health. These tenets apply to all BCBSAZ non-grandfathered plans in effect after March 23, 2010.

THE PATIENT'S BILL OF RIGHTS:

- **Provides coverage to those with preexisting conditions***
- **Protects your choice of doctors:** Choose any primary care doctor you want from your plan's network
- **Allows young adults to stay covered on a parent's plan** up to age 26
- **Ends lifetime limits on coverage,** banning them for all new health insurance plans
- **Stops your insurance from being dropped** if you make an honest mistake on your application
- **Reviews premium increases:** Insurance companies must now publicly say why rate hikes (above a certain level) may be needed for Small Group plans and Individual and Family plans
- **Helps you get the most from your premium dollars:** Most of your premium dollars must be used for your healthcare—not for administrative costs
- **Ended annual dollar limits** on essential covered services in 2014
- **Continues to allow you to get emergency care** at a hospital outside of your health plan's network without a referral. (Note: Out-of-network providers can't balance bill above your cost share outlined in your benefit book)

Since the Patient's Bill of Rights became law, some additional rights and protections now apply. The healthcare law:

- **Requires that non-grandfathered plans cover most preventive services in-network at no cost share.**
- **Continues to guarantee your right to appeal:** You have the right to ask your insurer to reconsider its decision to deny authorization for a service or refusal to pay a claim. This has been the law in Arizona for many years, and it is now reflected in federal law through the ACA.**

*In effect for non-grandfathered Individual and Family plans on January 1, 2014.

**Complaints and appeal information and forms are available on azblue.com/MyBlue under the Manage My Plan tab.
