

Obsolete Pharmacy CPT/HCPCS Codes

[CPT/HCPCS Codes listed are still in effect, but drug products are no longer available or discontinued]

Process Effective Date of: 08/01/2021

Last Modified: 06/15/2021

The CPT/HCPCS codes listed below have been identified as "obsolete" pharmacy codes, which means that the drug manufacturer is no longer producing FDA approved drugs for these codes and any previously manufactured product is at least two years past their shelf life.

Please note that claims received with any of the listed CPT/HCPCS codes will be denied with an explanation that our members' benefit plans exclude prescription medications that are not FDA approved, and to validate coding and resubmit a corrected claim, if appropriate.
