

Obsolete Pharmacy CPT/HCPCS Codes

[CPT/HCPCS Codes listed are still in effect, but drug products are no longer available or discontinued]

Process Effective Date of: 09/01/2024
Last Modified: 10/03/2024

The CPT/HCPCS codes listed below have been identified as "obsolete" pharmacy codes, which means that the drug manufacturer is no longer producing FDA approved drugs for these codes and any previously manufactured product is at least two years past their shelf life.

Please note that claims received with any of the listed CPT/HCPCS codes will be denied with an explanation that our members' benefit plans exclude prescription medications that are not FDA approved, and to validate coding and resubmit a corrected claim, if appropriate.

Available resources to research proper CPT/HCPCS for NDC#:

CMS.gov - Medicare Part B Drug Average Sales Price - NDC-HCPCS Crosswalk:
[Access site. On the left hand-side of the page, select most current year "ASP Drug Pricing File" link. Scroll down the page to "Related Links" and select the Month/Year "ASP NDC-HCPCS Crosswalk" link. Accept license agreement and click "Open". Select the most current (month/year) "ASP NDC-HCPCS-Crosswalk" zip doc. Search by NDC# to locate CPT/HCPCS code. Obsolete NDCs will not display.]
<https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Part-B-Drugs/McrPartBDrugAvgSalesPrice/index>

National Bureau of Economic Research:
[Access site and select "Current Monthly Data" Table. Click "csv" link in "ASP" column. Search by NDC#. Obsolete NDCs will not display] ["Combined Months & Years Data" Table will display active and obsolete NDCs, but will not advise if obsolete.]
