YOUR PLAN NETWORK

See your ID card for the name of the plan network that applies to your benefit plan. You'll find the complete directory of providers in your plan's network at azblue.com. If you do not have Internet access, would like to request a paper copy of the directory, or have questions about whether or not a certain provider is in the network, please call Blue Cross® Blue Shield® of Arizona (AZ Blue) Customer Service at the number on your ID card. It's important to make sure your provider is in your plan network before you receive services.

MEMBER COST SHARING AND OTHER PAYMENTS

Members pay part of the costs for benefits received under this plan. What you pay depends on your particular benefit plan, the service you receive, and the provider you choose. You may have a coinsurance, copay, deductible, or some combination of these payments as detailed in the tables that follow. You can refer to Appendix A in your Base Benefit Book for a definition of the terms. AZ Blue uses your claims to track whether you have met some cost-share obligations. We apply claims based on the order in which we process the claims and not based on date of service.

Pharmacy and Medications Benefits (next two rows) **Note:** Your cost share for any medication is based on the tier to which AZ Blue has assigned it at the time the prescription is filled. No exceptions will be made regarding the assigned tier of a medication. AZ Blue may change the tier of a medication at any time. To confirm the status and tier of a particular medication, visit your AZ Blue portal account, or call Pharmacy Benefit Customer Service at the number on your ID card.	
Pharmacy Benefit A pharmacy deductible is the amount that must be paid each calendar year before the benefit plan begins to pay for tier 2, tier 3, and specialty medications covered under the Pharmacy benefit. After meeting the pharmacy deductible, you pay applicable cost share for tier 2, tier 3, and specialty medications.	**Retail Medications** (30-day supply) • Tier 1a: **$5 copay** • Tier 1b: **$25 copay** • Tier 2: pharmacy deductible up to **$6,500 per member** and **$13,000 per family,** then **50% coinsurance** • Tier 3 (including compounded medications and formulary exceptions): pharmacy deductible up to **$6,500 per member** and **$13,000 per family,** then **50% coinsurance** **Mail Order Medications** (90-day supply)

Benefit	Your Cost Share
The pharmacy deductible is calculated on the medication allowed amount. If you have family coverage, there is also a pharmacy deductible for the family. Amounts counting toward an individual's pharmacy deductible will also count toward any family deductible. When the family satisfies its pharmacy deductible, it also satisfies the deductible for all the individual members. An individual member cannot contribute more than his or her individual deductible toward the family's deductible. See the Using Your Pharmacy Benefits section in your Base Benefit Book for details about your Pharmacy benefits, including how your cost share is calculated.	• Tier 1a: **$15 copay** • Tier 1b: **$75 copay** • Tier 2: pharmacy deductible up to **$6,500 per member** and **$13,000 per family,** then **50% coinsurance** • Tier 3 (including formulary exceptions): pharmacy deductible up to **$6,500 per member** and **$13,000 per family,** then **50% coinsurance** **Specialty Medications** (including formulary exceptions, 30-day supply of most medications): pharmacy deductible up to **$6,500 per member** and **$13,000 per family,** then **50% coinsurance** You may obtain up to a 90-day supply of covered maintenance medications at a network retail pharmacy (keep in mind that not all medications are available for more than a 30- or 60-day supply). If you have a copay and receive a 31- to 60-day supply of medication, you will pay two times the applicable cost share for a 30-day supply. If you have a copay and receive a 61- to 90-day supply of medication from a network retail pharmacy, you will pay three times the 30-day cost share. Your cost share will be different depending on the type of pharmacy, how much of the medication you're getting, and the tier of the medication. If you purchase a brand-name medication when a generic equivalent is available, you will pay the **tier 1b copay plus the difference between the allowed amounts for the generic and brand-name medications,** even if the prescribing provider indicates on the prescription that the brand-name medication is what you should have. If you have completed step therapy and are taking a brand-name drug with a generic equivalent as a result of the step therapy process, you pay the cost share that applies to the brand-name medication (after meeting the pharmacy deductible for tier 2, tier 3, and specialty medications). **$0** for preventive medications and covered vaccines. AZ Blue determines under 45 CFR § 147.130: • Which medications are considered preventive, • Which vaccines are covered, **and** • For which there is a $0 cost share **$0** for the generic version of certain covered preventive medications or items; **applicable cost share** for the brand-name version. You may request an exception for waiver of cost share (see the Preventive Services section in your Base Benefit Book) for the brand-name version of a preventive medication or item. **$0** for the following female contraceptive (birth control) methods when your provider prescribes them for the purpose of contraception: • Condoms • FDA-approved brand oral, patch, vaginal ring, and injectable contraceptives with no generic equivalent components • FDA-approved diaphragms, cervical caps, and cervical shields • FDA-approved emergency contraception for members of any age • FDA-approved generic oral, patch, vaginal ring, and injectable contraceptives • Sponges and spermicides

For cancer treatment medications that are also classified as specialty medications, you pay the tier 1b pharmacy copay. For certain cancer treatment medications, as determined by AZ Blue, you will receive a **15-day supply,** and pay **one-half of the tier 1b** pharmacy copay the first time you receive it. You will be able to refill the medication every 15 days, and you will continue to pay one-half of the tier 1b pharmacy copay for each refill during your first three months using the medication. If you have side effects from the medication during the three-month period, your prescribing doctor may change your medication. If you tolerate the medication, you will be able to refill the cancer treatment medication for up to 30 days after your first three months of treatment.
