

Auto loans

The Bank of Oklahoma Simple Guide features basic information about our auto loan products in an easy-to-understand format.

An auto loan allows you to purchase a new or used vehicle or refinance the existing loan on your vehicle. You also have the ability to use the available equity in your vehicle.

Loan structure

Available loan amounts	\$5,000 - \$100,000
Loan purposes	Purchase (new or used) and refinance.
Available length of loan	New or used vehicle: 36-72 months.
Interest rate	Your interest rate is fixed for the life of the loan. Also, the interest rate is dependent on factors such as auto debit and credit history. If you have less than excellent and substantial credit or choose not to auto debit from a Bank of Oklahoma checking account, you may be offered a higher interest rate.
Loan-to-value (LTV)	The maximum LTV for this product is up to 100% for new vehicles, and 110% for used vehicles. Loan-to-Value is based on how much money you borrow on the vehicle compared to its current value. For example: \$20,000 Vehicle value X 110% Max loan-to-value (used) \$22,000 Amount available for the loan
Vehicle details	NADA is used to value vehicles. Vehicles cannot be older than 10 years. The maximum mileage for used vehicles is 200,000 miles.
Loan type	Your auto loan is a closed end loan, which means the loan proceeds will be disbursed at one time.
Monthly payment	Your monthly payment will be fixed for the life of the loan.
Principal payments	You can pay more than your standard monthly payment amount to reduce your principal loan balance at any time. This in turn may reduce the amount of time it takes to pay back your loan.
How do we accrue interest?	Interest is calculated daily.
