How deposits and withdrawals are processed

For additional information, refer to your account Agreements and Disclosures.

The order in which deposits and withdrawals are processed Transaction posting order	When we process multiple transactions in a single day, we may post items in any order. Generally, we will post credits, debits and adjustments in groups by type, with all transactions in one group being processed before any transactions in the next group as follows: • Deposits: Chronologically, or highest to lowest when bank cannot determine date or time of transaction. • Obligations to Bank and adjustments such as error resolutions: Chronologically, or lowest to highest when bank cannot determine date or time of transaction. • Debits, such as ATM, Mastercard® debit card, online or mobile banking transfers, online Bill Pay (if electronic), and wires: Chronologically[3], or lowest to highest when bank cannot determine date or time of transaction. • Checks[4] and ACH[5] transactions: Highest to lowest. • Most Fees: Lowest to highest.
When your deposits are available Funds availability policy	**Cash deposit with Teller or ATM:** Same business day. **Electronic direct deposit/wire transfer:** Same business day. **Check deposit with Teller or ATM:** Usually next business day after the day of your deposit but depends on the item. • If we place a hold on a check, we'll let you know the hold reason and when the funds will be available to use. This is typically provided at the time of deposit but may also be mailed later. • In some situations, we may notify you at the time or after your deposit is made that your funds (including the first $275) may be held longer. A "business day" is a non-holiday weekday. Deposits made before end of business cutoff time (10 p.m. CT) at banking center and ATM locations will be considered deposited that day. Deposits made after cutoff time will be considered deposited the next business day.

[3] Debit card transactions will be posted in chronological order on the day they are received by the bank from the merchant, which is often one or more days after you complete the transaction. Debit card authorizations will decrease the available account balance.

[4] Excludes checks converted to electronic debits.

[5] ACH (Automated Clearing House) debits are received electronically through a merchant you have instructed to bill your checking account i.e. for your utility or phone bill.
