Brunel Energy, Inc.

Management Policy Statement

Management is committed to always providing each employee with a safe work area free of recognized hazards. We must make Safety a part of our culture. In addition to the humanitarian reasons for preventing personal injury, the economic health of this company is dependent upon improved safety performance.

Brunel Energy, Inc., will assure a safe and healthy work environment, take the following measures: assign responsibility and accountability for safety activity, commit resources needed to operate an effective safety effort, and comply with local, state, and federal safety regulations and codes as well as appropriate industry standards.

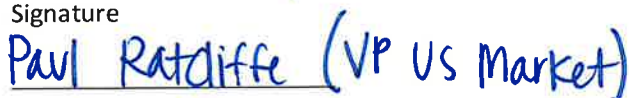

All accidents can be prevented through sound judgment, understanding the hazards and controls of work activities, and utilizing common sense in the execution of the work. In abiding by all company safety practices along with our safety regulations, you can help us make this company a safe place of employment for yourself and your fellow employees.

Increased awareness and attention to safety conditions and issues by all employees is essential to achieving the desired safety performance.

Remember, everyone loses from an accident. We are concerned about your Safety.
Help us keep you safe!
