FORMATION - beauty in irregularity

Texture takes centre stage in Formation, a collection inspired by the beauty in irregularity. The diverse surface texture of rock formations was used to inspire the collection, for sleek, boutique-style spaces. Designs include an abstract foliage design, textural jacquards, and even a full-coverage boucle embroidery, resulting in varied, tactile schemes. The collection's neutral, earthy palette links to Formation's inspiration of minerals and quartz. An Emerald-tinted green has been incorporated for a pop of colour. Each shade is subtle and sophisticated, allowing the texture to do the talking.
