

Witness nature in motion within Skylight. The movement of water against the backdrop of natural landscapes was central to the collection's inspiration. This becomes apparent in its dreamy portfolio. An abstract landscape design showcasing a ripple-effect sets the scene. This is joined by layers upon layers of texture throughout, which amplify the collection's calming effects. A woven tapestry, multi-tonal embroidery, and sculpted chenille design feature, awarding the collection its irresistible depth and tactility. An atmospheric palette features colourways such as Lilypad, Coral, and Storm, all influenced by the beauty of the natural world.
