

OUTSIDE IN - style without boundaries

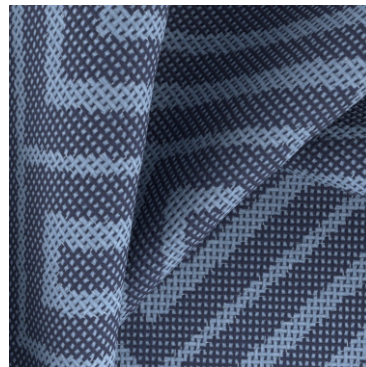

Inspired by the essence of South African living, where the outdoors is an extension of our homes—whether it's coastal escapes, bush adventures, or relaxing in the garden. The Outside In collection brings effortless harmony between nature and style, offering a curated mix of stripes, plains, geometrics, and tactile woven textures. Designed to blur the boundaries, this range delivers the sophistication of indoor aesthetics with the durability of premium outdoor performance. On the technical front, Outside In excels with solution-dyed yarns for superior colourfastness and UV resistance, alongside water repellency, stain resistance, anti-bacterial properties, flame retardancy, and impressive rub counts. Every design meets strict Oeko-Tex standards and comes with a 3-year warranty—beauty and resilience in equal measure.
