

POOL AND PATIO - solution dyed & UV stabilised indoor/outdoor fabrics

Our indoor/outdoor fabrics are woven from a premium blend of solution-dyed and UV-stabilised yarns, sourced from Europe. Solution dyed yarns provide long-lasting colour and performance with a 3-year guarantee against fading and strength loss. Engineered for all-weather use, they are mildew resistant and treated with water, oil, and general soil repellent—plus added fungicide protection for extra peace of mind. Now featuring exciting new designs, this collection truly offers something for everyone.
