

TiVo WishList – Video Transcription

Let's say you're a Will Ferrell fan — now you can have your very own Will Ferrell Film Festival. You can find him, or just about anything to interest you, by setting up a *WishList* search.

You can set your WishList to record every show automatically or be asked in each instance if you want to record it. Whether your interest is surfing, soufflés, or the Red Sox — if it's on TV, a WishList search will find it for you.
