

Change The Checkup Challenge

In July 2021, the Yabuki Family Foundation and Children's Wisconsin announced a \$20 million gift to integrate mental and behavioral health care across every Children's primary care location, including establishing a groundbreaking mental health walk-in clinic in Milwaukee. For the first time anywhere, doctors and therapists would work together to treat physical and mental health under the same roof.

Believing that there is no health without mental health, the Yabuki family designated \$5 million as the Change the Checkup Challenge. Every additional gift was matched dollar for dollar to change the conversation, change the checkup and change the results for Wisconsin's kids.

Children's has since opened additional mental health walk-in clinics in Kenosha and Green Bay, as well as created the Craig Yabuki Mental Health Center, a designation that acknowledges the innovative programs, growth of services, and increased coordination of mental and behavioral health services being offered.

Children's Wisconsin is honored to recognize the generosity of the following donors who made contributions to the Change The Checkup Challenge.
