CASD CHAT E-Newsletter

Meet The CASD Team

Dear CASD Families and Friends,

We are so grateful to work with a tremendous team of faculty and staff who make CASD run efficiently. The CHAT team (Ashley Muskett PhD, Angela Bollich PhD, and RA Andrea Lopez) wanted to take time to introduce you to our team! We also want to share information on a lot of great new programs for autistic individuals across the age range and their families and new studies that may be of interest as well.

Click here for the Children's National Hospital CASD website to meet the team with more information on each member and links to additional resources <https://childrensnational.org/departments/center-for-neuroscience-and-behavioral-medicine/programs-and-services/center-for-autism-spectrum-disorders/meet-the-team>.

Meet our Faculty

**Dr. Lauren Kenworthy,
Director of CASD,
Associate Division Chief**

**Dr. Anne Inge, Clinical
Director**

**Dr. Kelly Register-Brown,
Medical Director**

**Dr. Kathleen Atmore,
Developmental
Psychologist**

**Dr. Angela Bollich,
Neuropsychologist**

**Dr. Serene Habayeb,
Clinical Psychologist**

**Dr. Marissa Miller, Clinical
Psychologist**

**Dr. Cara Pugliese, Clinical
Psychologist**

**Dr. Deborah Potvin,
Neuropsychologist**

Dr. Allison Ratto, Clinical Psychologist

Dr. John Strang, Neuropsychologist

Ashely Muskett, Neuropsychologist

Dr. Srishti Rau, Neuropsychologist

Meet our Trainees

Rachael Arowolo, Postdoctoral Fellow

Caitlyn Cap, Postdoctoral Fellow

Profiles Celebrating Neurodiversity

Jessica-Jane Applegate is a British

Paralympic swimmer and competes in the S14 classification for swimmers with intellectual disabilities, mainly freestyle and backstroke preferring shorter distances. She qualified for the 2012 Summer Paralympics and on 2 September, Applegate won the gold setting a Paralympic record in the S14 200m freestyle. Applegate was born in Great Yarmouth, Norfolk, England. She was diagnosed with autism spectrum and began swimming at a young age after her mother took her to Lowestoft and Oulton Broad Swimming Club. By the age of 13 she was setting regional records and was selected for a UK sporting talent program. She was awarded the **Most Excellent Order of the British Empire (MBE)**.

2022 Calendar of Events

Free Parent Support Group

Where: Virtual

When: Every Monday at 1 PM EST

Dr. Dan Shapiro, friend of CASD, will be offering a free parent support group, every Monday at 1 PM EST. To register, [click here](#).

Dr. Shapiro is offering new courses for parents of different age groups. To learn more about these courses, please visit his website: <http://www.parentchildjourney.com/>

Dr. Shapiro also offers parent-child excursions: stand-alone courses on common topics in developmental and behavioral pediatrics: ADHD, anxiety, autism, social success, sibling relationships, eating, sleeping, violence, adolescence, gender, sexuality, and more. These in-depth seminars are for parents of children with challenging temperaments or developmental differences. Each Excursion starts with a review of background concepts then dives deep into specific strategies. As with all Parent Child Journey courses, the emphasis here is on individualizing the approach for each child. Choose the topics that interest you. Real-life challenges. Real-life solutions.

Pathfinders for Autism (<https://pathfindersforautism.org/calendar/>) provides a list of programs for all ages including video group for spouses/partners of adults with Asperger's; Transitioning services and Job skills; Baby and Family Navigator programs, and new this month, Autism from the Autistic Perspective and free Pediatric Occupational Therapy Screening and more!

Lurie Center For Autism

Presentation: "Collaborating With Schools"

Wednesday, September 21
6:30pm - 7:30pm

Special Education is a collaborative team effort. Lurie Center for Autism invites you to join Gretchen Timmel, MEd, and Elise Wulff, MEd for an open discussion about how to successfully work with your child's school team to understand your child's unique strengths and needs. Effective, proactive and ongoing communication between home and school builds deeper perspective and collaboration that maximizes the special education experience for you and your child.

Registration is Required

Please email us at LurieCenter@partners.org to reserve your spot. Event meeting link will be sent to registered participants the day before each event.

Partners in Policymaking®

Through 10 sessions, Partners participants will learn about systems change: creating, working towards, and achieving a vision of shared values about people with disabilities. Partners graduates often become lifelong and long-term agents of change in the community.

Apply by September 14th at noon at www.TheArcMD.org/Partners

Register NOW for Fall Educational Programs Starting September 17

Group programs led by our expert teachers and therapists

Unstuck and On Target!

Unstuck and OnTarget! is a research based intervention developed at the Ivymount School to promote problem solving in students who struggle with executive function deficits. The curriculum explicitly teaches flexibility, coping, and goal setting through fun lessons that work for learners with autism, ADHD, and other challenges. This program is a learning experience for the whole family with weekly student classes, as well as, weekly parent classes.

Applied Unstuck

This group offers students who have gone through the basic Unstuck and On Target program hands on opportunities to apply their new skills. Students will work together to generalize the skills they have learned by practicing how to be flexible and make plans to complete activities.

Both programs are offered Saturday mornings for 12 weeks starting September 17-December 10. *Programs will be offered onsite and in person but may switch to virtual if the health situation necessitates. Minimum number of participants required for group to run.*

Self-Advocacy Program

Using a program piloted at the Ivymount School, students will develop self-advocacy skills through a variety of activities. By the end of the course, students will have identified their strengths, interests and challenges. The program is designed for transition aged students 14-18 years old.

For participants who reside in MD, funding is available through the Department of Rehabilitation Services (DORS) Pre-Employment Transition Services (Pre-ETS). If interested, speak to your DORS Counselor for a referral AND click below to apply through our website. Private pay participants also accepted.

Offered Thursdays 4 - 5:30 pm for 12 weeks starting September 29 - January 12. *Program will be offered on-site and in person but may switch to virtual if the health situation necessitates.*

Maryland residents can apply now for DDA Low Intensity Support Services. LISS funds can be used to pay for our outreach programs. The final round of the random selection process is open now and will close on November 30, 2022.

Click [HERE](#) for more information.

Participate in Research

Learning Mechanisms in ASD

Children's National and Georgetown University are recruiting for an exciting new research study looking at how kids with autism spectrum disorder learn. We are looking at how *Unstuck and On Target: High School* impacts learning in kids 14-18 years old with autism. This intervention is designed to promote executive functioning skills including flexible problems solving, self-advocacy, and planning. Participation involves MRI scanning, cognitive assessments, and the treatment program. If interested, please contact Andrea Lopez at alopez4@childrensnational.org. See below for more info.

Participate in an Autism Research Study

What is the goal of the study?

We are looking at how adolescents learn key skills for adulthood. Your child will receive *Unstuck and On Target: High School*, a proven group therapy that builds skills for adult success like flexibility, setting goals, making plans, and organization.

Who can participate?

14-18 year olds with autism, earning a standard high school diploma with average cognitive abilities who are willing and able to participate in the group and MRI scanning (no neurological conditions or metal embedded in the body).

What are the benefits?

Your teen will participate in a treatment group with other teens conducted by a licensed psychologist, and you will receive parent support. Teens will receive a picture of their brain after their MRI scans and families can earn up to \$300 for their time spent outside of the group sessions.

What are participants asked to do?

There are three parts to this research study. **Each part will begin with an MRI scanning and behavioral assessment appointment:**

1. Parent Information Sessions with Experts (Pre-intervention)
2. *Unstuck and On Target: High School* Group Therapy (~25 weekly lessons)
3. Post-Intervention Follow-up Online Surveys

I'm interested! How do I participate? Please email Andrea Lopez at alopez4@childrensnational.org.

ASD Research Study

Please see below for a flyer regarding a study of brain development and autism. If you're interested, please contact Chelsea Armour, aarmour@childrensnational.org.
