

# Community Notification

## Narrandera Viaduct work at Augusta Street, Narrandera

8 April 2025 to 10 April 2025

UGL Regional Linx (UGLRL) operates and maintains the Country Regional Network (CRN) on behalf of Transport for NSW.

UGLRL will commence work on the Narrandera Viaduct at Augusta Street, Narrandera, in early April 2025. Please refer to the map over the page.

### WHAT WORK ARE WE DOING AND WHERE?

Over several days, we'll be removing three unsafe spans from the viaduct that crosses Augusta Street. This will reduce future risks and ensure the unused railway line, and the road remain safe for the community.

### WHY DO THE BRIDGE SPANS NEED TO BE REMOVED?

To ensure the safety of the community, we'll be removing three collapsing spans from the viaduct that pose a risk to public access to Augusta Street and the Koori Beach. Removing these spans will eliminate the risk of falling debris.

We've limited the removal of spans to those which pose a risk to public safety and access to Koori Beach. The rest of the viaduct will stay in place and remain fenced off until a long-term solution is determined by Transport for NSW.

### WHEN AND WHERE WILL WE BE WORKING?

We'll carry out this important work at Augusta Street, Narrandera, from **8 April 2025 to 10 April 2025**, between **7am to 5pm**.

### WHAT WILL THIS MEAN FOR YOU?

UGLRL is committed to minimising the impacts of our work activities on the local community. During the work, you may notice:

- A road and bridge closure between **7am** and **5pm** – there will be no pedestrian or vehicle

access to Koori Beach via Augusta Street during this time.

- Additional workers, vehicle movements and machinery in the area, including an Excavator, Bob Cat and an Elevated Work Platform (EWP).

### MANAGING OUR IMPACTS

UGLRL will take all necessary steps to minimise community and environmental impacts. This includes, but is not limited to:

- turning off machinery when not in use
- instructing workers to keep noise to a minimum
- servicing machinery to reduce noise and environmental impact
- informing the community about the Augusta Street closure.

An ecologist will be on site prior and during the works to ensure no microbats are roosting in any of the three spans.

### MORE INFORMATION

UGLRL prioritises working closely with the local community. If you have any questions or are likely to be impacted by this work, please contact us using the information over the page.
