

Bridge renewal at Friday Hut Road, Binna Burra

Community Notification
May 2026

 Regional Linx (UGLRL) operates and maintains the Country Regional Network (CRN) on behalf of Transport for NSW.

UGLRL and Transport for NSW would like to thank the Binna Burra community for taking part in consultation for the Friday Hut Road Bridge Renewal Project.

The community consultation period has now closed, following two rounds of consultation held in July 2025 and February 2026. All feedback received has been carefully reviewed.

What we heard

Community feedback highlighted the importance of:

- Maintaining safe and reliable access during construction
- Minimising travel times and detours
- Ensuring access for emergency services, particularly during wet weather.

What changed as a result

Based on community and stakeholder feedback, a temporary bridge will be constructed alongside the existing bridge. This approach reduces disruption, improves flood resilience, and maintains access for residents and emergency services while work is completed on the new bridge.

What happens next

We will provide updates on construction timing, site establishment and traffic arrangements before work starts. We will continue to keep the community informed as the project progresses.
