

Level crossing upgrade at Rutherford Road and Yuranigh Road near Molong

Community Notification

October 2026

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

On behalf of Transport for NSW, UGL Regional Linx (UGLRL) is upgrading the level crossing at Rutherford Road and Yuranigh Road near Molong between **October 2026** and **February 2027**.

What work are we doing?

We are upgrading these level crossings from a passive level crossing with signs and road markings to an active crossing with boom gates and flashing lights. This will improve safety for motorists and rail services.

The work will be completed in two stages.

Stage one will involve excavation works and rail reconditioning from Monday 12 October to Friday 18 December 2026.

Stage two will involve road works, installation and commissioning of flashing lights and new boom gates between January and February 2027.

We will notify residents and road users before stage two begins.

When and where will we be working?

Stage one work will be carried out at both sites from **Monday 12 October to Friday 18 December 2026**, weather permitting.

Our standard work will occur between **7am to 5pm, Monday to Friday**. This will also include some weekend work.

A continuous 24-hour shift will take place at Rutherford Road level crossing from **Saturday 24 October to Tuesday 27 October 2026**.

A map showing the work area and detour route is provided over the page.

What will this mean for you?

During the work, you will notice:

- a road closure and detour at Rutherford Road level crossing from **Monday 19 October to Monday 9 November 2026**
- traffic control and signs to help manage vehicle movements
- increased movements of construction vehicles and machinery in the area
- workers and machinery operating near the level crossing.

Please follow the directions of traffic controllers and allow extra travel time.

Managing our impacts

We will take steps to minimise impacts on the community and environment.

This includes:

- turning off machinery when it is not in use
- keeping noise to a minimum
- maintaining machinery to reduce noise and environmental impacts.

Why we are doing this work

The Australian and NSW governments are jointly funding the upgrade of the Rutherford Road level crossing through the Australian Government's Regional Level Crossing Upgrade Fund (RLCUF) and the NSW Level Crossing Improvement Program (LCIP).

Together, these programs will upgrade 23 high-priority level crossings in regional areas with high-intensity LED lights, bells, and retro-reflective boom gates to improve safety and reduce the risk of collisions and near hits.

Location of work and detour

The map shows the location of the work area at Rutherford Road and Yuranigh Road.

The red line shows the detour via Amaroo Road, Mitchell Highway and Yuranigh Road. The detour is about 22.2 kilometres and is expected to add around 20 minutes to travel times.

The detour will be in place from 8am Wednesday 25 November to 5pm Tuesday, 15 December 2026.

More Information

UGLRL prioritises working closely with the local community. If you have any questions or are likely to be affected by this work, please contact the Communications Team and provide the location: **RUTHERFORD ROAD, BORENORE.**
