

 **The Pediatric Health Network**

The Pediatric Health Network (PHN) is the premier pediatric clinically integrated network in the region. With the aim of improving health and health care for our region's children, PHN works with pediatric primary care, specialists, hospitals and community partners to facilitate coordinated and collaborative care. This innovative network of over 1,500 providers in 104 locations across the region is committed to improving the quality of care, improving patient satisfaction and managing cost while demonstrating value and elevating provider and care team experience.

 **Mobile Health Vans**

Children's National offers families comprehensive pediatric and dental care through our mobile medical program, which strives to improve the health and well-being of medically underserved children in Washington, D.C., in Wards 7 and 8. For more information, call 202-436-3060.

 **Health Insurance**

Children's National accepts nearly every insurance plan, private payments and Medicaid. Additionally, Children's National provides care to children and families regardless of their ability to pay. If a patient does not have insurance, Children's National can help get coverage or financial support. Please visit ChildrensNational.org/Insurance for resources.

ABOUT CHILDREN'S NATIONAL HOSPITAL

Children's National Hospital, based in Washington, D.C., celebrates 150 years of pediatric care, research and commitment to community. Volunteers opened the hospital in 1870 with 12 beds to care for Civil War orphans. Today, 150 years stronger, it is among the nation's top 10 children's hospitals. It is ranked No. 1 for newborn care for the fourth straight year and ranked in all specialties evaluated by U.S. News & World Report. Children's National is transforming pediatric medicine for all children. In 2020, construction will be complete on the Children's National Research and Innovation Campus, the first in the nation dedicated to pediatric research. Children's National has been designated twice as a Magnet® hospital, demonstrating the highest standards of nursing and patient care delivery. This pediatric academic health system offers expert care through a convenient, community-based primary care network and specialty outpatient centers in the D.C., metropolitan area, including the Maryland and Northern Virginia suburbs. Children's National is home to the Children's National Research Institute and Sheikh Zayed Institute for Pediatric Surgical Innovation and is the nation's seventh-highest NIH-funded children's hospital. It is recognized for its expertise and innovation in pediatric care and as a strong voice for children through advocacy at the local, regional and national levels.

Children's National Hospital

brings innovation to pediatric medicine aiming to create a healthier future for children everywhere.

Children's National Hospital

The hospital, located on the Sheikh Zayed Campus, houses 323 inpatient beds, including 66 dedicated to our Neonatal Intensive Care Unit, which is ranked No. 1 in the country by U.S. News & World Report and recognized by the American Academy of Pediatrics with its highest designation, Level IV. Children's National has more than 60 intensive care beds, a Cardiac Intensive Care Unit and the only pediatric Neuro-Intensive Care unit in the mid-Atlantic region. The hospital is home to the region's busiest Emergency Department and is a designated Level 1 Trauma Center, the highest rating available. The state-of-the-art East Inpatient Tower is designed to enhance family-centered care. The tower has private patient rooms, each with its own bathroom; ample space for parents or guardians to stay overnight with their child; and many amenities, including Internet access.

The hospital features state-of-the-art operating rooms with wireless, robotic equipment for minimally invasive procedures, sophisticated monitoring and real-time, 3-D imaging. Additionally, broadcast and teleconference capability enhances education and training opportunities.

Satellite Emergency Department

Children's National operates a full-service Emergency Department at United Medical Center, located at 1310 Southern Ave. SE in Washington, D.C. Families are encouraged to consult with primary care doctors or health center care teams in deciding when to use the Emergency Department for serious illnesses or injuries. For more information, call 202-741-4100.

Children's National Research Institute

Children's National Research Institute (CNRI) is the academic arm of Children's National. Located on the top floors of the hospital, CNRI encourages scientists, clinicians, nurses and other Children's National staff to undertake research projects that will positively impact the care of children. Through the institute, Children's National offers our patients exclusive access to many pediatric clinical trials addressing a full spectrum of childhood illnesses.

Children's National Outpatient Centers and Specialty Services

The renowned specialists at Children's National practice not only at the hospital on the Sheikh Zayed Campus for Advanced Children's Medicine, but also at outpatient and specialty care centers throughout the Washington, D.C., metropolitan area. These locations make it more convenient for families to access clinical expertise at Children's National. Specialties include imaging, cardiology, gastroenterology, surgery, oncology, neurology and much more.
