

First, I check in at the hospital front desk. I tell them I'm going to visit the dentist

I check in again when I get to the dentist office

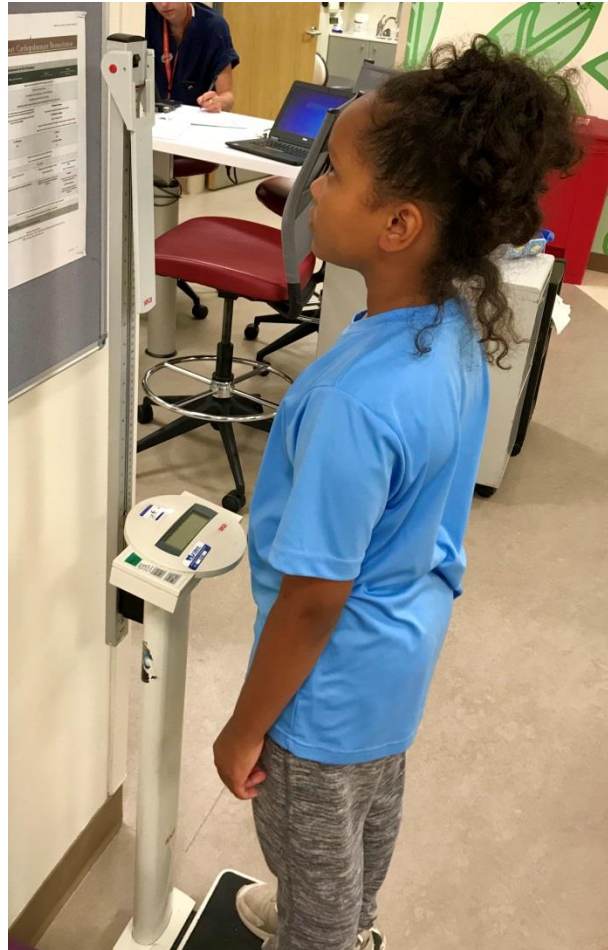

Everyone at the dentist office is nice  
and is happy to see me

Then I sit and wait until the dentist calls my name. That is when I know it is my turn to visit the dentist

Before the dentist checks my teeth,  
the dentist will check how much I  
weigh

Then we will see how tall I am

# The dentist is really nice

Sometimes my dentist wears hospital clothes

When my dentist checks my teeth he wears gloves, a mask, and a jacket to keep me safe

At the dentist I sit in a cool chair that will help me lay flat so the dentist can check my teeth

# The chair is really fun

This is how I lay flat and stay still at the dentist

The dentist will put a napkin and glasses on me to keep my clothes clean and my eyes safe

When my dentist checks my teeth they will use a small mirror and another tool to see my teeth

I open my mouth really big so the dentist can check my teeth

The mirror helps the dentist see all of my teeth.

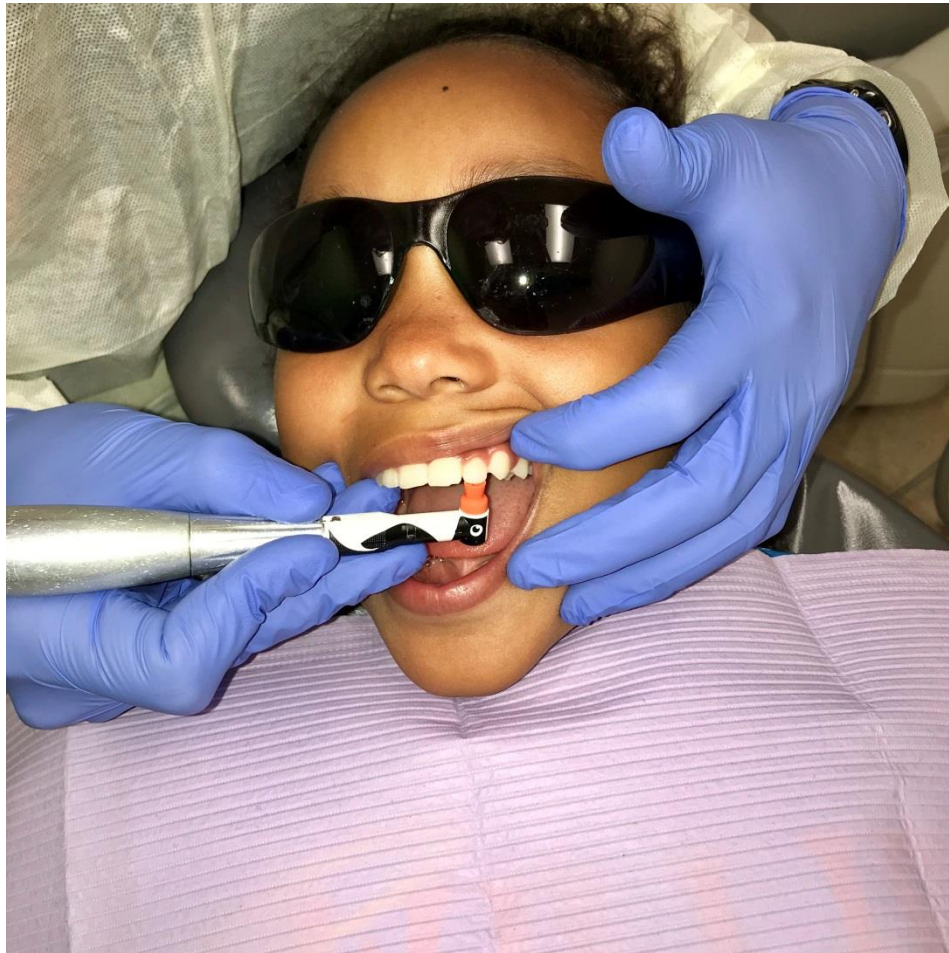

The dentist tools do not hurt and help  
the dentist make sure my teeth are  
healthy

The dentist brushes my teeth with a special toothbrush.

The dentist toothbrush is soft and spins. I can pick my favorite flavor.

When I do a good job at the dentist I  
get stickers or other cool prizes at the  
end
