Rotation Key:

Core Clinical (32 weeks)

16 Weeks Academic Team (inpatient teaching service, care of acute/complex, newborn, surgical co-management)

4 Weeks PICU/ED Combined (acute stabilization of critically ill child, procedural sedation)

4 Weeks Community Hospital (immediate newborn care, delivery room resuscitation, ED consultation, inpatient teaching service)

2 Weeks Palliative Care

2 Weeks Orthopedic-Hospitalist Co-Management

4 Weeks Triage (inpatient teaching service, care of acute/complex, newborn, system throughput, patient safety and stabilization of acutely decompensating patients)

Core Systems and Scholarship-Research (32 weeks)- Composed of protected time dedicated to research and quality improvement education

Individualized Curriculum (IC) (32 weeks)- Additional units from Core Clinical AND Other Elective offerings including but not limited to: Subspecialty Elective (e.g. Child Abuse, Infectious Disease, Radiology), Acute and Chronic Pain Service, Global Health, Health Policy, and additional Research blocks. Dedicated programming in a particular concentration may be pursued via pathway in Complex Care, Quality Improvement, Clinical Research, Medical Education, Community Hospital Leadership and Advocacy under the guidance of PD/APD

**Most clinical and non-clinical experiences during IC will occur at CNH, however, depending on the individual fellow's desire, additional time may be spent at VHC*
