

Advanced Practice Nursing Student Clinical Rotations

PLEASE REVIEW THE EXPERIENCES OFFERED BELOW.

AVAILABILITY FOR ROTATIONS WILL VARY PER SEMESTER.

Please make a separate mCE request for each specialty rotation. All clinical rotation requests must be submitted through [myClinicalExchange](#).

With consideration for your personal schedule and goals, rank your top 5 in order of preference in the additional information section when submitting your application. These preferences are not guaranteed but are taken into consideration.

Many rotation sites will have multiple applicants and can only accommodate one student. To have a standardized and competitive student selection process – all student requests are reviewed. Candidates are selected by the specialty division.

Student placement options must be discussed with clinical faculty prior to submission to ensure the placement request meets their clinical course requirements.

Please address questions to Graduatestudentnursing@childrensnational.org.

All students will need to have an active RN license in the location(s) in which they will be completing their clinical rotation. DC is NOT a compact state.

Department/ Division	Rotation Overview and Pre-requisite(s)	Location(s)	Days/Hours
