

PGY2 Oncology Residency

The Postgraduate Year Two (PGY2) Oncology Pharmacy Residency Program is a Pediatric Oncology Pharmacy-focused program that provides learning experiences centered on patient care and practice management that will enable residency graduates to pursue advanced clinical pharmacist and clinical specialist positions in pediatrics after completion of the program. The residency program will also provide teaching opportunities that will develop pedagogical skills in the context of adjunct faculty appointments with affiliated pharmacy schools. An optional teaching certificate program will be available through the University of Maryland (this will be required

for residents who have not previously completed one). The Division of Pharmacy is affiliated with Howard University School of Pharmacy, University of Maryland School of Pharmacy, Virginia Commonwealth University and Shenandoah University as well as other pharmacy schools around the country.

The PGY2 Oncology Pharmacy Residency has been accredited since 2020 with one position available.

Rotation Experiences

(All experiences are 5 weeks in length)

Required Rotations

- Inpatient pediatric oncology
- Inpatient pediatric bone marrow transplant
- Ambulatory pediatric oncology clinic
- Inpatient pediatric hematology
- Investigational drug services
- Adult oncology
- Pharmacy management / administration

Elective Rotations

- Pediatric ambulatory hematology clinic
- Pediatric bone marrow transplant ambulatory care clinic
- Pediatric infectious disease
- Pediatric palliative care (PANDA)
- Pediatric ICU

Longitudinal Requirements

- Drug Information and Formulary Management
 - *P&T Monograph for formulary addition (minimum 1)*
 - *Drug Class Review*
- Year-long research project
- Lead resident for 13 weeks
- ACPE accredited CE presentation

PGY2 Oncology Additional Program Requirements

Children's National

Andrew Clark,
PharmD, BCOP

**RESIDENCY PROGRAM DIRECTOR,
PGY2 ONCOLOGY**

Oncology Clinical
Pharmacy Specialist

Staffing

PGY2 residents will staff a minimum of 10 weekends spaced throughout the year.

- (4) weekend decentralized staffing (WDC)
- (3) therapeutic drug monitoring (TDM)
- (3) centralized pharmacy staffing in the 4E Chemo Satellite

In addition, PGY2 residents will staff 18 weekday evening centralized shifts in chemo pharmacy.

On-Call Program

PGY2 residents rotate through Clinical On-Call (COC) for 5 weeks (Monday to Monday). These weeks will correlate with WDC or TDM shifts.

PGY2 residents will also rotate through Operations On-Call (OOC) for 2 weeks (Monday to Monday). This will be done during the resident's administration rotation.

Code Program

The Pharmacy Residency Acute Care Simulation Program was developed to address a need within the residency curriculum to provide more consistent exposure to resuscitation scenarios and to meet an ASHP nationally determined requirement for residents to "demonstrate understanding of the management of pediatric medical emergencies."

The simulations provide an opportunity for pharmacy residents to practice hands-on skills and work through common pediatric emergencies in a psychologically safe setting. In the setting of medical emergencies, these simulations influence learners to act in accordance with the organization's policies and procedures, apply appropriate medication therapy, accurately calculate doses and prepare medications, practice effective and confident communication amongst a multidisciplinary team and effectively anticipate needs.

Stipend and Benefits

Stipend: **\$70,000 / year**

Benefits: residents are eligible for health insurance and other benefits as employees of CNH.

Time Off

- 15 days PTO (vacation and sick)
- 7-8 holidays (dependent on holiday coverage)
- 3 professional days to be used for interviews
- Travel to approved conferences (ASHP Midyear and spring PPA)
- 5 dedicated project days

Application Information

Potential candidates for Children's National Pharmacy Postgraduate Year One (PGY1) Residency Program should submit an application no later than January 4th. The residency year begins July 1st, 2024. The items below should be submitted with your application through PHORCAS.

CURRENT CURRICULUM VITAE

It should include (but not be limited to) schools or universities attended (including dates), degrees conferred or expected, honors and awards, extracurricular activities, work experience, clinical rotations (completed and scheduled) and other pertinent information.

THREE LETTERS OF RECOMMENDATION

Two of which are from clinical or academic faculty and one from the most recent employer or someone who can speak to you as an employee.

An interview at Children's National Hospital is required. Applicants will be invited to interview based upon their applications, personal statements and letters of recommendation at a mutually convenient time during late January to early March 2024.
