

ABOUT CHILDREN'S NATIONAL HOSPITAL

Children's National Hospital, based in Washington, D.C., celebrates more than 150 years of pediatric care, research and commitment to the community. Volunteers opened the hospital in 1870 with 12 beds for children displaced after the Civil War. Today, it is among the nation's top 5 children's hospitals and ranked in all specialties evaluated by U.S. News & World Report.

Children's National is transforming pediatric medicine for all children. In 2021, the Children's National Research & Innovation Campus opened, the first in the nation dedicated to pediatric research. Children's National has been designated three times in a row as a Magnet@ hospital, demonstrating the highest standards of nursing and patient care delivery. This pediatric academic health system offers expert care through a convenient, community-based primary care network and specialty care locations in the Washington, D.C., metropolitan area, including Maryland and Northern Virginia. Children's National is home to the Children's National Research Institute and Sheikh Zayed Institute for Pediatric Surgical Innovation. It is recognized for its expertise and innovation in pediatric care and as a strong voice for children through advocacy at the local, regional and national levels.

FEATURES

- A 323-bed acute care hospital.
- The only **Level I Pediatric Trauma Center** in the Washington, D.C., metropolitan area.
- A **critical care transport program** via ambulance and helicopter.
- **16 specialty care centers** spread throughout Maryland, Virginia and Washington, D.C.; plus two Ambulatory Surgery Centers in Maryland.
- A **Level I Children's Surgery Center** designated by the American College of Surgeons Children's Surgery Verification Program— one of only 30 children's hospitals in the nation and the only one in the region to achieve this distinction.
- A recipient of the **Telehealth Accreditation from URAC**— the first pediatric hospital to receive this recognition for our continued commitment to providing quality telehealth services for families.
- **Pediatric Health Network** is the region's premier pediatric-focused clinically integrated network with 1,500 primary and specialty care physicians.
- **17 primary care offices** located throughout Maryland and Washington, D.C.
- **Children's National Research & Innovation Campus**, which opened in 2021, is a one-of-a-kind pediatric research and innovation hub. It houses the Children's National Research Institute (CNRI), a leader in basic and clinical research programs. It is anchored by our Center for Genetic Medicine Research and our Rare Disease Institute and features JLABS @ Washington DC – a collaboration with Johnson & Johnson Innovation LLC.
- **HSC Health Care System Affiliation:** Through the affiliation of The HSC Health Care System with Children's National, children and young adults with complex medical needs in Washington, D.C., and across the region, receive a seamless care experience.
- **Two large emergency departments** located at the main campus and on the United Medical Center campus. Children's National physicians also provide pediatric emergency care in Luminis Health Doctors Community Medical Center's Emergency Department in Prince George's County, Maryland.
- **Community hospital NICU partnerships:** Our Division of Neonatology partners with community hospitals to extend the quality care offered at the Children's National NICU to other areas of the Washington, D.C., metropolitan region.
- **Community-focused programs and partnerships**, including school health services, mobile health services and safety initiatives.

PEOPLE**

Employment numbers include Children's National and HSC employees.

Education

Each year, pediatric training is provided for more than 800 medical students, with 224 third-year medical students from George Washington University (GW), 88 third-year medical students from Howard University, 330 fourth-year students from GW and other medical schools, and 52 physician assistant students.

The Children's National graduate medical education (GME) office provided clinical training to 122 pediatric residents, 8 dentistry residents, 12 child neurology residents, 2 medical genetics residents and 163 fellows, in addition to providing core pediatric training to 793 rotating GME trainees from the region's hospitals.

Advocacy and Community

Safe Kids Worldwide, launched by Children's National in 1987, works to prevent accidental childhood injury, the leading cause of death in children 14 years and younger, through a global network of organizations. Our local coalition, Safe Kids District of Columbia, performed more than 900 car seat inspections in fiscal year 2023, serving more than 500 families.

The Child Health Advocacy Institute (CHAI), launched in 2007, focuses on child-centered policies and works to address community health needs including mental health and health literacy. In partnership with community organizations, government agencies and individuals, Children's National supported more than 150 programs and activities in fiscal year 2023, providing more than \$211 million in community benefit.

Children's School Services (CSS) provides the operational oversight and management of school nursing services and school health programming in the District of Columbia Public Schools (DCPS) and DC Public Charter Schools (DCPCS), with oversight from the District of Columbia Department of Health. The 99 school-based nurses and 62 student health techs in the CSS program cared for students in more than 242,000 health encounters with Washington, D.C., public and charter school students from 182 schools from calendar year January–December 2023.
