

OVERVIEW

Israel Group

DLA Piper at a glance

With over 4,900 lawyers in over 40 countries, DLA Piper is positioned to help companies with their legal needs around the world.

Our locally and internationally trained lawyers operate from offices in the Americas, Asia Pacific, Europe, Africa, and the Middle East, representing clients in a vast range of geographies and practice areas. This international reach provides assurance to businesses looking to transact across borders by offering an integrated law firm that combines a market-leading international

practice with extensive on-the-ground knowledge. In many locations where we do not have our own offices, we have established relationships with firms able to meet our clients' needs. By collaborating with on-the-ground relationship firms, our lawyers aim to deliver seamless, efficient, and high-quality work that sets us apart.

Our clients range from multinational, *Global 1000* and *Fortune 500* enterprises, to emerging companies developing industry-leading technologies.

Israel Group

The DLA Piper Israel Group partners with more than 450 lawyers in nearly 70 jurisdictions and from more than 90 offices across the firm with the knowledge, business alliances, language capabilities, and in-depth understanding of the Israeli business culture, ecosystem, and procedures to assist Israeli companies wherever they do business globally.

We provide a wide range of legal services to Israeli companies, investors, and entrepreneurs in support of their global activities, as well as to companies throughout the world seeking opportunities within Israel.

In addition, we create opportunities for Israeli companies by leveraging our global relationships in the corporate, financial, and governmental arenas, and ultimately match up strategic partners, potential joint ventures, and other business-to-business connections.

Supporting our clients

We actively represent nearly 80 Israeli companies and investors every month, from startups to some of Israel's largest corporations and investors.

We pride ourselves on being collaborative and responsive. We will take the time to get to know you and your business, and we share your commitment to achieving favorable and efficient outcomes.

Working with local counsel

Due to regulations, DLA Piper is restricted from practicing local law in Israel, as are all international law firms. This has allowed our team to regularly work closely with leading local law firms to deliver Israel law advice for multinational companies wherever needed.

We can recommend suitable domestic counsel based on the requirements for each particular transaction, while offering the flexibility to work with a number of preferred legal providers.

We actively manage these relationships to create a single point of contact for any relevant project.

Engaging with the community

We are proud to regularly volunteer with and support local and national charitable organizations and their impactful initiatives revolving around food insecurity, at-risk youth, bereaved families, disabled and seriously ill children, emergency and rehabilitative medicine, war-challenged small businesses, and many other communal needs.

Our differentiators

Platform

In 2005, DLA Piper became one of the largest business law firms in the world through a merger of immense scope. With a presence of more than 4,900 lawyers in 90-plus offices and more than 40 countries, we represent a broad range of clients in a variety of geographies and practice areas.

Global, but local

As the firm's global reach has grown, we have retained our local roots. This enables our clients to take advantage of our expansive networks – in terms of our coverage, standing, and stature – while also benefiting from our local market-to-market presence – from an experience, culture, and pricing perspective.

Worldwide knowledge

DLA Piper publishes a number of resources that address legal questions around the globe. Housed on our [DLA Piper Intelligence](#) site, these include: our [Guides to Going Global](#), which set out business-relevant corporate, employment, equity, intellectual property, technology, and tax laws for companies

expanding into international markets; our [Global Litigation Guide](#), a resource exploring civil litigation issues in key jurisdictions; [Global Contract Laws](#), covering key business-critical, commercial, and contractual issues; a [Global Bribery Offenses Guide](#); and our [Data Protection Laws of the World](#) handbook.

Value-added products and services

We also provide a multitude of value-added products and services, which offer legal information and tools to help clients understand the evolving business climate, plan their business strategies and arrive at practical solutions.

We have an exclusive affiliation with [The Cohen Group](#), an international strategic consulting firm focused on helping companies expand into new markets and solve problems that have a government, political, or regulatory focus. We also sponsor [Global WIN](#), DLA Piper's award-winning series of events, tools and forums that address the technical, commercial, and personal aspects of working in-house.

Finally, we regularly publish alerts, bulletins, and newsletters to keep companies informed of breaking legal news and long-term trends.

Dedicated Israel team

Our core team is immersed in the Israeli business and cultural ecosystems. Since 2009, we have built a trusted advisor practice, with the overriding goal of helping our clients achieve their business objectives as effectively and efficiently as possible. We view ourselves as an extension of our clients, and we aim to partner with them for the long run, whether in connection with day-to-day inquiries, smaller projects, special situations, or large-scale transactions.

“...a strong team with full-service capabilities across numerous jurisdictions – definitely a go-to firm for multi-jurisdictional matters.”
