Construction work stop and reset for safety

17 March 2023

Due to recent safety incidents, Endeavour Energy will be placing a pause on all construction related activities for ASP work, including planned outages, commencing on Monday 20th March. At this stage, all planned outages between 20th - 24th March are cancelled and will be rescheduled. We will provide a further update by Friday 24th March, and we anticipate that our staff will be returning in a staged manner, after next week.

All ASPs' who have planned outages that are impacted over the next two weeks will be contacted directly by a member of the Customer Network Solutions team.

We apologise for any inconvenience this pause has caused. We are committed to the safety of our staff and ASPs, and we look forward to returning to normal business as soon as possible.

Should you need to contact us regarding this pause, please email us at ASPAudit@endeavourenergy.com.au.

Kind regards,

Customer Network Solutions
