## **Electrical Safety Authorisations Manual update**

22 June 2023

We recently updated our Electrical Safety Authorisations Manual.

The manual has been developed for workers and their managers to outline the purpose of authorisation functions, detail the various authorisation functions requirements for work on or near the network, the process of becoming authorised and the requirements to access the network.

You can find the updated manual under *Forms and Procedures* on the [ASP Portal](#).

Kind regards,

**Customer Network Solutions**
